Required reading at Harvard Business School and Columbia Business School. Everyone wants to be more appealing and effective, but few believe we can manage the personal magnetism of a Bill Clinton or an Oprah Winfrey. John Neffinger and Matthew Kohut trace the path to influence through a balance of strength (the root of respect) and warmth (the root of affection). Each seems simple, but only a few of us figure out the tricky task of projecting both at once. Drawing on cutting-edge social science research as well as their own work with Fortune 500 executives, members of Congress, TED speakers, and Nobel Prize winners, Neffinger and Kohut reveal how we size each other up—and how we can learn to win the admiration, respect, and affection we desire. NEW YORK TIMES BESTSELLER • WINNER OF THE PULITZER PRIZE • NAMED ONE OF TIME'S TEN BEST NONFICTION BOOKS OF THE DECADE • One of the most acclaimed books of our time, this modern classic "has set a new standard for reporting on poverty" (Barbara Ehrenreich, The New York Times Book Review). In Evicted, Princeton sociologist and MacArthur "Genius" Matthew Desmond follows eight families in Milwaukee as they each struggle to keep a roof over their heads. Hailed as "wrenching and revelatory" (The Nation), "vivid and unsettling" (New York Review of Books), Evicted transforms our understanding of poverty and economic exploitation while providing fresh ideas for solving one of twenty-first-century America's most devastating problems. Its unforgettable scenes of hope and loss remind us of the centrality of home, without which nothing else is possible. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY President Barack Obama • The New York Times Book Review • The Boston Globe • The Washington Post • NPR • Entertainment Weekly • The New Yorker • Bloomberg • Esquire • BuzzFeed • Fortune • San Francisco Chronicle • Milwaukee Journal Sentinel • St. Louis Post-Dispatch • Politico • The Week • Chicago Public Library • BookPage • Kirkus Reviews • Library Journal • Publishers Weekly • Booklist • Shelf Awareness WINNER OF: The National Book Critics Circle Award for Nonfiction • The PEN/John Kenneth Galbraith Award for Nonfiction • The Andrew Carnegie Medal for Excellence in Nonfiction • The Hillman Prize for Book Journalism • The PEN/New England Award • The Chicago Tribune Heartland Prize FINALIST FOR THE LOS ANGELES TIMES BOOK PRIZE AND THE KIRKUS PRIZE

"Evicted stands among the very best of the social justice books." —Ann Patchett, author of Bel Canto and Commonwealth "Gripping and moving—tragic, too." —Jesmyn Ward, author of Salvage the Bones "Evicted is that rare work that has something genuinely new to say about poverty." —San Francisco Chronicle

The House of the Scorpion Thomas Nelson

With a New Conclusion by the Author On the night of October 6, 1998, twenty-one-year-old Matthew Shepard left a bar with two alleged "strangers," Aaron McKinney and Russell Henderson. Eighteen hours later, Matthew was found tied to a log fence on the outskirts of town, unconscious and barely alive. Overnight, a politically expedient myth took the place of important facts. By the time Matthew died a few days later, his name was synonymous with anti-gay hate. The Book of Matt, first published in 2013, demonstrated that the truth was in fact far more complicated — and daunting. Stephen Jimenez's account revealed primary documents that had been under seal, and gave voice to many with firsthand knowledge of the case who had not been heard from, including members of law enforcement. In his Introduction to this updated edition, journalist Andrew Sullivan writes: "No one wanted Steve Jimenez to report this story, let alone go back and back to Laramie, Wyoming, asking awkward questions, puzzling over strange discrepancies, re-interviewing sources, seeking a deeper, more complex truth about the ghastly killing than America, it turned out, was prepared to hear. It was worse than that, actually. Not

only did no one want to hear more about it, but many were incensed that the case was being re-examined at all." As a gay man Jimenez felt an added moral imperative to tell the story of Matthew's murder honestly, and his reporting has been thoroughly corroborated. "I urge you to read [The Book of Matt] carefully and skeptically," Sullivan writes, "and to see better how life rarely fits into the neat boxes we want it to inhabit. That Matthew Shepard was a meth dealer and meth user says nothing that bad about him, and in no way mitigates the hideous brutality of the crime that killed him; instead it shows how vulnerable so many are to the drug's escapist lure and its astonishing capacity to heighten sexual pleasure so that it's the only thing you want to live for. Shepard was a victim twice over: of meth and of a fellow meth user."

This educational and interactive picture book immerses the reader in the strange and interwoven lifecycles of a tropical fig tree in the rainforest, and the tiny insects and colorful creatures that call it home.

Following the growth of a seed dropped into the canopy of a rainforest tree by a flying toucan, Something Wonderful teaches the interdependence of rainforest ecology in an easy-to-follow, captivating story. Flip the beautifully illustrated pages and experience the journey of the fig seedling making roots and leaves, growing strong, eventually replacing the giant tree that was its host, making figs, attracting pollinators, and developing its life-giving seeds. Something Wonderful happens next. The delectable fig fruit is hungrily eaten by a passing toucan who, upon flight, aimlessly drops a seed from its poop into the treetops below, beginning the fig's lifecycle once again. Discover additional scientific information about the pollination process, insects, and animals found in the story in an illustrated section at the end of the book. Readers can play a "seek and find" game of locating the elusive red-eyed tree frog on each page of the story. Take a journey, from the tiny to the grand, while making your way through the tropical rainforest on the path to uncover Something Wonderful...

Blindsight Anchor

In the tradition of Stacy Schiff's Cleopatra, Brown lays to rest the hoary myth that Viking society was ruled by men and celebrates the dramatic lives of female Viking warriors "Once again, Brown brings Viking history to vivid, unexpected life—and in the process, turns what we thought we knew about Norse culture on its head. Superb." —Scott Weidensaul, author of New York Times bestselling A World on the Wing "Magnificent. It captured me from the very first page..." —Pat Shipman, author of The Invaders "A complex, important, and delightful addition to women's history." —Pamela D. Toler, author of Women Warriors: An Unexpected History In 2017, DNA tests revealed to the collective shock of many scholars that a Viking warrior in a high-status grave in Birka, Sweden was actually a woman. The Real Valkyrie weaves together archaeology, history, and literature to imagine her life and times, showing that Viking women had more power and agency than historians have imagined. Nancy Marie Brown uses science to link the Birka warrior, whom she names Hervor, to Viking trading towns and to their great trade route east to Byzantium and beyond. She imagines her life intersecting with larger-than-life but real women, including Queen Gunnhild Mother-of-Kings, the Viking leader known as The Red Girl, and Queen Olga of Kyiv. Hervor's short, dramatic life shows that much of what we have

taken as truth about women in the Viking Age is based not on data, but on nineteenth-century Victorian biases. Rather than holding the household keys, Viking women in history, law, saga, poetry, and myth carry weapons. These women brag, "As heroes we were widely known—with keen spears we cut blood from bone." In this compelling narrative Brown brings the world of those valkyries and shield-maids to vivid life.

How to Stop Time Penguin

#1 NEW YORK TIMES BESTSELLER • OPRAH'S BOOK CLUB PICK • ONE OF GQ'S TOP 50 BOOKS OF LITERARY JOURNALISM IN THE 21st CENTURY • The heartrending story of a midcentury American family with twelve children, six of them diagnosed with schizophrenia, that became science's great hope in the quest to understand the disease. "Reads like a medical detective journey and sheds light on a topic so many of us face: mental illness." —Oprah Winfrey Don and Mimi Galvin seemed to be living the American dream. After World War II, Don's work with the Air Force brought them to Colorado, where their twelve children perfectly spanned the baby boom: the oldest

born in 1945, the youngest in 1965. In those years, there was an established script for a family like the Galvins--aspiration, hard work, upward mobility, domestic harmony--and they worked hard to play their parts. But behind the scenes was a different story: psychological breakdown, sudden shocking violence, hidden abuse. By the mid-1970s, six of the ten Galvin boys, one after another, were diagnosed as schizophrenic. How could all this happen to one family? What took place inside the house on Hidden Valley Road was so extraordinary that the Galvins became one of the first families to be studied by the National Institute of Mental Health. Their story offers a shadow history of the science of schizophrenia, from the era of institutionalization, lobotomy, and the schizophrenogenic mother to the search for genetic markers for the disease, always amid profound disagreements about the nature of the illness itself. And unbeknownst to the Galvins, samples of their DNA informed decades of genetic research that continues today, offering paths to treatment, prediction, and even eradication of the disease for future generations. With clarity and compassion, bestselling and award-winning author Robert Kolker uncovers one family's unforgettable legacy of suffering, love, and hope.

Hunting Season A John Scognamiglio Book
On the front lines with extreme hoarders *The Secret Lives of Hoarders* is much more than harrowing tales of attacking the ugliest, dirtiest, and most shocking hoarding cases in the country. It is a behind-the-scenes look at this hidden epidemic- what it means, how to recognize it before it gets out of hand, and how to deal with it. Through his work with hundreds of clients in the worst circumstances- from the giant "rat's nest" that hid more than \$13,000 in cash to a vast cache of cartoon pornography to twenty-five years' worth of unopened mail-Matt Paxton has learned to understand this disorder and his clients' impulses to collect, to speak the hoarders' language, and to reach out to them with compassion and concern while avoiding criticism and judgment. Most important, he guides compulsive hoarders successfully through every step of the clean-up and healing process. *The Secret Lives of Hoarders* is an engrossing and sometimes unsettling look at extreme clutter but one that helps hoarders, their families, and their friends to find meaning in the chaos.

The Key to Everything Pacific Street Publishing

The publication of the King James version of the Bible, translated between 1603 and 1611, coincided with an extraordinary flowering of English literature and is universally acknowledged as the greatest influence on English-language literature in history. Now, world-class literary writers introduce the book of the King James Bible in a series of beautifully designed, small-format volumes. The introducers' passionate, provocative, and personal engagements with the spirituality and the language of the text make the Bible come alive as a stunning work of literature and remind us of its overwhelming contemporary relevance.

The Living Penguin

An irreverent, surprising, and entirely entertaining look at the little-known history surrounding the foods we know and love Is Italian olive oil really Italian, or are we dipping our bread in lamp oil? Why are we masochistically drawn to foods that can hurt us, like hot peppers? Far from being a classic American dish, is apple pie actually . . . English? "As a species, we're hardwired to obsess over food," Matt Siegel explains as he sets out "to uncover the hidden side of everything

we put in our mouths." Siegel also probes subjects ranging from the myths--and realities--of food as aphrodisiac, to how one of the rarest and most exotic spices in all the world (vanilla) became a synonym for uninspired sexual proclivities, to the role of food in fairy- and morality tales. He even makes a well-argued case for how ice cream helped defeat the Nazis. *The Secret History of Food* is a rich and satisfying exploration of the historical, cultural, scientific, sexual, and, yes, culinary subcultures of this most essential realm. Siegel is an armchair Anthony Bourdain, armed not with a chef's knife but with knowledge derived from medieval food-related manuscripts, ancient Chinese scrolls, and obscure culinary journals. Funny and fascinating, *The Secret History of Food* is essential reading for all foodies.

Reconstructing Public Housing Beacon Press
For two decades, pastor and leadership consultant Matt Keller has worked with hundreds of influencers, and he has learned that the greatest enhancer or greatest limiter to a person's success is whether someone is teachable. In *The Key to Everything*, Keller shows how teachability isn't something that some people are born with and others aren't. It is a characteristic that can be learned and grown. In fact, the only way to succeed in life is to possess teachability in an ever-increasing fashion, and *The Key to Everything* reveals how to do just that.

The Meaning of Matthew Penguin

A Collection of Matt Shaw's heartbreaking dramas Matt Shaw does not just write horror. In fact, when asked what his favourite books are, he often names the tales collected within this set. Stories of heartbreak, loss and grief - all with an element of hope... A hope we often forget when dealing with grief. Contained within this collection *Heaven's Calling BOY: Built to Love The Missing Years of Thomas Pritchard* (unpublished short story) *Alone Heaven's Calling* Josh and Holly could face anything thrown at them all the time they had each other. Their love would conquer anything and the world was their oyster. But when a tragic accident tears Josh away from Holly she realises that, without her husband, she cannot cope and her world begins to crumble; her loss being more than she can handle. Until, that is, she receives a phone call. Her late husband. The same time every day; he doesn't appear to know what has happened to him and Holly can't bring herself to tell him. She isn't even sure if it really is him calling or whether it's all in her tormented mind. Especially seeing as the calls only happen when she is alone. Is it all in her head, has she gone mad, or is heaven really calling? *Boy: Built to Love* No parent should have to bury their own child and yet that was exactly what they had to do. *Stillborn*; a young boy never to open his eyes to take in the world around him. And now Lucy and Jack's marriage was on the verge of crumbling under the strain of the grief they struggled to cope with. A grief made worse when the doctors tell them they'll never be able to have a child of their own due to complications from the last pregnancy. But what if it didn't have to be that way? What if there was a way of using science and technology to create a son they could love? What if Jack was able to use Artificial Intelligence to create *A Boy: Built to Love*? Is the answer to their problems to be found within the world of

science-fiction or are they setting themselves up for yet more grief and sadness? *The Missing Years of Thomas Pritchard* August 3rd. 6:03am. The tranquil summer's morning was shattered by the desperate screams of Thomas' mother echoing down the near deserted suburban street. The few people milling about outside getting ready for their daily business had said they couldn't make out what the cries were about when they were interviewed. Not initially. Not until Anne, a pretty woman in her early thirties with shoulder length blonde hair, spilled out onto the street wearing nothing more than her dressing gown and slippers anxiously calling out for her five year old son, Thomas, to come out from wherever he was hiding. Eye witnesses reported Anne was closely followed by her husband Bill - a professional, clean-shaven man in his late thirties with dark, short hair - half dressed for work in his suit trousers and unbuttoned white shirt, and that he too looked just as frantic as the mother did. The year was 2003; the year Thomas disappeared from his home without a trace. * * * * * August 3rd. 6:03am. A young, fragile looking hand knocked confidently on the white PVC of the front door to number twenty-two. The hand belonged to a smartly dressed, skinny fourteen year old, fresh-faced boy. Whilst waiting for an answer to his knocking he slid a brown leather satchel off his shoulder down onto the floor as though the weight was too much for him to bear any more. He went to knock again but stopped himself when he heard the sound of footsteps from the other side of the door as the freshly woken homeowner came to answer his initial knocking. There was the slightest of pauses as keys were twisted in locks before the door opened as much as the strong, gold, security chain would permit it to. "Can I help you?" asked the homeowner, a frail looking woman in her late sixties. "Where's my mum?" asked the boy. The year was 2012; the year Thomas came home.

Born to Run Penguin

In a humorous, charmingly wise novel perfect for fans of Fredrik Backman and TJ Klune, the forced retirement of a shy, closeted postman in northern England creates the opportunity for him to track down his lost love, embrace his true self, connect with his community, and finally experience his life's great adventure... "This rollicking romance entrapped me! True in its detail and its scope, it is amusing yet heart-breaking." --Ian McKellen *Albert Entwistle* is a private man with a quiet, simple life in his northern England village. He lives alone with his cat Gracie. And he's a postman. At least he was a postman until, three months before his sixty-fifth birthday, he receives a letter from the Royal Mail thanking him for decades of service and stating he is being forced into retirement. At once, Albert's sole connection with his world unravels. Every day as a mail carrier, he would make his way through the streets of his small English town, delivering letters and parcels and returning greetings with a quick wave and a "how do?" Without the work that fills his days, what will be the point? He has no friends, family, or hobbies--just a past he never speaks of, and a lost love that fills him with regret. And so, rather than continue his lonely existence, Albert forms a brave plan to start truly living. It's finally time to be honest about who he is. To seek the happiness he's always denied himself. And to find the courage to look for George, the man that, many years ago, he loved and lost--but has never forgotten. As he does, something extraordinary happens. Albert finds unlikely allies, new friends, and

proves it's never too late to live, to hope, and to love. A Note from Matt Cain, the author of *The Secret Life of Albert Entwistle* "One of the things that inspired me to write this novel was all the joy I felt at seeing gay men like myself being embraced by British society. I think you'd be hard-pushed to find any other minority community in the UK that was as hated, feared and vilified as gay men were fifty years ago and is now as widely celebrated and loved. Acceptance of gay men has become a touchstone of British values within less than a decade, something that even the most optimistic commentators couldn't have predicted. I wanted to write a book that would celebrate this. And I sincerely hope *The Secret Life of Albert Entwistle* makes its readers feel good about themselves and the part they've played in bringing about this extraordinary social shift." --Matt Cain

The Book of Matt HarperCollins

#1 NEW YORK TIMES BESTSELLER "[A] poetic reckoning of the importance of love in a child's life . . . eloquent and moving."--People "Everything that can be called love -- from shared joy to comfort in the darkness -- is gathered in the pages of this reassuring, refreshingly honest picture book."--The New York Times Book Review, Editors' Choice / Staff Picks From the Book Review "Lyrical and sensitive, 'Love' is the sort of book likely to leave readers of all ages a little tremulous, and brimming with feeling."--The Wall Street Journal From Newbery Medal-winning author Matt de la Peña and bestselling illustrator Loren Long comes a story about the strongest bond there is and the diverse and powerful ways it connects us all. "In the beginning there is light and two wide-eyed figures standing near the foot of your bed and the sound of their voices is love. . . . A cab driver plays love softly on his radio while you bounce in back with the bumps of the city and everything smells new, and it smells like life." In this heartfelt celebration of love, Newbery Medal-winning author Matt de la Peña and bestselling illustrator Loren Long depict the many ways we experience this universal bond, which carries us from the day we are born throughout the years of our childhood and beyond. With a lyrical text that's soothing and inspiring, this tender tale is a needed comfort and a new classic that will resonate with readers of every age.
