The comics collected in Heads or Tails display a virtuosic breadth of visual styles and color palettes, each in perfect service to the story; they range from experimental one-pagers to masterpieces like "The Thing About Madeline" (featured in *The Best American Comics 2008*), to novellas like "The Carnival" (featured in David Sedaris' and Dave Eggers' 2010 Best American Nonrequired Reading). An immediate perennial, documenting the critical rise of the graphic novel. Conventional wisdom states that cartooning and graphic novels exist in a golden age of creativity, popularity, and critical acceptance. But why? Today, the signal is stronger than ever, but so is the noise. New York Times, Vanity Fair, and Bookforum critic Ben Schwartz assembles the greatest lineup of comics critics the world has yet seen to testify on behalf of this increasingly vital medium. *The Best American Comics Writing* is the first attempt to collate the best criticism to date of the graphic novel boom in a way that contextualizes and codifies one of the most important literary movements of the last 60 years. This collection begins in 2000, the game changing year that Pantheon released the graphic novels *Jimmy Corrigan* and *David Boring*. Originally serialized as "alternative" comics, they went on to confirm the critical and commercial viability of graphic literature. Via its various authors, this collection functions as a valuable readers' guide for fans, academics, and librarians, tracing the current comics renaissance from its beginnings and creative growth to the cutting edge of today's artists. This volume includes Daniel Clowes (*Ghost World*) in conversation with novelist Jonathan Lethem (*Fortress of Solitude*), Chris Ware, Jonathan Franzen (*The Corrections*), John Hodgman (*The Daily Show*, *The Areas of My Expertise*, *The New York Times Book Review*), David Hajdu (*The 10-Cent Plague*), Douglas Wolk (*Publishers Weekly*, author of the Eisner award-winning *Reading Comics*), Frank Miller (*Sin City* and *The Spirit* film director) in conversation with Will Eisner (*The Spirit*'s creator), Gerard Jones' (*Men of Tomorrow*), Brian Doherty (author *Radicals of Capitalism*, *This is Burning Man*) and critics Ken Parille (*Comic Art*), Jeet Heer (*The National Post*), R.C. Harvey (biographer of Milton Caniff), and Donald Phelps (author of the landmark book of comics criticism, *Reading the Funnies*). *Best American Comics Writing* also features a cover by nationally known satirist Drew Friedman (*The New York Observer*, *Old Jewish Comedians*) in which Friedman asks, "tongue-in-cheek," if cartoonists are the new literati, what must their critics look like?

The Best American Comics 2008 Continuum

The sweeping story of cartoons, comic strips, and graphic novels and their hold on the American imagination. Comics have conquered America. From our multiplexes, where Marvel and DC movies reign supreme, to our television screens, where comics-based shows like The Walking Dead have become among the most popular in cable history, to convention halls, best-seller lists, Pulitzer Prize – winning titles, and MacArthur Fellowship recipients, comics shape American culture, in ways high and low, superficial, and deeply profound. In American Comics, Columbia

professor Jeremy Dauber takes readers through their incredible but little-known history, starting with the Civil War and cartoonist Thomas Nast, creator of the lasting and iconic images of Uncle Sam and Santa Claus; the golden age of newspaper comic strips and the first great superhero boom; the moral panic of the

Eisenhower era, the Marvel Comics revolution, and the underground comix movement of the 1960s and '70s; and finally into the twenty-first century, taking in the grim and gritty Dark Knights and Watchmen alongside the brilliant rise of the graphic novel by acclaimed practitioners like Art Spiegelman and Alison Bechdel. Dauber's story shows not only how comics have

changed over the decades but how American politics and culture have changed them. Throughout, he describes the origins of beloved comics, champions neglected masterpieces, and argues that we can understand how America sees itself through whose stories comics tell. Striking and revelatory, American Comics is a rich chronicle of the last 150 years of American history through the lens of its comic strips, political cartoons, superheroes, graphic novels, and more. The Ten-Cent Plague McFarland

In the years between World War II and the emergence of television as a mass medium, American popular culture as we know it was first created—in the pulpy, boldly illustrated pages of comic books. No sooner had this new culture emerged than it was beaten down by church groups, community bluestockings, and a McCarthyish Congress—only to resurface with a crooked smile on its face in Mad magazine. The story of the rise and fall of those comic books has never been fully told—until The Ten-Cent Plague. David Hajdu's remarkable new book vividly opens up the lost world of comic books, its creativity,

irreverence, and suspicion of authority. When we picture the 1950s, we hear the sound of early rock and roll. The Ten-Cent Plague shows how--years before music--comics brought on a clash between children and their parents, between prewar and postwar standards. Created by outsiders from the tenements, garish, shameless, and often shocking, comics spoke to young people and provided the guardians of mainstream culture with a big target. Parents, teachers, and complicit kids burned comics in public bonfires. Cities passed laws to outlaw comics. Congress took action with televised hearings that nearly destroyed the careers of hundreds of artists and writers. The Ten-Cent Plague radically revises common notions of popular culture, the generation gap, and the divide between "high" and "low" art. As he did with the lives of Billy Strayhorn and Duke Ellington (in *Lush Life*) and Bob Dylan and his circle (in *Positively 4th Street*), Hajdu brings a place, a time, and a milieu unforgettably back to life.
