Corps cadets, Once An Eagle is the story of one special man, a soldier named Sam Damon, and his adversary over a lifetime, fellow officer Courtney Massengale. Damon is a professional who puts duty, honor, and the men he commands above self-interest. Massengale, however, brilliantly advances by making the right connections behind the lines and in Washington's corridors of power. Beginning in the French countryside during the Great War, the conflict between these adversaries solidifies in the isolated garrison life marking peacetime, intensifies in the deadly Pacific jungles of World War II, and reaches its treacherous conclusion in the last major battleground of the Cold War—Vietnam. Now with a new foreword by acclaimed historian Carlo D'Este, here is an unforgettable story of a man who embodies the best in our nation—and in us all.

The medieval Latin poem *Speculum Humanae Salvationis* (known in English as *The Mirror of Human Salvation*) was one of the most popular works of the fourteenth and fifteenth centuries with preachers and laity alike. Utilizing a typological approach to interpretation, it combines Old Testament and New Testament events and figures to depict an integrated narrative of redemption. As such, the *Speculum* is not only an outstanding model of medieval biblical interpretation, but also a fascinating case study in allegorical reading habits and the interplay between text and image. This Scholars Initiative project comprises the first modern transcription and English translation of the full Latin *Speculum*, accompanied by annotations tracing the biblical references and detailed notes explaining the visual iconography.

In the 21st Century war and espionage have been transformed. With the CIA on the ropes, the armed forces stretched thin, and the need for special operations capabilities at an all-time high, the United States government has turned to private corporations to help shoulder the load. Companies such as Blackwater USA, Triple Canopy and Abraxas field over 50,000 private soldiers and spies who conduct missions formerly restricted to the military and the CIA. National security has been outsourced. In *Outsourced* Camille Black, a former CIA counterterrorism officer, has left the Agency to create Black Management, a private corporation that specializes in providing former Special Forces operators and CIA case officers for covert operations. Active in the volatile Middle East, it competes heavily in the cutthroat counterterrorism business. One day, the CIA contracts Camille to track down and eliminate her ex-fiancé Hunter Stone, a Pentagon spy accused of selling arms to terrorist cells. Battling her old feelings, but fueled by Stone's disloyalty to both his country and to her, Camille slips into the shadows of the War on Terror to track him down. Dodging death with each step, she finds herself in the crossfire of the Pentagon and the CIA, where good and evil blur and trust is bought and sold. *Outsourced* exposes the headlines of tomorrow. Impeccably researched and masterfully crafted, *Outsourced* is an edge-of-your seat thriller with a rare glimpse behind the scenes into how private corporations conduct and profit from the multi-billion dollar War on Terror.

CREEPERS, David Morrell's gripping joyride of a thriller, depicts every harrowing second in eight hours of relentless terror. A New York Times bestseller, it received the prestigious Stoker Award from the Horror Writers Association. On a cold October night, five people gather in a run-down motel on the New Jersey shore and begin preparations to break in to the Paragon Hotel. Built in the glory days of Asbury Park by a reclusive millionaire, the magnificent structure—which foreshadowed the beauties of art-deco architecture—is now boarded up and marked for demolition. The five people are "creepers," the slang term for urban explorers: city archeologists with a passion for investigating abandoned buildings and their dying secrets. On this evening, they are joined by a reporter who wants to profile them—anonymously, as this is a highly illegal activity—for a New York Times article. Frank Balenger isn't looking for just a story, however. And after the group enters

the rat-infested tunnel leading to the hotel, it becomes clear that he will get much more than he bargained for. Danger, terror, and death await the creepers in a place ravaged by time and redolent of evil. The darkest secrets live in places you're not supposed to be. "Chilling." —Stephen King, New York Times bestselling author of Doctor Sleep "Crack this novel, and it's like an alien abduction of your brain—forget resuming your normal life until it's finished. This will be a classic."—Douglas Preston, New York Times bestselling co-author (with Lincoln Child) of White Fire "With its nonstop cascade of ingeniously contrived dangers and assaults, culminating in an apocalyptic finale, Creepers provides the essence of all thrillers, an intense emotional effect that will leave readers drained."—Washington Post

The secret weapon developed by the man Cavanaugh is assigned to protect is like Kryptonite to the former Delta Force officer turned security guard--it multiplies the effects of adrenaline, a hormone associated with fear, so it incapacitates instead of energizing him. A lot of people want Daniel Prescott's secret, but Cavanaugh, who's felt the drug's effects, wants his antidote. When Prescott disappears after causing the death of the Global Protective Services team charged with keeping him alive, Cavanaugh and his wife Jamie go after him in a high-speed chase that traps them between government agents and foreign operatives each racing to find the scientist first and kill him before he can use his formula on them. Despite Prescott's double-dealing, and the bloody battle in a mountain redoubt that results in the deaths of his friends and colleagues, Cavanaugh knows the only way to banish the fear that may compromise his and Jamie's own safety is to track the

elusive scientist to his last refuge. In this propulsive thriller, Morrell turns the tables so often that it's hard to separate the good guys from the bad ones, but that won't keep readers addicted to violence, treachery, and high-tech weaponry from staying with it to the last surprising chapter.

“Spectacular action backed by the author’s hands-on research . . . a horrifying climax . . . twists and turns . . . one of the best of the genre.”—Associated Press “Everything [Morrell] writes has a you-are-there quality, and that, coupled with his ability to propel characters through a scene, makes reading him like attending a private screening.”—Washington Post Book World “Impressive action . . . plenty of twists . . . most notable, though, is the advertised ‘tradcrafft’—from clever ways to modify one’s ammo and armor to the very best method of taking out a car you’re chasing.”—Publishers Weekly “The story accelerates to warp speed, hurtles to a stunning climax. A wonderfully entertaining action adventure.”—Booklist
