The Changing Political Climate Guided Changing
Political Climate The political climate is the
aggregate mood and opinions of a political society
at a particular time. It is generally used to
describe when the state of mood and opinion is
changing or unstable rather than in a state of
equilibrium. The phrase has origins from both
ancient Greece and medieval-era France. The

The authors assume that each of the three lenses, namely ideas,
power and resources, tends to be predominant at one stage of the
policy process of the political economy of climate change, with
“ ideas and ideologies predominant in the conceptualisation
phase, power in the negotiation phase and resource, institutional
capacity and governance in the implementation phase ” .
