War Comes to Long An McFarland
The Making of Modern America,
introduces students to the
cultural, social and political
paths the United States has
traveled from the end of WWII to
the present day. While deftly
cataloguing the sweeping changes
and major events in America from

"Dewey Defeats Truman" through the election of our first black President, this newly updated edition never loses touch with that American history taking place at the level of the people. This edition details not just the United States' rich cultural history, but elegantly repositions it as integral to our understanding of any portion of this country's past. Donaldson provides a factual foundation for students and then pushes them to interpret those facts, framing the discussions essential to any complete study of American history. The Making of Modern America, Second Edition is updated to include: -A new chapter titled "The Second Bush and Obama: From the War on Terrorism to the Audacity of Hope" updating readers on the calamitous end to President George W. Bush's second term, the Obama administration's first term challenges and the Great Recession. -Newly revised readings each profiling an historical event, speech or figure-Lee Harvey Oswald to Bill Gates to Condoleeza Rice- at the conclusion of each chapter.
Washington's Anticommunist Crusade and the Mass Murder Program that Shaped Our World Univ of North Carolina Press

This volume compares films from the late Cold War era with films of the same genre, or of similar themes, from the post-Cold War era, paying particular attention to shifts in narrative that reflect changes in American culture, attitudes, and ideas. It explains how the absence of the Cold War has changed the way we understand and interpret film.

War Comes to Willy Freeman University of Toronto Press

For more than 200 years, Gainesville, Georgia, has been the trading and business center for Northeast Georgia's mountain region. Its character dictated by rugged mountain terrain and independent, self-reliant people, Gainesville entertains a unique history quite different from the traditional plantation culture of the American South. Celebrated within these pages are the people and places of this "Queen City of the Mountains." With images culled primarily from the Hall County Library and the Archives of the State of Georgia, Gainesville: 1900-2000 captures the memories of the twentieth century on the eve of the millennium. From its days as the "Great Health Resort of the South" to its transition into a metropolitan community, Gainesville has experienced enormous growth and change. Included in this collection are images of the disastrous 1936 tornado that swept through the city, the mills that were active in the early 1900s, and the poultry industry that became

a dominant economic force in Gainesville.

Residents will delight in the early photographs of the town square that reflect a simpler way of life.

A Resolution to Establish a Select Committee of the Senate to Investigate and Study Illegal Or Improper Campaign Activities in the Presidential Election of 1972 Simon and Schuster

Goes beyond the headlines of the Marshall Plan, the Berlin Airlift, Korea, and Vietnam to take an in-depth look at the situation of the United States before, during, and after the Cold War

War Comes Home Arcadia Publishing

At the conclusion of World War II, Americans anxiously contemplated the return to peace. It was an uncertain time, filled with concerns about demobilization, inflation, strikes, and the return of a second Great Depression. Balanced against these challenges was the hope in a future of unparalleled opportunities for a generation raised in hard times and war. One of the remarkable untold stories of postwar America is the successful assimilation of sixteen million veterans back into civilian society after 1945. The G.I. generation returned home filled with the same sense of

fear and hope as most citizens at the time.

Their transition from conflict to normalcy is one of the greatest chapters in American history. "The Greatest Generation Comes Home" combines military and social history into a comprehensive narrative of the veteran's experience after World War II. It integrates early impressions of home in 1945 with later stories of medical recovery, education, work, politics, and entertainment, as well as moving accounts of the dislocation, alienation, and discomfort many faced. The book includes the experiences of not only the millions of veterans drawn from mainstream white America, but also the women, African Americans, Latinos, and Asian Americans who served the nation. Perhaps most important, the book also examines the legacy bequeathed by these veterans to later generations who served in uniform on new battlefields around the world.

Using Past Forecasts to Predict the Future Univ. Press of Mississippi

One of the most significant industrial states in the country, with a powerful radical tradition, Pennsylvania was, by the early 1950s, the scene of some of the fiercest anti-Communist activism in the United States. Philip Jenkins

examines the political and social impact of the Cold War across the state, tracing the Red Scare's reverberations in party politics, the labor movement, ethnic organizations, schools and universities, and religious organizations. Among Jenkins's most provocative findings is the revelation that, although their absolute numbers were not large, Communists were very well positioned in crucial Pennsylvania regions and constituencies, particularly in labor unions, the educational system, and major ethnic organizations. Instead of focusing on Pennsylvania's right-wing politicians (the sort represented nationally by Senator Joseph McCarthy), Jenkins emphasizes the anti-Communist activities of liberal politicians, labor leaders, and ethnic community figures who were terrified of Communist encroachments on their respective power bases. He also stresses the deep roots of the state's militant anti-Communism, which can be traced back at least into the 1930s.

The Rising Clamor Rowman & Littlefield Publishers

A social narrative documents the close ties between chemical weapons development and peaceful applications in insect

warfare, discussing the role of chemists and chemistry in military history and the changing attitude of war departments toward chemists. *Whether Disclosure of Funds Authorized for Intelligence Activities is in the Public Interest* UPNE

Reveals how wartime loss in the Vietnam War transformed U.S. politics, arguing that the effort to recover lost warriors was as much a means to establish responsibility for their loss as it was a search for answers about their fate.

The War Comes Home Cengage Learning
Hundreds of memoirs, novels, plays, and movies have been devoted to the American war in Vietnam. In spite of the great variety of media, political perspectives and the degrees of seriousness with which the war has been treated, Katherine Kinney argues that the vast majority of these works share a single story: that of Americans killing Americans in Vietnam. *Friendly Fire*, in this instance, refers not merely to a tragic error of war, it also refers to America's war with itself during the Vietnam years. Starting from this point, this book considers the concept of "friendly fire" from multiple vantage points, and portrays the Vietnam age as a crucible where America's cohesive image of itself is shattered--pitting soldiers against superiors,

doves against hawks, feminism against patriarchy, racial fear against racial tolerance. Through the use of extensive evidence from the film and popular fiction of Vietnam (e.g. Kovic's *Born on the Fourth of July*, Didion's *Democracy*, O'Brien's *Going After Cacciato*, Rabe's *Sticks and Bones* and *Streamers*), Kinney draws a powerful picture of a nation politically, culturally, and socially divided, and a war that has been memorialized as a contested site of art, media, politics, and ideology.

The Cold War at Home PublicAffairs
Conventional wisdom holds that comic books of the post – World War II era are poorly drawn and poorly written publications, notable only for the furor they raised. Contributors to this thoughtful collection, however, demonstrate that these comics constitute complex cultural documents that create a dialogue between mainstream values and alternative beliefs that question or complicate the grand narratives of the era. Close analysis of individual titles, including EC comics, Superman, romance comics, and other, more obscure works, reveals the ways Cold War culture—from atomic anxieties and the nuclear family to communist hysteria and social inequalities—manifests itself in the comic

books of the era. By illuminating the complexities of mid-century graphic novels, this study demonstrates that postwar popular culture was far from monolithic in its representation of American values and beliefs.

Revolutionary Conflict in a Vietnamese Province

Univ of North Carolina Press

From Normandy to 9-11, one family's struggle against the tide of madness that enveloped the 20th century--"the story of every American family.

Revised and updated.

The Veteran in American Society Univ of California Press

Drawing upon original sources and published material, *A Distant War Comes Home* is a fascinating survey of the many individual stories that linked Maine with the war hundreds of miles away.

The Final Report of the Senate Select Committee on Presidential Campaign Activities (the Ervin Committee) Rowman & Littlefield

NAMED ONE OF THE BEST BOOKS OF 2020 BY NPR, THE FINANCIAL TIMES, AND GQ The hidden story of the wanton slaughter -- in Indonesia, Latin America, and around the world -- backed by the United States. In 1965, the U.S. government helped the Indonesian military kill approximately

one million innocent civilians. This was one of the most important turning points of the twentieth century, eliminating the largest communist party outside China and the Soviet Union and inspiring copycat terror programs in faraway countries like Brazil and Chile. But these events remain widely overlooked, precisely because the CIA's secret interventions were so successful. In this bold and comprehensive new history, Vincent Bevins builds on his incisive reporting for the *Washington Post*, using recently declassified documents, archival research and eye-witness testimony collected across twelve countries to reveal a shocking legacy that spans the globe. For decades, it's been believed that parts of the developing world passed peacefully into the U.S.-led capitalist system. The *Jakarta Method* demonstrates that the brutal extermination of unarmed leftists was a fundamental part of Washington's final triumph in the Cold War.

The Global Cold War Modern War Studies (Hardcover)

This reader for the U.S. history survey course gives students the opportunity to apply critical thinking skills to the examination of historical sources, providing pedagogy and background

information to help them draw substantive conclusions. The careful organization and the context provided in each chapter make the material accessible for students, thereby assisting instructors in engaging their students in analysis and discussion. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Investigation of the Assassination of President John F. Kennedy Routledge

The end of the Cold War came as good news for most of the world. No one had predicted the collapse of Communist rule for several decades. This book looks at how political scientists failed to predict such a quick resolution and ways in which the world might develop post Cold War.

Legislative Proposals to Strengthen Congressional Oversight of the Nation's Intelligence Agencies on Intergovernmental Relations of ..., 93-2, Dec. 9 and 10, 1974 Univ of California Press

Describes the federal government's failure to provide adequate resources for disabled veterans from Iraq and Afghanistan, examining the struggles they face, medical attention that they need, and efforts by families and non-profit groups to help them.

Cambridge University Press

Post-Nationalist American Studies seeks to revise the cultural nationalism and celebratory American exceptionalism that tended to dominate American studies in the Cold War era, adopting a less insular, more transnational approach to the subject.

The Red Scare in Pennsylvania, 1945-1960

Univ of California Press

Discover America ' s secrets in this second of two volumes of the young readers ' edition of *The Untold History of the United States*, from Academy Award – winning director Oliver Stone and Peter Kuznick, adapted by Eric Singer. There is history as we know it. And there is history we should have known. Complete with poignant photos and little-known but vitally important stories, this second of two volumes traces how people around the world responded to the United States ' rise as a superpower from the end of World War II through an increasingly tense Cold War and, eventually, to the brink of nuclear annihilation during the Cuban Missile Crisis. This is not the kind of history taught in schools or normally presented on television or in popular movies. This riveting young readers volume challenges prevailing orthodoxies to reveal uncomfortable realities about the US role in heightening Cold War tensions. It also humanizes the experiences of diverse people, at home and abroad, who yearned for a more just, equal, and compassionate world. This volume will come as a breath of fresh air for students, teachers,

and budding young historians hungry for different perspectives—which makes it a crucial counterpoint to today ' s history textbooks. Adapted by high school and university educator Eric S. Singer from the bestselling book and companion to the documentary *The Untold History of the United States* by Academy Award – winning director Oliver Stone and renowned historian Peter Kuznick, this volume gives young readers a powerful and provocative look at the US role in the Cold War. It also provides a blueprint for those concerned with shaping a better and more equitable future for people across the world.

The American Press, the Central Intelligence Agency, and the Cold War AudioGO In 1950, Main Street America was abruptly traumatized. The sudden prospect of thermonuclear war with the Soviet Union, Senator McCarthy's vicious anticommunist crusade, and the beginning of the Korean War all combined to dampen the public mood. The Cold War invaded every home. Rose maintains that 1950 was a pivotal year for the nation. He argues that the convergence of Korea, McCarthy, and the bomb wounded the nation in ways from which we've never fully recovered. Brimming with originality, this book makes readers look at

the Cold War from a dozen different angles. *American Images of the Vietnam War* ibooks An essential new resource for students and teachers of the Vietnam War, this concise collection of primary sources opens a valuable window on an extraordinarily complex conflict. The materials gathered here, from both the American and Vietnamese sides, remind readers that the conflict touched the lives of many people in a wide range of social and political situations and spanned a good deal more time than the decade of direct U.S. combat. Indeed, the U.S. war was but one phase in a string of conflicts that varied significantly in character and geography. Michael Hunt brings together the views of the conflict's disparate players--from Communist leaders, Vietnamese peasants, Saigon loyalists, and North Vietnamese soldiers to U.S. policymakers, soldiers, and critics of the war. By allowing the participants to speak, this volume encourages readers to formulate their own historically grounded understanding of a still controversial struggle.
