"This enjoyable book delivers a lesson, and its playful drawings invite the young reader into a wonderful place somewhere between fantasy and reality." --New York Times Book Review "A girl frustrated with her parents' rules fires them and hires a dragon to take their place." --Publishers Weekly, Included in Fall 2018 Announcements "While mystery writer Laura Lippmann's debut picture book, *Liza Jane and the Dragon* (Akashic, Oct.), illustrated by Kate Samworth, actually is being marketed towards children, it's also an allegory for the 2016 election. Liza Jane is a little girl who fires her parents and hires as her new parent a fire-belching dragon that drives away her friends and looks suspiciously like Trump." --Publishers Weekly, Included in Roundup of Political Books related to Donald Trump "Laura Lippman, who is best known for her gritty thrillers for adult readers, has written her debut picture book, *Liza Jane and the Dragon*, illustrated by Kate Samworth, definitely for children. Adult readers, however, will likely recognize that this isn't simply a tale about a girl and her dragon; it's also an allegory of the 2016 election: Liza Jane fires her parents and hires a dragon with an orange mane to be her new parent." --Publishers Weekly, Included in feature on Trumpian Political Humor "This appealing debut picture book is enriched by the strategic use of color in Samworth's dreamy illustrations, and kids will roar at the dragon's outrageous antics. This delightfully quirky read deserves a

place in most collections." --School Library Journal "Written with an impressive originality by Laura Lippman and illustrated with the exceptionally artwork of Kate Samworth, *Liza Jane & the Dragon* is unreservedly recommended." --Midwest Book Review Included in the Bay Area Reporter's Fall 2018 Reading Guide "Bestselling crime fiction author Lippman's picture book debut tells the story of what happens when Liza Jane fires her mom and dad and hires the first applicant who comes to the door to be her new parent. The only problem is that the dragon has only one response to all problems: opening his mouth and belching fire. No one wants to play with Liza Jane. And all that fire is bad for the furniture." --Publishers Weekly, Included in The Big Indie Books of Fall 2018 "Silly, funny and a joy to read. The illustrations are great, too. Get a copy for your little one, they'll read it more than once!" --Journey of a Bookseller Liza Jane believed she could find better parents. So she fired her mom and dad and hired the first applicant who came to the door--what could possibly go wrong? And at first everything was fun. The dragon did whatever Liza Jane wanted him to do. But it turned out the dragon had only one response to all problems--opening his mouth and belching fire. Suddenly, people were scared of Liza Jane. The pizza delivery man didn't want to come to her house. No one wanted to play with her. And all that fire was very bad for the furniture. Could Liza Jane have been wrong about what kind of qualities she wanted in a parent?

The British are coming. This "biography of a single day"

captures the burning of the White House by the British during the War of 1812 from the viewpoint of the people who were there, including First Lady Dolley Madison, a British officer, and a nine-year-old slave. A call to action from Jane Fonda, one of the most inspiring activists of our time, urging us to wake up to the looming disaster of climate change and equipping us with the tools we need to join her in protest "This is the last possible moment in history when changing course can mean saving lives and species on an unimaginable scale. It's too late for moderation." In the fall of 2019, frustrated with the obvious inaction of politicians and inspired by Greta Thunberg, Naomi Klein, and student climate strikers, Jane Fonda moved to Washington, D.C., to lead weekly climate change demonstrations on Capitol Hill. On October 11, she launched Fire Drill Fridays, and has since led thousands of people in nonviolent civil disobedience, risking arrest to protest for action. In *What Can I Do?*, Fonda weaves her deeply personal journey as an activist alongside conversations with and speeches by leading climate scientists and inspiring community organizers, and dives deep into the issues, such as water, migration, and human rights, to emphasize what is at stake. Most significantly, Fonda equips us all with the tools we need to join her in protest, so that everyone can work to combat the climate crisis. No stranger to protest, Fonda's life has been famously shaped by activism. And now she is once again galvanizing the public to take to the streets. Many are already aware of the looming disaster of climate change and realize that a moral responsibility rests on our shoulders. In 2019, we saw atmospheric concentrations of greenhouse gases hit the highest level ever recorded in human history, and our window of opportunity to act is quickly closing. We are facing a climate crisis, but we're also facing an empathy crisis and an inequality crisis; the surge of protests over police violence against black Americans has once again highlighted the links between racism and environmental degradation in our country. It isn't only earth's life-support systems that are unraveling. So too is our social fabric. This is going to take an all-out war on drilling and fracking and deregulation and racism and misogyny and colonialism and despair all at the same time. As Annie

Leonard, executive director of Greenpeace USA and Fonda's partner in developing Fire Drill Fridays, has declared, "Change is inevitable; by design, or by disaster." Together, we can commandeer change for the positive—but it will require collective actions taken by social movements on an unprecedented scale. The problems we face now require every one of us to join the fight. The fight for not only our immediate future, but for the future of generations to come. 100% of the author's net proceeds from *What Can I Do?* have gone to Greenpeace

I Am the Storm Bantam

Longlisted for the 2014 National Book Award From the winner of the Pulitzer Prize: a powerful, engrossing new novel—the life and times of a remarkable family over three transformative decades in America. On their farm in Denby, Iowa, Rosanna and Walter Langdon abide by time-honored values that they pass on to their five wildly different children: from Frank, the handsome, willful first born, and Joe, whose love of animals and the land sustains him, to Claire, who earns a special place in her father's heart. Each chapter in *Some Luck* covers a single year, beginning in 1920, as American soldiers like Walter return home from World War I, and going up through the early 1950s, with the country on the cusp of enormous social and economic change. As the Langdons branch out from Iowa to both coasts of America, the personal and the historical merge seamlessly: one moment electricity is just beginning to power the farm, and the next a son is volunteering to fight the Nazis; later still, a girl you'd seen growing up now has a little girl of her own, and you discover that your laughter and your admiration for all these lives are mixing with tears. *Some Luck* delivers on everything we look for in a work of fiction. Taking us through cycles of births and deaths, passions and betrayals, among characters we come to know inside and out, it is a tour de force that stands wholly on its own. But it is also the first part of a dazzling epic trilogy—a literary adventure that will span a century in America: an astonishing feat of storytelling by a beloved writer at the height of her powers.

National Bestseller CNBC and Strategy + Business Best Business Book of the Year It's the biggest revolution you've never heard of, and it's hiding in plain sight. Over the past decade, Silicon Valley executives like Eric Schmidt and Elon Musk, Special Operators like the Navy SEALs and the Green Berets, and maverick scientists like Sasha Shulgin and Amy Cuddy have turned everything we thought we knew about high performance upside down. Instead of grit, better habits, or 10,000 hours, these trailblazers have found a surprising short cut. They're harnessing rare and controversial states of consciousness to solve critical challenges and outperform the competition. New York Times bestselling author Steven Kotler and high performance expert Jamie Wheal spent four years investigating the leading edges of this revolution—from the home of SEAL Team Six to the Googleplex, the Burning Man festival, Richard Branson's Necker Island, Red Bull's training center, Nike's innovation team, and the United Nations' Headquarters. And what they learned was stunning: In their own ways, with differing languages, techniques, and applications, every one of these groups has been quietly seeking the same thing: the boost in information and inspiration that altered states provide. Today, this revolution is spreading to the mainstream, fueling a trillion dollar underground economy and forcing us to rethink how we can all lead richer, more productive, more satisfying lives. Driven by four accelerating forces—psychology, neurobiology, technology and pharmacology—we are gaining access to and insights about some of the most contested and misunderstood terrain in history. *Stealing Fire* is a provocative examination of what's actually possible; a guidebook for anyone who wants to radically upgrade their life.

At the center of the story, Aldred Leith, a brave and brilliant soldier, finds that survival and worldly achievement are not enough. Helen Driscoll, a young girl living in occupied Japan and tending her dying brother, falls in love, and in the process discovers herself.
