The Year's Best Science Fiction: Thirty-Fifth Annual Collection Ballantine Books

The Sixth Sense meets Planet of the Apes in a moving science fiction novel set so far in the future, humanity is gone and forgotten in Lawrence M. Schoen's Barsk: The Elephants' Graveyard An historian who speaks with the dead is ensnared by the past. A child who feels no pain and who should not exist sees the future. Between them are truths that will shake worlds. In a distant future, no remnants of human beings remain, but their successors thrive throughout the galaxy. These are the offspring of humanity's genius—animals uplifted into walking, talking, sentient beings. The Fant are one such species: anthropomorphic elephants ostracized by other races, and long ago exiled to the rainy ghetto world of Barsk. There, they develop medicines upon which all species now depend. The most coveted of these drugs is koph, which allows a small number of users to interact with the recently deceased and learn their secrets. To break the Fant's control of koph, an offworld shadow group attempts to force the Fant to surrender their knowledge. Jorl, a Fant Speaker with the dead, is compelled to question his deceased best friend, who years

ago mysteriously committed suicide. In so doing, Jorl unearths a secret the powers that be would prefer to keep buried forever. Meanwhile, his dead friend's son, a physically challenged young Fant named Pizlo, is driven by disturbing visions to take his first unsteady steps toward an uncertain future.

The Very Best of the Best Constable

A collection of the best science fiction short stories of the 20th century as selected and evaluated by critically-acclaimed author Orson Scott Card.

In much of the science fiction of the past, the twenty-first century existed only in the writers' imaginations. Now that it's here, it's time to take a look back at the last one hundred years in science fiction through the works of the most celebrated and acclaimed authors of the century—to see where we've been and just how far we've come. Along with a critical essay by Orson Scott Card reassessing science fiction in the twentieth century, *Masterpieces* includes short fiction by writers who have forged a permanent place for science fiction in the popular culture of today...and tomorrow. It offers a glimpse of the greatest works that mixed science with fiction in trying to figure out humanity's place in the

universe. Featuring bold, brave, and breathtaking stories, this definitive collection will stand the test of time in both this century and those to come.

Exhalation Simon and Schuster

A biological plague begins infecting artificial intelligence; a natural-born Earth woman seeking asylum on another planet finds a human society far different from her own; a food blogger's posts chronicle a nationwide medical outbreak; trapped in a matchmaking game, a couple tries to escape from the only world they know; a janitor risks everything to rescue a "defective" tank-born baby he can raise as his own. For decades, science fiction has compelled us to imagine futures both inspiring and cautionary. Whether it's a warning message from a survey ship, a harrowing journey to a new world, or the adventures of well-meaning AI, science fiction feeds the imagination and delivers a lens through which we can better understand ourselves and the world around us. With *The Best Science Fiction of the Year Volume One*, award-winning editor Neil Clarke provides a year-in-review and thirty-one of the best stories published by both new and established authors in 2015.

#1 NEW YORK TIMES BESTSELLER • From the author of *The Martian*, a lone astronaut must save the earth from disaster in this “propulsive” (Entertainment Weekly), cinematic thriller full of suspense, humor, and fascinating science—in development as a major motion picture starring Ryan Gosling. HUGO AWARD FINALIST • ONE OF THE YEAR’S BEST BOOKS: Bill Gates, *GatesNotes*, New York Public Library, Parade, Newsweek, Polygon, Shelf Awareness, She Reads, Kirkus Reviews, Library Journal • “An epic story of redemption, discovery and cool speculative sci-fi.”—USA Today “If you loved *The Martian*, you’ll go crazy for Weir’s latest.”—The Washington Post Ryland Grace is the sole survivor on a desperate, last-chance mission—and if he fails, humanity and the earth itself will perish. Except that right now, he doesn’t know that. He can’t even remember his own name, let alone the nature of his assignment or how to complete it. All he knows is that he’s been asleep for a very, very long time. And he’s just been awakened to find himself millions of miles from home, with nothing but two corpses for company. His crewmates dead, his memories fuzzily returning, Ryland realizes that an impossible task now confronts him. Hurtling through space on this tiny ship, it’s up to him to puzzle out an impossible scientific mystery—and conquer an extinction-level threat to our species. And with the clock ticking down and the nearest human being light-years away, he’s got to do it all alone. Or does he? An irresistible interstellar adventure as only Andy Weir could deliver, *Project Hail Mary* is a tale of discovery, speculation, and survival to rival *The Martian*—while taking us to places it never dreamed of going.

The Best Science Fiction of the Year Spectra

The bestselling author of *The Martian* returns with an irresistible new near-future thriller—a heist story set on the moon. Jasmine Bashara never signed up to be a hero. She just wanted to get rich. Not crazy, eccentric-billionaire rich, like many of the visitors to her hometown of Artemis, humanity’s first and only lunar colony. Just rich enough to move out of her coffin-sized apartment and eat something better than

flavored algae. Rich enough to pay off a debt she’s owed for a long time. So when a chance at a huge score finally comes her way, Jazz can’t say no. Sure, it requires her to graduate from small-time smuggler to full-on criminal mastermind. And it calls for a particular combination of cunning, technical skills, and large explosions—not to mention sheer brazen swagger. But Jazz has never run into a challenge her intellect can’t handle, and she figures she’s got the ‘swagger’ part down. The trouble is, engineering the perfect crime is just the start of Jazz’s problems. Because her little heist is about to land her in the middle of a conspiracy for control of Artemis itself. Trapped between competing forces, pursued by a killer and the law alike, even Jazz has to admit she’s in way over her head. She’ll have to hatch a truly spectacular scheme to have a chance at staying alive and saving her city. Jazz is no hero, but she is a very good criminal. That’ll have to do. Propelled by its heroine’s wisecracking voice, set in a city that’s at once stunningly imagined and intimately familiar, and brimming over with clever problem-solving and heist-y fun, *Artemis* is another irresistible brew of science, suspense, and humor from #1 bestselling author Andy Weir.
