The Legal Dimension in Cold-War Interactions: Some Notes from the Field My Revision Notes: Edexcel A-level Politics: Political Ideas

How did the Cold War shape culture and political power in decolonizing countries and give rise to authoritarian regimes in the so-called free world? Cold War Reckonings tells a new story about the Cold War and the global shift from colonialism to independent nation-states. Assembling a body of transpacific cultural works that speak to this historical conjuncture, Jini Kim Watson reveals autocracy to be not a deficient form of liberal democracy, but rather the result of Cold War entanglements with decolonization. Focusing on East and Southeast Asia, the book scrutinizes cultural texts ranging from dissident poetry, fiction,

and writers' conference proceedings of the Cold War period, to more recent literature, graphic novels, and films that retrospectively look back to these decades with a critical eye. Paying particular attention to anti-communist repression and state infrastructures of violence, the book provides a rich account of several U.S.-allied Cold War regimes in the Asia Pacific, including the South Korean military dictatorship, Marcos' rule in the Philippines, illiberal Singapore under Lee Kuan Yew, and Suharto's Indonesia. Watson's book argues that the cultural forms and narrative techniques that emerged from the Cold War-decolonizing matrix offer new ways of comprehending these histories and connecting them to our present. The book advances our understanding of the global reverberations of the Cold War and its enduring influence on cultural and political formations in the Asia Pacific. Cold War Reckonings is available from the publisher on an open-access basis.

Post-Cold War Conflict Deterrence UNC Press Books

"Outstanding . . . The most accessible distillation of that conflict yet written." —The Boston Globe "Energetically written and lucid, it makes an ideal introduction to the subject." —The New York Times The "dean of Cold War historians" (The New York Times) now presents the definitive account of the global confrontation that dominated the last half of the twentieth century. Drawing on newly opened archives and the reminiscences of the major players, John Lewis Gaddis explains not just what happened but why—from the months in 1945 when the U.S. and the U.S.S.R. went from alliance to antagonism to the barely averted holocaust of the Cuban Missile Crisis to the maneuvers of Nixon and Mao, Reagan and Gorbachev. Brilliant, accessible, almost Shakespearean in its drama, The Cold War stands as a triumphant summation of the era that, more than any other, shaped our own. Gaddis is also the author of On Grand Strategy.

Unfolding the Future of the Long War Philip Allan

This book offers a comprehensive guide to global literary engagement with the Cold War. Eschewing the common focus on national cultures, the collection defines Cold War literature as an international current focused on the military and ideological conflicts of the age and characterised by styles and approaches that transcended national borders. Drawing on specialists from across the world, the volume analyses the period's fiction, poetry, drama and autobiographical writings in three sections: dominant concerns (socialism, decolonisation, nuclearism, propaganda, censorship, espionage), common genres (postmodernism, socialism realism, dystopianism, migrant poetry, science fiction, testimonial writing) and regional cultures (Asia, Africa, Oceania, Europe and the Americas). In doing so, the volume forms a landmark contribution to Cold War literary studies which will appeal to all those working on literature of the 1945-1989 period, including specialists in comparative literature,

postcolonial literature, contemporary literature and regional literature.

Dead on a High Hill W. W. Norton & Company

Begun as the United States moved its armed forces into Iraq, Rashid Khalidi's powerful and thoughtful new book examines the record of Western involvement in the region and analyzes the likely outcome of our most recent Middle East incursions. Drawing on his encyclopedic knowledge of the political and cultural history of the entire region as well as interviews and documents, Khalidi paints a chilling scenario of our present situation and yet offers a tangible alternative that can help us find the path to peace rather than Empire. We all know that those who refuse to learn from history are doomed to repeat it. Sadly, as Khalidi reveals with clarity and surety, America's leaders seem blindly committed to an ahistorical path of conflict, occupation, and colonial rule. Our current policies ignore rather than incorporate the lessons of experience. American troops in Iraq have seen first hand the consequences of U.S. led "democratization" in the region. The Israeli/Palestinian conflict seems intractable, and U.S. efforts in recent years have only inflamed the situation. The footprints America follows have led us into the same quagmire that swallowed our European forerunners. Peace and prosperity for the region are nowhere in sight. This cogent and highly accessible book provides the historical and cultural perspective so vital to understanding our present situation and to finding and pursuing a more effective and just foreign policy. For thirteen days in October 1962, America stood at the brink of nuclear war. Nikita Khrushchev's decision to place nuclear missiles in Cuba and John F. Kennedy's defiant response introduced the possibility of unprecedented cataclysm. The immediate threat of destruction entered America's classrooms and its living rooms. Awaiting Armageddon provides the first in-depth look at this crisis as it roiled outside of government offices, where ordinary Americans realized their government was unprepared to protect either itself or its citizens from the dangers of nuclear war. During the seven days between Kennedy's announcement of a naval blockade and Khrushchev's decision to withdraw Soviet nuclear missiles from Cuba, U.S. citizens absorbed the nightmare scenario unfolding on their television sets. An estimated ten million Americans fled their homes; millions more prepared shelters at home, clearing the shelves of supermarkets and gun stores. Alice George captures the irrationality of the moment as Americans coped with dread and resignation, humor and pathos, terror and ignorance. In her examination of the public response to the missile crisis, the author reveals cracks in the veneer of American confidence in the early years of the space age and demonstrates how the fears generated by Cold War culture blinded many Americans to the dangers of nuclear war until it was almost too late.

Crossroads and Cultures, Combined Volume Springer

A Kirkus Reviews Best Nonfiction Book of the Year From the National Book Award winner, a masterful history of the decade whose conflicts shattered America's postwar order and divide us still. On July 4, 1961, the rising middle-class families of a Chicago neighborhood gathered before their flag-bedecked houses, a confident vision of the American Dream. That vision was shattered over the following decade, its inequities at home and arrogance abroad challenged by powerful civil rights and antiwar movements. Assassinations, social violence, and the blowback of a

"silent majority" shredded the American fabric. Covering the late 1950s through the early 1970s, *The Shattering* focuses on the period's fierce conflicts over race, sex, and war. The civil rights movement develops from the grassroots activism of Montgomery and the sit-ins, through the violence of Birmingham and the Edmund Pettus Bridge, to the frustrations of King's Chicago campaign, a rising Black nationalism, and the Nixon-era politics of busing and the Supreme Court. The Vietnam war unfolds as Cold War policy, high-stakes politics buffeted by powerful popular movements, and searing in-country experience. Americans' challenges to government regulation of sexuality yield landmark decisions on privacy rights, gay rights, contraception, and abortion. Kevin Boyle captures the inspiring and brutal events of this passionate time with a remarkable empathy that restores the humanity of those making this history. Often they are everyday people like Elizabeth Eckford, enduring a hostile crowd outside her newly integrated high school in Little Rock, or Estelle Griswold, welcoming her arrest for dispensing birth control information in a Connecticut town. Political leaders also emerge in revealing detail: we track Richard Nixon's inheritances from Eisenhower and his debt to George Wallace, who forged a message of racism mixed with blue-collar grievance that Nixon imported into Republicanism. *The Shattering* illuminates currents that still run through our politics. It is a history for our times.

Crossroads and Cultures, Volume II: Since 1300 McFarland

'An urgent and extraordinary book. Weaving a philosophical analysis of Heidegger, Agamben and Foucault, Jan draws out the implications of their thought for a radical analysis of the ontological politics of Islam and Pakistan. Whether writing about the 'Ulama and Deoband schools, blasphemy laws, the military, beards, or the Bamiyan Buddhas, Jan provokes and challenges our thinking while unearthing the ground on which Pakistan—and our world—are built.' —Joel Wainwright, Department of Geography, Ohio State University, USA 'In this exceptionally inventive and important book, Jan shows us that the problems besetting political life in Pakistan are part of a more troubling crisis in modern forms of power. Challenging accounts that cordon off "political Islam" from "the West," Jan discloses their fundamental indistinction and thus, through his practice of critical ontology, reorients our understanding of how power and violence are at work in the world.'

—Joshua Barkan, Department of Geography, University of Georgia, USA

*The Metacolonial State* presents a novel rethinking of the relationship between Islam and the Political. Key to the text is an original argument regarding the "biopoliticization of Islam" and the imperative need for understanding sovereign power and the state of exception in resolutely ontological terms. Through the formulation of a critical ontology of political violence, *The Metacolonial State* endeavors to shed new light on the signatures of power undergirding postcolonial life, while situating Pakistan as a paradigmatic site for reflection on the nature of modernity's precarious present. The cross-disciplinary approach of Dr. Jan's work is certain to have broad appeal among geographers, historians, anthropologists, postcolonial theorists, and political scientists, among others. At the same time, his explication of critical ontology — with its radical reading of the interlacement of history, power and the event — promises to add a bold new dimension to social science research on Islamism and biopolitics.
