Virtue and Knowledge Simon and Schuster
This anthology of character-building stories from history, the Bible, mythology, poetry, and modern fiction will inspire readers to cherish the strength, security and joy of faithful friendship.

Our Country's Founders Simon and Schuster
Former president Jimmy Carter reflects on aging, blending memoir, anecdote, political savvy, and practical advice to truly illuminate the rich promises of growing older. "As we've grown older, the results have been surprisingly good," writes former president Jimmy Carter in this wise, deeply personal meditation on the new experiences that come to us with age. President Carter had never enjoyed more prestige or influence on the world stage, nor had he ever felt more profound happiness with himself, with his accomplishments, and with his beloved wife, Rosalynn, than in his golden years. In *The Virtues of Aging*, Jimmy Carter shares the knowledge and the pleasures that age have brought him. The approach to old age was not an easy one for President Carter. At fifty-six, having lost a presidential election, he found himself involuntarily retired from a job he loved and facing a large debt on his farm and warehouse business. President Carter writes movingly here of how he and Rosalynn overcame their despair and disappointment as together they met the challenges ahead. President Carter delves into issues he and millions of others confront in planning for retirement, undertaking new diet and exercise regimens, coping with age prejudice, and sorting out key political questions. On a more intimate level, Carter paints a glowing portrait of his happy marriage to Rosalynn, a relationship that deepened when they became grandparents. Here too are fascinating sketches of world leaders, Nobel laureates, and great thinkers President Carter has been privileged to know—and the valuable lessons on aging he learned from them. *The Virtues of Aging* celebrates both the blessings that come to us as we grow older and the blessings older people can bestow upon others. An important and moving book, written with gentleness, humor, and love, *The Virtues of Aging* is a treasure for readers of all ages.

Towards Justice and Virtue Books of American Wisdom
A book of advice from our nation's founders on how to be a good citizen and a worthy member of civil society.

The Book of Virtues Thomas Nelson Publishers
Towards Justice and Virtue challenges the rivalry between those who advocate only abstract, universal principles of justice and those who commend only the particularities of virtuous lives. Onora O'Neill traces this impasse to defects in underlying conceptions of reasoning about action. She proposes and vindicates a modest account of ethical reasoning and a reasoned way of answering the question 'who counts?', then uses these to construct linked accounts of principles by which we can move towards just institutions and virtuous lives.

Moral Compass Simon and Schuster
William Lee Miller 's ethical biography is a fresh, engaging telling of the story of Lincoln 's rise to power. Through careful scrutiny of Lincoln 's actions, speeches, and writings, and of accounts from those who knew him, Miller gives us insight into the moral development of a great politician — one who made the choice to go into politics, and ultimately realized that vocation 's fullest moral possibilities. As Lincoln 's Virtues makes refreshingly clear, Lincoln was not born with his face on Mount Rushmore; he was an actual human being making choices — moral choices — in a real world. In an account animated by wit and humor, Miller follows this unschooled frontier politician 's rise, showing that the higher he went and the greater his power, the worthier his conduct would become. He would become that rare bird, a great man who was also a good man. Uniquely revealing of its subject 's heart and mind, it represents a major contribution to our understanding and of Lincoln, and to the perennial American discussion of the relationship between politics and morality.

The Book of Man Simon and Schuster
Drawing on thinkers from Aristotle to Simone Weil, by way of Aquinas, Kant, Rilke, Nietzsche, Spinoza, and

Rawls, among others, Comte-Sponville elaborates on the qualities that constitute the essence and excellence of humankind.

Reclaiming American Virtue Zondervan
Provides a theologically substantive yet accessible overview of moral theology grounded in the Catholic tradition that is also illuminative to non-Catholic Christians.

The Children's Book of Heroes Hatherleigh Press
With his hated father dead, a man 's life takes a dangerous turn. He doesn 't cry when his father, Frank, dies. The old man was an abusive, self-absorbed drunk, and when cancer takes him to his deathbed, his son is there to watch. At Frank 's final moment he leans over and whispers in his ear, letting the dying man know that he 's glad to see him go. His only inheritance is a heavy, leather-bound book. He has never seen it before, and has trouble believing that his brutal, ignorant father ever touched something so beautiful. But the volume is well-thumbed, full of aphorisms and advice written in the dead man 's hand. Soon after he reads it, the son finds his life spiraling out of control. If he doesn 't want to follow Daddy to the grave, he had best heed the lessons of the book. The Bibliomysteries are a series of short tales about deadly books, by top mystery authors.

After Virtue John Wiley & Sons
Originally published in 1991, this book focuses on the concept of virtue, and in particular on the virtue of wisdom or knowledge, as it is found in the epic poems of Homer, some tragedies of Sophocles, selected writings of Plato, Aristotle, and the Stoic and Epicurean philosophers. The key questions discussed are the nature of the virtues, their relation to each other, and the relation between the virtues and happiness or well-being. This book provides the background and interpretative framework to make classical works on Ethics, such as Plato 's Republic and Aristotle 's Nicomachean Ethics, accessible to readers with no training in the classics.

Virtues of Friendship and Loyalty University of Chicago Press
Four entertaining, inspiring stories from *Adventures from the Book of Virtues*, the animated TV series adapted from William J. Bennett's best-selling *The Book Of Virtues*.

The Virtues of Captain America Harmony
The American commitment to promoting human rights abroad emerged in the 1970s as a surprising response to national trauma. In this provocative history, Barbara Keys situates this novel enthusiasm as a reaction to the profound challenge of the Vietnam War and its aftermath. Instead of looking inward for renewal, Americans on the right and the left looked outward for ways to restore America's moral leadership. Conservatives took up the language of Soviet dissidents to resuscitate the Cold War, while liberals sought to dissociate from brutally repressive allies like Chile and South Korea. When Jimmy Carter in 1977 made human rights a central tenet of American foreign policy, his administration struggled to reconcile these conflicting visions. Yet liberals and conservatives both saw human rights as a way of moving from guilt to pride. Less a critique of American power than a rehabilitation of it, human rights functioned for Americans as a sleight of hand that occluded from view much of America's recent past and confined the lessons of Vietnam to narrow parameters. From world's judge to world's policeman was a small step, and American intervention in the name of human rights would be a cause both liberals and conservatives could embrace.

The Book of Virtues for Boys and Girls Simon and Schuster
This study locates Aquinas 's theory of infused and acquired virtue in his foundational understanding of nature and grace. Aquinas holds that all the virtues are bestowed on humans by God along with the gift of

sanctifying grace. Since he also holds, with Aristotle, that we can create virtuous dispositions in ourselves through our own repeated good acts, a question arises: How are we to understand the relationship between the virtues God infuses at the moment of grace and virtues that are gradually acquired over time? In this important book, Angela McKay Knobel provides a detailed examination of Aquinas 's theory of infused moral virtue, with special attention to the question of how the infused and acquired moral virtues are related. Part 1 examines Aquinas 's own explicit remarks about the infused and acquired virtues and considers whether and to what extent a coherent " theory " of the relationship between the infused and acquired virtues can be found in Aquinas. Knobel argues that while Aquinas says almost nothing about how the infused and acquired virtues are related, he clearly does believe that the " structure " of the infused virtues mirrors that of the acquired in important ways. Part 2 uses that structure to evaluate existing interpretations of Aquinas and argues that no existing account adequately captures Aquinas 's most fundamental commitments. Knobel ultimately argues that the correct account lies somewhere between the two most commonly advocated theories. Written primarily for students and scholars of moral philosophy and theology, the book will also appeal to readers interested in understanding Aquinas 's theory of virtue.

William of Ockham: Questions on Virtue, Goodness, and the Will 右灰文化傳播有限公司可提供下載列印
WHAT IT MEANS TO BE A MAN Raising up men has never been easy, but today is seems particularly tough. The young and old need heroes to embody the eternal qualities of manhood: honor, duty, valor, and integrity. In *The Book of Man*, William J. Bennett points the way, offering a positive, encouraging, uplifting, realizable idea of manhood, redolent of history and human nature, and practical for contemporary life. Using profiles, stories, letters, poems, essays, historical vignettes, and myths to bring his subject to life, *The Book of Man* defines what a man should be, how he should live, and to what he should aspire in several key areas of life: war, work, leisure, and more. "Whether we take up the sword, the plow, the ball, the gavel, our children, or our Bibles," says Bennett, "we must always do it like the men we are called to be." *The Book of Man* shows how.

The Book of Virtue Routledge

The Bourgeois Virtues University of Notre Dame Press
EVERY art and every inquiry, and similarly every action and pursuit, is thought to aim at some good; and for this reason the good has rightly been declared to be that at which all things aim. But a certain difference is found among ends; some are activities, others are products apart from the activities that produce them. Where there are ends apart from the actions, it is the nature of the products to be better than the activities. Now, as there are many actions, arts, and sciences, their ends also are many; the end of the medical art is health, that of shipbuilding a vessel, that of strategy victory, that of economics wealth. But where such arts fall under a single capacity- as bridle-making and the other arts concerned with the equipment of horses fall under the art of riding, and this and every military action under strategy, in the same way other arts fall under yet others- in all of these the ends of the master arts are to be preferred to all the subordinate ends; for it is for the sake of the former that the latter are pursued. It makes no difference whether the activities themselves are the ends of the actions, or something else apart from the activities, as in the case of the sciences just mentioned.

Stylistic Virtue and Victorian Fiction Simon & Schuster
From the renowned author of *Possession*, *The Children 's Book* is the absorbing story of the close of what has been called the Edwardian summer: the deceptively languid, blissful period that ended with the cataclysmic destruction of World War I. In this compelling novel, A.S. Byatt summons up a whole era, revealing that beneath its golden surface lay tensions that would explode into war, revolution and unbelievable change — for the generation that came of age before 1914 and, most of all, for their children. The novel centres around Olive Wellwood, a fairy tale writer, and her circle, which includes the brilliant, erratic craftsman Benedict Fludd and his apprentice Phillip Warren, a runaway from the poverty of the Potteries; Prosper Cain, the soldier who directs what will become the Victoria and Albert Museum; Olive 's brother-in-law Basil Wellwood, an officer of the Bank of England; and many others from every layer of society. A.S. Byatt traces their lives in intimate detail and moves between generations, following the children who must choose whether to follow the roles expected of them or stand up to their parents ' " porcelain socialism. " Olive 's daughter Dorothy wishes to become a doctor, while her other daughter, Hedda, wants to fight for votes for women. Her son Tom, sent to an upper-class school,

wants nothing more than to spend time in the woods, tracking birds and foxes. Her nephew Charles becomes embroiled with German-influenced revolutionaries. Their portraits connect the political issues at the heart of nascent feminism and socialism with grave personal dilemmas, interlacing until *The Children’s Book* becomes a perfect depiction of an entire world. Olive is a fairy tale writer in the era of Peter Pan and Kenneth Grahame’s *The Wind In the Willows*, not long after Alice’s *Adventures in Wonderland*. At a time when children in England suffered deprivation by the millions, the concept of childhood was being refined and elaborated in ways that still influence us today. For each of her children, Olive writes a special, private book, bound in a different colour and placed on a shelf; when these same children are ferried off into the unrelenting destruction of the Great War, the reader is left to wonder who the real children in this novel are. *The Children’s Book* is an astonishing novel. It is an historical feat that brings to life an era that helped shape our own as well as a gripping, personal novel about parents and children, life’s most painful struggles and its richest pleasures. No other writer could have imagined it or created it.

Lincoln’s Virtues Simon and Schuster

From the author of *The Moral Compass* and *The Death of Outrage*, William J. Bennett’s bestselling *The Book of Virtues* is an inspiring anthology that helps children understand and develop moral character—and helps parents teach it to them. Responsibility. Courage. Compassion. Honesty. Friendship. Persistence. Faith. Everyone recognizes these traits as essentials of good character. In order for our children to develop such traits, we have to offer them examples of good and bad, right and wrong. And the best places to find them are in great works of literature and exemplary stories from history. William J. Bennett has collected hundreds of stories in *The Book of Virtues*. From the Bible to American history, from Greek mythology to English poetry, from fairy tales to modern fiction, these stories are a rich mine of moral literacy, a reliable moral reference point that will help anchor our children and ourselves in our culture, our history, and our traditions—the sources of the ideals by which we wish to live our lives. Complete with instructive introductions and notes, *The Book of Virtues* is a book the whole family can read and enjoy—and learn from—together.
