With swashbuckling action

that recalls Dumas's Three Musketeers, Sebastien de Castell has created a dynamic new fantasy series. In *Traitor's Blade*, a disgraced swordsman struggles to redeem himself by protecting a young girl caught in the web of a royal conspiracy. The King is dead, the Greatcoats have been disbanded, and Falcio Val Mond and his fellow magistrates Kest and Brasti have been reduced to working as bodyguards for a nobleman who refuses to pay them. Things could be worse, of course. Their employer could be lying dead on the floor while they

are forced to watch the killer plant evidence framing them for the murder. Oh wait, that's exactly what's happening. Now a royal conspiracy is about to unfold in the most corrupt city in the world. A carefully orchestrated series of murders that began with the overthrow of an idealistic young king will end with the death of an orphaned girl and the ruin of everything that Falcio, Kest, and Brasti have fought for. But if the trio want to foil the conspiracy, save the girl, and reunite the Greatcoats, they'll have to do it with nothing but the

tattered coats on their backs and the swords in their hands, because these days every noble is a tyrant, every knight is a thug, and the only thing you can really trust is a traitor's blade.

Musketeers meets Joe Abercrombie via Mark Lawrence. The Greatcoats are back - and this time it's personal. How do you kill a Saint? Falcio, Brasti and Kest are about to find out, as someone is doing just that, and they've started with a friend. The Dukes were already looking for ways to weasel out of their promise to put Aline on her father's throne - but with Saints turning up dead, and Church Inquistitors pushing for control - rumours are spreading that the Gods themselves oppose her

ascension. The only way Falcio can stop the country turning into a vicious theocracy is to find and stop the Saint-killer - but his only clue is the iron mask encasing the head of the Saint of Mercy, which prevents her from speaking. And even if he can find the murderer, he will still have to face them in battle - and this may be a duel that no swordsman, no matter how skilled, can win.

An authoritative new edition of Marcel Proust's *The Captive and The Fugitive*, published together as the fifth volume of his epic masterwork, *In Search of Lost Time*

Marcel Proust's monumental seven-part novel *In Search of Lost Time* is considered by many to be the

greatest novel of the twentieth century. The *Captive and The Fugitive*, the fifth and sixth volumes of Proust's masterpiece, contain some of literature's most beautiful meditations on art, music, desire, jealousy, love and loss, grieving and forgetting. In this work, Proust continues his vast

satirical fresco of high society in France just prior to the outbreak of World War I. These volumes and the following volume were published posthumously, as Proust died when he was approximately one-third of the way through correcting the proofs for *The Captive*. *The Fugitive* was also the last volume

translated by Charles Kenneth Scott Moncrieff, who did not live to finish his enormous task. This edition of the two, published together as the fifth volume, is edited and annotated by noted Proust scholar William C. Carter, who endeavors to bring the classic C. K. Scott Moncrieff translation closer

to the spirit and style of the original. Bulletin from Virginia Kirkus' Service Cambridge University Press From the French intellectual, novelist, essayist, and one of the greatest writers of the twentieth century: the third and final volume of his monumental achievement, including *The*

Captive, The Fugitive, and Time Regained. Marcel Proust's masterpiece is one of the towering literary works of the twentieth century. Relating its narrator's experiences in Belle Epoque France as he grows up, falls in love, and lives through the First World War, it has mesmerized generations of

readers with its profound reflections on art, time, and memory. C. K. Scott Moncrieff's original English translation was heralded as an artistic achievement in its own right; the later revisions to it by Terence Kilmartin were based on the definitive French Pleiade edition.

Saint's Blood Feiwel & Friends
Every day, corporations are connecting the dots about our personal behavior—silently scrutinizing clues left behind by our work habits and Internet use. The data compiled and portraits created are incredibly detailed, to the point of being invasive. But who connects the dots about what firms are doing with this information? The Black Box Society argues that we all need to be

able to do so—and to set limits on how big data affects our lives. Hidden algorithms can make (or ruin) reputations, decide the destiny of entrepreneurs, or even devastate an entire economy. Shrouded in secrecy and complexity, decisions at major Silicon Valley and Wall Street firms were long assumed to be neutral and technical. But leaks, whistleblowers, and legal disputes have shed new light on automated judgment. Self-serving and reckless behavior is surprisingly common, and easy to hide in code protected by legal and real secrecy. Even after billions of dollars of fines have been levied, underfunded regulators may have only scratched the surface of this troubling behavior. Frank Pasquale exposes how powerful interests abuse secrecy for profit and explains ways to rein them in. Demanding transparency is only the first step. An intelligible society would assure that key decisions of its most important firms are fair, nondiscriminatory, and open to criticism. Silicon Valley and Wall Street need to accept as much accountability as they impose on others.

Visionary solutions for a community ripe for transformational change--from fourteen leading innovators of Jewish life. "Jewish Megatrends offers a vision for a community that can simultaneously strengthen the institutions that serve those who seek greater Jewish identification and

attract younger Jews, many of whom are currently outside the orbit of Jewish communal life. Schwarz and his collaborators provide an exciting path, building on proven examples, that we ignore at our peril." --from the Foreword
The American Jewish community is riddled with doubts about the viability of the institutions

that well served the leader Rabbi Sidney Schwarz looks at Jewish community of the twentieth century. Synagogues, Federations and Jewish membership organizations have yet to figure out how to meet the changing interests and needs of the next generation. In this challenging yet hopeful call for transformational change, visionary

the social norms that are shaping the habits and lifestyles of younger American Jews and why the next generation is so resistant to participate in the institutions of Jewish communal life as they currently exist. He sets out four guiding principles that can drive a

renaissance in Jewish life and gives evidence of how, on the margins of the Jewish community, those principles are already generating enthusiasm and engagement from the very millennials that the organized Jewish community has yet to engage. Contributors--leading innovators from different sectors of the Jewish

community--each use Rabbi Schwarz's framework as a springboard to set forth their particular vision for the future of their sector of Jewish life and beyond.

"Groundbreaking in its call to reconsider our approach to the slow rhythm of time in the very concrete realms of environmental health and social justice." —Wold

Literature Today The violence wrought by climate change, toxic drift, deforestation, oil spills, and the environmental aftermath of war takes place gradually and often invisibly. Using the innovative concept of "slow violence" to describe these threats, Rob Nixon focuses on the inattention we have paid to the attritional lethality of many environmental crises, in contrast with the sensational, spectacle-driven messaging that impels public activism today. Slow violence, because it is so readily ignored by a hard-charging capitalism, exacerbates the vulnerability of ecosystems and of people who are poor, disempowered, and often involuntarily displaced, while fueling social conflicts that arise from desperation as life-sustaining conditions erode. In a book of extraordinary scope, Nixon examines a cluster of writer-activists affiliated with the environmentalism of the poor in the global South. By approaching environmental justice literature from this transnational perspective, he exposes the limitations of the national and local frames that dominate environmental writing. And by skillfully illuminating the strategies these writer-activists deploy to give dramatic visibility to environmental emergencies, Nixon invites his readers to engage with some of the

most pressing challenges of our time. The Annals of Sennacherib e-artnow An innovative transnational literary study, Black Prometheus tracks the mythical figure's surprising resonance in Anglo-American antislavery discourse from 1800 until the end of the U.S. Civil War. Spies for the Sultan Arcadia First published in 1984, this book examines corporate crime in the

pharmaceutical industry. Based on extensive research, including interviews with 131 senior executives of pharmaceutical companies in the United States, the United Kingdom, Australia, Mexico and Guatemala, the book is a major study of white-collar crime. Written in the 1980s, it covers topics such as international bribery and corruption, fraud in the testing of drugs and criminal negligence in the unsafe manufacturing of

drugs. The author considers the implications of his findings for a range of strategies to control corporate crime, nationally and internationally.
