One hot composting method,
the Berkeley method,
developed by the University
of California, Berkley, is a

fast, efficient, high-temperature, composting technique which will produce high quality compost in 18 days.

Project Overview / Project IRENE - Spotlight exhibits at ...

How to Make a Fast Compost Pile. For best results, try to make your pile 4 or 5 feet on each dimension. Place a piece of carpet or plastic over the top of the pile to help trap the heat produced by the pile. If the fast compost pile was made correctly the internal temperature should rise within the first 24 hours.
