Bucailleism is a movement to
relate modern science with
religion, and especially that of
Islam. Since the publishing of
The Bible, the Quran and
Science, Bucaillists have
promoted the idea that the Quran
is of divine origin, arguing that it
contains scientifically correct
facts. According to The Wall
Street Journal, Bucailleism is "in
some ways the Muslim
counterpart to Christian
creationism" and although "while
creationism rejects much of
modern science, Bucailleism
embraces it."
