Scholastic Book Club Selection Alabama Camellia Award list, 2010-11, K-1 category A unique monster-under-the-bed story with the perfect balance of giggles and shivers, this picture book relies on the power of humor over fear, appeals to a child's love for creatures both alarming and absurd, and glorifies the scope of a child's imagination. One night, when Ethan checks under his bed for his monster, Gabe, he finds a note from him instead: "Gone fishing. Back in a week." Ethan knows that without Gabe's familiar nightly scares he doesn't stand a chance of getting to sleep, so Ethan interviews potential substitutes to see if they've got the right equipment for the job—pointy teeth, sharp claws, and a long tail—but none of them proves scary enough for Ethan. When Gabe returns sooner than expected from his fishing trip, Ethan is thrilled. It turns out that Gabe didn't enjoy fishing because the fish scared too easily.

AN INSTANT NEW YORK TIMES BESTSELLER "Provocative and appealing . . . well worth your extremely limited time." —Barbara Spindel, The Wall Street Journal The average human lifespan is absurdly, insultingly brief. Assuming you live to be eighty, you have just over four thousand weeks. Nobody needs telling there isn't enough time. We're obsessed with our lengthening to-do lists, our overfilled inboxes, work-life balance, and the ceaseless battle against distraction; and we're deluged with advice on becoming more productive and efficient, and "life hacks" to optimize our days. But such techniques often end up making things worse. The sense of anxious hurry grows more intense, and still the most meaningful parts of life seem to lie just beyond the horizon. Still, we rarely make the connection between our daily struggles with time and the ultimate time management problem: the challenge of how best to use our four thousand weeks. Drawing on the insights of both ancient and contemporary philosophers, psychologists, and spiritual teachers, Oliver Burkeman delivers an entertaining, humorous, practical, and ultimately profound guide to time and time management. Rejecting the futile modern fixation on "getting everything done," *Four Thousand Weeks* introduces readers to tools for constructing a meaningful life by embracing finitude, showing how many of the unhelpful ways we've come to think about time aren't inescapable, unchanging truths, but choices we've made as individuals and as a society—and that we could do things differently.

The first computational study of reading to focus on audiobooks, this book uses a unique and substantial set of reader consumption data to show how audiobooks and digital streaming platforms affect our literary culture. Offering an academic perspective on the kind of user data hoard we associate with tech companies, it asks: when it comes to audiobooks, what do people really read, and how and when do they read it? Tracking hundreds of

thousands of readers on the level per user and hour, *Reading Audio Readers* combines computational methods from cultural analytics with theoretical perspectives from book history, publishing studies, and media studies. In doing so, it provides new insights into reading practices in digital platforms, the effects of the audiobook boom, and the business-models for book publishing and distribution in the age of streamed audio.

When was the last time you listened to someone, or someone really listened to you? "If you're like most people, you don't listen as often or as well as you'd like. There's no one better qualified than a talented journalist to introduce you to the right mindset and skillset—and this book does it with science and humor." -Adam Grant, #1 New York Times bestselling author of *Originals* and *Give and Take* **Hand picked by Malcolm Gladwell, Adam Grant, Susan Cain, and Daniel Pink for Next Big Ideas Club** "An essential book for our times." -Lori Gottlieb, New York Times bestselling author of *Maybe You Should Talk to Someone* At work, we're taught to lead the conversation. On social media, we shape our personal narratives. At parties, we talk over one another. So do our politicians. We're not listening. And no one is listening to us. Despite living in a world where technology allows constant digital communication and opportunities to connect, it seems no one is really listening or even knows how. And it's making us lonelier, more isolated, and less tolerant than ever

before. A listener by trade, New York Times contributor Kate Murphy wanted to know how we got here. In this always illuminating and often humorous deep dive, Murphy explains why we're not listening, what it's doing to us, and how we can reverse the trend. She makes accessible the psychology, neuroscience, and sociology of listening while also introducing us to some of the best listeners out there (including a CIA agent, focus group moderator, bartender, radio producer, and top furniture salesman). Equal parts cultural observation, scientific exploration, and rousing call to action that's full of practical advice, *You're Not Listening* is to listening what Susan Cain's *Quiet* was to introversion. It's time to stop talking and start listening.

The authorized biography of Robert Pollard, indie rock icon and founder of the music group Guided By Voices Robert Pollard has been a staple of the indie rock scene since the early '80s, along with his band Guided By Voices. Pollard was a longtime grade school teacher who toiled endlessly on his music, finding success only after adopting a do-it-yourself approach, relying on lo-fi home recordings for much of his and his band's career. A prolific artist, Pollard continues to churn out album after album, much to the acclaim of critics and his obsessive and devoted fans. But his story has never been faithfully told in its entirety. Until now. Author Matthew Cutter is a longtime friend of Pollard and, with Pollard's blessing, he's set out to tell the whole, true story of Guided By Voices. *Closer You Are* is the first book to take an in-depth look at the man behind it all, with interviews conducted by the author with Pollard's friends, family, and bandmates, along with unfettered access to Pollard himself and his extensive archives. Robert Pollard has had an amazing and seemingly endless career in rock music, but he's also established himself as a consummate artist who works on his own terms. Now fans can at long last learn the full story behind one of America's greatest living songwriters.

Ushering in a new era of confessional music that spoke openly about experiences of trauma, depression, and self-loathing, Nine Inch Nails' seminal album, *The Downward Spiral*, changed popular music forever—bringing transgressive themes of heresy, S&M, and body horror to the masses and taking music technology to its limits. Released in 1994, the album resonated across a generation, combining elements of metal, industrial, synth-pop, and ambient electronica, and going on to sell over four million

copies. Now, *Into the Never* explores the creation and cultural impact of *The Downward Spiral*, one of the most influential and artistically significant albums of the twentieth century. Inspired by David Bowie's *Low* and Pink Floyd's *The Wall*, the album recounts one man's disintegration as he descends into nihilism and nothingness. Blurring the lines between autobiography and concept album, creation and decay, it is also the story of Trent Reznor (who is Nine Inch Nails) as he pushed himself to the edge of the abyss, trapped in a cycle of addiction and self-destruction. *The Downward Spiral* also presents a reflection of America and a wider culture of violence, connecting the Columbine High School shooting, the infamous Manson family murders, and the aftermath of Vietnam and the Gulf War. Featuring new interviews with collaborators and artists inspired by the album, *Into the Never* sets *The Downward Spiral* in the context of music of the era and brings the story up to date, from Reznor's recovery to his reinvention as an Oscar-winning soundtrack artist.

NEW YORK TIMES BESTSELLER “Derek Jeter is undoubtedly the most talked about, argued about, cheered, booed and ultimately respected baseball player of his generation. And as public a figure as he has been, he is in many ways the least known. That changes now as Ian O’Connor, one of the best sports writers anywhere, goes deep and does what no one has quite been able to do: Tell us a bit about who

Derek Jeter really is.”—Joe Posnanski, author of *The Machine* “Deftly told.”—*The Washington Post* In *The Captain*, Ian O’Connor draws on unique access to Derek Jeter and more than 200 new interviews to reveal how a biracial kid from Michigan became New York’s most beloved sports figure and the face of the steroid-free athlete. O’Connor takes us behind the scenes of a legendary baseball life, from Jeter’s early struggles in the minor leagues, when homesickness and errors threatened a stillborn career, to the heady days of Yankee superiority and nightlife, to the battles with former best friend A-Rod. All along the way, Jeter has made his Hall-of-Fame destiny look easy. But behind that leadership and hero’s grace there are hidden struggles and complexities that have never been explored, until now.
