William Reiners and Kenneth Driese introduce

a conceptual framework for studying the propagation of ecological influences across landscapes. They also provide examples of models that describe and predict propagation. Their volume is an excellent graduate-level introduction to the field of landscape ecology, which is concerned with the effects of spatial patterns on ecological processes, especially the movement of organisms, abiotic materials and energy across landscapes.

Essentials of Computer Organization and Architecture focuses on the function and design of the various components necessary to process information digitally. This title presents computing systems as a series of layers, taking a bottom-up

approach by starting with low-level hardware and progressing to higher-level software. Its focus on real-world examples and practical applications encourages students to develop a "big-picture" understanding of how essential organization and architecture concepts are applied in the computing world. In addition to direct correlation with the ACM/IEEE guidelines for computer organization and architecture, the text exposes readers to the inner workings of a modern digital computer through an integrated presentation of fundamental concepts and principles.

Tom Waits's distinctive, bourbon-soaked growl, his unique persona, and his incorporation of musical styles from blues to experimental to vaudeville have secured for him a top-shelf cult following and an extraordinary critical respect. The idea of the Wanderer - someone who seeks an escape from all of life's problems, and dreams himself into oblivion - serves as the fundamental personality type around which all Waits's music revolves. Ten years of producing and touring with Waits's macabre folktale adaptation across

Canada and the U.S. has given author Corinne Kessel direct access to his work, creative process, and his associates. In this comprehensive analysis, Kessel examines all of the many characters that have appeared throughout the course of Waits' musical career, from Closing Time (1973) to Orphans: Brawlers, Bawlers, and Bastards. His raw form of expression and his evocative lyrics work together to form an emotional chronicle of society's misfits, outcasts, and lowlifes. He is not the sort of composer to chase after shiny red fire trucks to awesome blazing fires, but instead looks after the intangible dreams found dissipating in the last wisp of smoke from a cigarette, held in the weathered hands of a broken soul. Here, author Corinne Kessel pursues Waits into this distinctly murky and unsettled atmosphere to address in particular

Waits's enduring questions of reality, landscape, and identity.

Fast-paced, evocative, and brutal, *The Cold Cold Ground* is a brilliant depiction of Belfast at the height of the Troubles — and of a cop treading a

thin, thin line —from The New York Times bestselling and Edgar Award-winning author Adrian McKinty. “McKinty is one of the most striking and most memorable crime voices to emerge on the scene in years.” —Tana French Northern Ireland, spring 1981. Hunger strikes, riots, power cuts, a homophobic serial killer with a penchant for opera, and a young woman's suicide that may yet turn out to be murder: on the surface, the events are unconnected, but then things—and people—aren't always what they seem. Detective Sergeant Duffy is the man tasked with trying to get to the bottom of it all. It's no easy job—especially when it turns out that one of the victims was involved in the IRA but was last seen discussing business with someone from the loyalist Ulster Volunteer Force. Add to this the fact that, as a Catholic policeman, it doesn't matter which side he's on, because nobody trusts him, and Sergeant Duffy really is in a no-win situation.

"Superb...A masterpiece of thorough research, deft pacing and arresting detail...This war story — the fight to break out of a frozen hell near the Chosin Reservoir — has been told many times before. But Sides tells it exceedingly well, with fresh research, gritty scenes and cinematic sweep."—Washington Post
From the New York Times bestselling author of *Ghost Soldiers* and *In the Kingdom of Ice*, a chronicle of the extraordinary feats of heroism by Marines called on to do the impossible during the

greatest battle of the Korean War On October 15, 1950, General Douglas MacArthur, Supreme Commander of UN troops in Korea, convinced President Harry Truman that the Communist forces of Kim Il-sung would be utterly defeated by Thanksgiving. The Chinese, he said with near certainty, would not intervene in the war. As he was speaking, 300,000 Red Chinese soldiers began secretly crossing the Manchurian border. Led by some 20,000 men of the First Marine Division, the Americans moved deep into the snowy mountains of North Korea, toward the trap Mao had set for the vainglorious MacArthur along the frozen shores of the Chosin Reservoir. What followed was one of the most heroic--and harrowing--operations in American military history, and one of the classic battles of all time. Faced with probable annihilation, and

temperatures plunging to 20 degrees below zero, elements that lend momentum and dramatic pace the surrounded, and hugely outnumbered, Marines fought through the enemy forces with ferocity, ingenuity, and nearly unimaginable courage as they marched their way to the sea. Hampton Sides' superb account of this epic clash relies on years of archival research, unpublished letters, declassified documents, and interviews with scores of Marines and Koreans who survived the siege. While expertly detailing the follies of the American leaders, *On Desperate Ground* is an immediate, grunt's-eye view of history, enthralling in its narrative pace and powerful in its portrayal of what ordinary men are capable of in the most extreme circumstances. Hampton Sides has been hailed by critics as one of the best nonfiction writers of his generation. As the *Miami Herald* wrote, "Sides has a novelist's eye for the propulsive

to the best nonfiction narratives."

Richard Coulter is a man who has everything. His beautiful new wife is pregnant, his upstart airline is undercutting the competition and moving from strength to strength, his diversification into the casino business in Macau has been successful, and his fabulous Art Deco house on an Irish cliff top has just been featured in *Architectural Digest*. But then, for some reason, his ex-wife Rachel doesn't keep her side of the custody agreement and vanishes off the face of the earth with Richard's two daughters. Richard hires Killian, a formidable ex-enforcer for the IRA, to track her down before Rachel, a recovering drug

addict, harms herself or the girls. As Killian follows Rachel's trail, he begins to see that there is a lot more to this case than first meets the eye and that a thirty-year-old secret is going to put all of them in terrible danger. McKinty is at his continent-hopping, well-paced, evocative best in this thriller, moving between his native Ireland and distant cities within a skin-of-his-teeth timeframe.

"These essays are among Scott MacDonald's best. An added bonus among all this new work is one updated vintage essay from 1981—still the very best essay ever written about the uses of pornography. All the essays are intellectually, personally and viscerally vibrant, coupling substantive recent essays with his trademark, probing interviews with key filmmakers. Each interview is beautifully paired with the essays. Scott MacDonald is a

monument to thoughtful knowledge of, and pleasure in, avant-garde cinema."—Linda Williams, author of *Screening Sex* "More than any other critic, Scott MacDonald truly explores contemporary experimental cinema, seeking out new works and new artists, reconsidering classics and broadening out our sense of film history from the images on screen to the social, political and economic contexts and debates surrounding them. And yet if MacDonald surveys a complex landscapes, his books never carry the claustrophobia of the archive or academia. This criticism answers the call of the open road, with conversations and companionship with vivid personalities guiding the way, and the sense of high adventure waiting just around the bend."—Tom Gunning, Chair, Committee on Cinema and Media, University of Chicago
