You've just boarded a plane. You've loaded your phone with your favorite podcasts, but before you can pop in your earbuds, disaster strikes: The guy in the next seat starts telling you all about something crazy that happened to him--in great detail. This is the unwelcome storyteller, trying to convince a reluctant audience to care about his story. We all hate that guy, right? But when you tell a story (any kind of story: a novel, a memoir, a screenplay, a stage play, a comic, or even a cover letter), you become the unwelcome storyteller. So how can you write a story that audiences will embrace? The answer is simple: Remember what it feels like to be that jaded audience. Tell the story that would win you over, even if you didn't want to hear it. The Secrets of Story provides comprehensive, audience-focused strategies for becoming a master storyteller. Armed with the Ultimate Story Checklist, you can improve every aspect of your fiction writing with incisive questions like these: • Concept: Is the one-sentence description of your story uniquely appealing? • Character: Can your audience identify with your hero? • Structure and Plot: Is your story ruled by human nature? • Scene Work: Does each scene advance the plot and reveal character through emotional reactions? • Dialogue: Is your characters' dialogue infused with distinct personality traits and speech patterns based on their lives and backgrounds? • Tone: Are you subtly setting, resetting, and upsetting expectations? • Theme: Are you using multiple ironies throughout the story to create meaning? To succeed in the world of fiction and film, you have to work on every aspect of your craft and satisfy your audience. Do both--and so much more--with The Secrets of Story.

The Secret Life of Albert Entwistle Simon and Schuster  
Almost seventy-five years ago, MI9 dreamt up the most audacious escape and evasion plan of World War Two. Formulated by Airey Neave, one of the first men ever to escape from Colditz, this plan was one of subterfuge, concealment and deception on a scale never seen before. With numerous downed RAF and Allied pilots on the run in Europe and with the fabled Comete Escape Line having been infiltrated by double agents, Neave's plan was to hide these men right under the very noses of the Nazis rather than risk repatriation. Choosing a forest in the heart of France, right next to one of the German Army's largest ammunition bases, Neave, Belgian agents and the French Resistance would secretly transport and hide Allied pilots and soldiers within feet of the enemy. Nobody thought it would work, but such was the success of the secret camp that a whole community of over one hundred and fifty Allied escapers lived within the forest for three months in the run-up to D-Day. Despite numerous close shaves, they were never discovered and this outrageous plan, brilliant in its simplicity, saw the Allied evaders make their home in the forest, cooking and hunting to survive - and even setting up a golf course in the forest using branches for clubs - without discovery. This operation remained absolutely secret, to the point that the inhabitants of the villages surrounding the forest were unaware, until the end, of the existence of that allied force so close to them. Told through interviews with evaders, members of the Resistance and the children charged with smuggling food into the forest, this book tells the compelling story of one of the most audacious operations in World War Two. A story that has, until today, remained as secret as the Hidden Army of Freteval.

In a humorous, charmingly wise novel perfect for fans of Fredrik Backman and TJ Klune, the forced retirement of a shy, closeted postman in northern England creates the opportunity for him to track down his lost love, embrace his true self, connect with his community, and finally experience his life's great adventure... "This rollicking romance entrapped me! True in its detail and its scope, it is amusing yet heart-breaking."  
--Ian McKellen  
Albert Entwistle is a private man with a quiet, simple life in his northern England village. He lives alone with his cat Gracie. And he's a postman. At least he was a postman until, three months before his sixty-fifth birthday, he receives a letter from the Royal Mail thanking him for decades of service and stating he is being forced into retirement. At once, Albert's sole connection with his world unravels. Every day as a mail carrier, he would make his way through the streets of his small English town, delivering letters and parcels and returning greetings with a quick wave and a "how do?" Without the work that fills his days, what will be the point? He has no friends, family, or hobbies--just a past he never speaks of, and a lost love that fills him with regret. And so, rather than continue his lonely existence, Albert forms a brave plan to start truly living. It's finally time to be honest about who he is. To seek the happiness he's always denied himself. And to find the courage to look for George, the man that, many years ago, he loved and lost--but has never forgotten. As he does, something extraordinary happens. Albert finds unlikely allies, new friends, and proves it's never too late to live, to hope, and to love. A Note from Matt Cain, the author of The Secret Life of Albert Entwistle "One of the things that inspired me to write this novel was all the joy I felt at seeing gay men like myself being embraced by British society. I think you'd be hard-pushed to find any other minority community in the UK that was as hated, feared and vilified as gay men were fifty years ago and is now as widely celebrated and loved. Acceptance of gay men has become a touchstone of British values within less than a decade, something that even the most optimistic commentators couldn't have predicted. I wanted to write a book that would celebrate this. And I sincerely hope The Secret Life of Albert Entwistle makes its readers feel good about themselves and the part they've played in bringing about this extraordinary social shift." --Matt Cain

Required reading at Harvard Business School and Columbia Business School. Everyone wants to be more appealing and effective, but few believe we can manage the personal magnetism of a Bill Clinton or an Oprah Winfrey. John Neffinger and Matthew Kohut trace the path to influence through a balance of strength (the root of respect) and warmth (the root of affection). Each seems simple, but only a few of us figure out the tricky task of projecting both at once. Drawing on cutting-edge social science research as well as their own work with Fortune 500 executives, members of Congress, TED speakers, and Nobel Prize winners, Neffinger and Kohut reveal how we size each other up—and how we can learn to win the admiration, respect, and affection we desire.

NATIONAL BESTSELLER • The astonishing and hugely entertaining story that completely changed the way we run. An epic adventure that began with one simple question: Why does my foot hurt? “Equal parts quest, physiology treatise, and running history.... The climactic race reads like a sprint.... It simply makes you want to run.” —Outside Magazine  
Isolated by Mexico's deadly Copper Canyons, the blissful Tarahumara Indians have honed the ability to run hundreds of miles without rest or injury. In a riveting narrative, award-winning journalist and often-injured runner Christopher McDougall sets out to discover their secrets. In the process, he takes his readers from science labs at Harvard to the sun-baked valleys and freezing peaks across North America, where ever-growing numbers of ultra-runners are pushing their bodies to the limit, and, finally, to a climactic race in the Copper Canyons that pits America’s best ultra-runners against the tribe. McDougall’s incredible story will not only engage your mind but inspire your body when you realize that you, indeed all of us, were born to run. Look for Born to Run 2, coming in December!

With a New Conclusion by the Author  
On the night of October 6, 1998, twenty-one-year-old Matthew Shepard left a bar with two alleged “strangers,” Aaron McKinney and Russell Henderson. Eighteen hours later, Matthew was found tied to a log fence on the outskirts of town, unconscious and barely alive. Overnight, a politically expedient myth took the place of important facts. By the time Matthew died a few days later, his name was synonymous with anti-gay hate. The Book of Matt, first published in 2013, demonstrated that the truth was in fact far more complicated – and daunting. Stephen Jimenez’s account revealed primary documents that had been under seal, and gave voice to many with firsthand knowledge of the case who had not been heard from, including members of law enforcement. In his Introduction to this updated edition, journalist Andrew Sullivan writes: “No one wanted Steve Jimenez to report this story, let alone go back and back to Laramie, Wyoming, asking awkward questions, puzzling over strange discrepancies, re-interviewing sources, seeking a deeper, more complex truth about the ghastly killing than America, it turned out, was prepared to hear. It was worse than that, actually. Not only did no one want to hear more about it, but many were incensed that the case was being re-examined at all.” As a gay man Jimenez felt an added moral imperative to tell the story of Matthew’s murder honestly, and his reporting has been thoroughly corroborated. “I urge you to read [The Book of Matt] carefully and skeptically,” Sullivan writes, “and to see better how life rarely fits into the neat boxes we want it to inhabit. That Matthew Shepard was a meth dealer and meth user says nothing that bad about him, and in no way mitigates the hideous brutality of the crime that killed him; instead it shows how vulnerable so many are to the drug’s escapist lure and its astonishing capacity to heighten sexual pleasure so that it’s the only thing you want to live for. Shepard was a victim twice over: of meth and of a fellow meth user.”

CLUB PICK • ONE OF GQ's TOP 50 BOOKS OF LITERARY JOURNALISM IN THE 21st CENTURY • The heartrending story of a midcentury American family with twelve children, six of them diagnosed with schizophrenia, that became science's great hope in the quest to understand the disease. "Reads like a medical detective journey and sheds light on a topic so many of us face: mental illness." —Oprah Winfrey Don and Mimi Galvin seemed to be living the American dream. After World War II, Don's work with the Air Force brought them to Colorado, where their twelve children perfectly spanned the baby boom: the oldest born in 1945, the youngest in 1965. In those years, there was an established script for a family like the Galvins--aspiration, hard work, upward mobility, domestic harmony--and they worked hard to play their parts. But behind the scenes was a different story: psychological breakdown, sudden shocking violence, hidden abuse. By the mid-1970s, six of the ten Galvin boys, one after another, were diagnosed as schizophrenic. How could all this happen to one family? What took place inside the house on Hidden Valley Road was so extraordinary that the Galvins became one of the first families to be studied by the National Institute of Mental Health. Their story offers a shadow history of the science of schizophrenia, from the era of institutionalization, lobotomy, and the schizophrenogenic mother to the search for genetic markers for the disease, always amid profound disagreements about the nature of the illness itself. And unbeknownst to the Galvins, samples of their DNA informed decades of genetic research that continues today, offering paths to treatment, prediction, and even eradication of the disease for future generations. With clarity and compassion, bestselling and award-winning author Robert Kolker uncovers one family's unforgettable legacy of suffering, love, and hope.

In the tradition of Stacy Schiff's Cleopatra, Brown lays to rest the hoary myth that Viking society was ruled by men and celebrates the dramatic lives of female Viking warriors "Once again, Brown brings Viking history to vivid, unexpected life--and in the process, turns what we thought we knew about Norse culture on its head. Superb." —Scott Weidensaul, author of New York Times bestselling A World on the Wing

"Magnificent. It captured me from the very first page..." —Pat Shipman, author of The Invaders "A complex, important, and delightful addition to women's history." —Pamela D. Toler, author of Women Warriors: An Unexpected History

In 2017, DNA tests revealed to the collective shock of many scholars that a Viking warrior in a high-status grave in Birka, Sweden was actually a woman. The Real Valkyrie weaves together archaeology, history, and literature to imagine her life and times, showing that Viking women had more power and agency than historians have imagined. Nancy Marie Brown uses science to link the Birka warrior, whom she names Hervor, to Viking trading towns and to their great trade route east to Byzantium and beyond. She imagines her life intersecting with larger-than-life but real women, including Queen Gunnhild Mother-of-Kings, the Viking leader known as The Red Girl, and Queen Olga of Kyiv. Hervor's short, dramatic life shows that much of what we have taken as truth about women in the Viking Age is based not on data, but on nineteenth-century Victorian biases. Rather than holding the household keys, Viking women in history, law, saga, poetry, and myth carry weapons. These women brag, "As heroes we were widely known—with keen spears we cut blood from bone." In this compelling narrative Brown brings the world of those valkyries and shield-maids to vivid life.

Reconstructing Public Housing unearths Liverpool's hidden history of radical alternatives to municipal housing development and builds a vision of how we might reconstruct public housing on more democratic and cooperative foundations. In this critical social history, Matthew Thompson brings to light how and why this remarkable city became host to two pioneering social movements in collective housing and urban regeneration experimentation. In the 1970s, Liverpool produced one of Britain's largest, most democratic and socially innovative housing co-op movements, including the country's first new-build co-op to be designed, developed and owned by its member-residents. Four decades later, in some of the very same neighbourhoods, several campaigns for urban community land trusts are growing from the grassroots - including the first ever architectural or housing project to be nominated for and win, in 2015, the artworld's coveted Turner Prize. Thompson traces the connections between these movements; how they were shaped by, and in turn transformed, the politics, economics, culture and urbanism of Liverpool. Drawing on theories of capitalism and cooperativism, property and commons, institutional change and urban transformation, Thompson reconsiders Engels' housing question, reflecting on how collective alternatives work in, against and beyond the state and capital, in often surprising and contradictory ways.

Even as he awaits trial, accused murderer Robert Durst can't seem to stay out of the headlines. The subject of the HBO documentary The Jinx and the upcoming Lifetime movie The Lost Wife of Robert Durst, his story is as captivating as it is horrifying. Here, from the first reporter to access Durst's NYPD files, is the authoritative account of a decades-long criminal odyssey—the very book found in Durst's own apartment when it was searched by police. When medical student Kathie Durst vanished in 1982, she was married to Robert Durst, son of a New York real estate magnate. Kathie's friends had reason to implicate her husband. They told police that Kathie lived in terror of Robert, and that she had uncovered incriminating financial evidence about him. But Durst's secrets went even deeper. For decades, Kathie's disappearance remained a mystery. Then in 2001, Durst, an heir to an empire valued at two billion dollars, was arrested for shoplifting in Pennsylvania. When the police brought him in, they discovered that he was a suspect in the murder of Texas drifter Morris Black, whose dismembered remains were found floating in Galveston Bay, and that Durst was also wanted for questioning in the killing of his friend, Susan Burman, in Los Angeles. Based on interviews with family, friends, and acquaintances of Durst, law enforcement, and others involved in the case, A Deadly Secret is a cross-country odyssey of stolen IDs and multiple identities that raises baffling questions about one of the country's most prominent families—and one of its most elusive suspected killers. Includes additional material not in the original Berkley edition and eight pages of photographs

For two decades, pastor and leadership consultant Matt Keller has worked with hundreds of influencers, and he has learned that the greatest enhancer or greatest limiter to a person's success is whether someone is teachable. In The Key to Everything, Keller shows how teachability isn't something that some people are born with and others aren't. It is a characteristic that can be learned and grown. In fact, the only way to succeed in life is to possess teachability in an ever-

increasing fashion, and The Key to Everything reveals how to do just that.

2014 International Latino Awards Finalist A Pulitzer Prize-winning journalist uncovers the true story of an immigrant's murder that turned a quaint village on the Long Island shore into ground zero in the war on immigration

In November 2008, 37-year-old Marcelo Lucero, an unassuming worker at a dry cleaner's and an undocumented Ecuadorean immigrant, was attacked and murdered by a group of teenagers as he walked the streets of the Long Island village of Patchogue accompanied by a childhood friend. The attackers were out "hunting for beaners." Some of the kids later confessed that chasing, harassing, and assaulting defenseless "beaners"—their slur for Latinos—was part of their weekly entertainment. In recent years, Latinos have become the target of hate crimes as the nation wrestles with swelling numbers of undocumented immigrants. Public figures fan the flames and advance their careers by spewing anti-immigration rhetoric. In death, Lucero became a symbol of everything that was wrong with our broken immigration system: fewer opportunities to obtain travel visas to the United States, porous borders, a growing dependency on cheap labor, and the rise of bigotry. Drawing on firsthand interviews and on-the-ground reporting, journalist Mirta Ojito has crafted an unflinching portrait of one community struggling to reconcile the hate and fear underlying the idyllic veneer of their all-American town. With a strong commitment to telling all sides of the story, Ojito unravels the engrossing narrative with objectivity and insight, providing an invaluable look at one of America's most pressing issues. "Reminds us how we might think of each other and how we treat all of our neighbors, whether or not they look like us. This is our human story."—Wes Moore, author of The Other Wes Moore

Life is full of tough calls and daunting decisions. The question isn't if you'll face a big decision in the future, but how you'll face the tough call that's guaranteed to come your way. Think about it. There are wedding proposals to ponder, college applications to submit, career moves to make, homes to sell, and confrontations to consider. And, knowing how poorly things could go, we sometimes find ourselves facing these decisions with a deep fear of future regret. The pressure is on. Or is it? Short and straightforward, yet full of practical insight and spiritual truths, Tough Call, will help you see that the Christian faith offers a mindset to confidently and joyfully make your next big decision. More importantly you'll see that you can face life with your fears recognized, your peace maximized, and your hope anchored in something greater than your ability to "get it right." Readers familiar with authors like Acuff, Chan, and Tchividjian will resonate with Matt Popovits's witty, practical, and gospel-centered take on complicated topics. Tough Call is an enjoyable and essential read for any and all facing a major decision.
