Somewhere between global and local, the nation still lingers as a concept. National art histories continue to be written – some for the first time – while innovative methods and practices redraw the boundaries of these imagined communities. Narratives Unfolding considers the mobility of ideas, transnationalism, and entangled histories in essays that define new ways to see national art in ever-changing nations. Examining works that were designed to reclaim or rethink issues of territory and dispossession, home and exile, contributors to this volume demonstrate that the writing of national art histories is a vital project for intergenerational exchange of knowledge and its visual formations. Essays showcase revealing moments of modern and contemporary art history in Canada, Egypt, Iceland, India, Ireland, Israel/Palestine, Romania, Scotland, Turkey, and the United Arab Emirates, paying particular attention to the agency of institutions such as archives, art

galleries, milestone exhibitions, and artist retreats. Old and emergent art cities, including Cairo, Dubai, New York, and Vancouver, are also examined in light of avant-gardism, cosmopolitanism, and migration. Narratives Unfolding is both a survey of current art historical approaches and their connection to the source: art-making and art experience happening somewhere.

To explore what extended competition between the United States and China might entail out to 2050, the authors of this report identified and characterized China's grand strategy, analyzed its component national strategies (diplomacy, economics, science and technology, and military affairs), and assessed how successful China might be at implementing these over the next three decades.

Neorealists argue that all states aim to acquire power and that state cooperation can therefore only be temporary, based on a common opposition to a third country. This view condemns the

world to endless conflict for the indefinite future. Based upon careful attention to actual historical outcomes, this book contends that, while some countries and leaders have demonstrated excessive power drives, others have essentially underplayed their power and sought less position and influence than their comparative strength might have justified. Featuring case studies from across the globe, History and Neorealism examines how states have actually acted. The authors conclude that leadership, domestic politics, and the domain (of gain or loss) in which they reside play an important role along with international factors in raising the possibility of a world in which conflict does not remain constant and, though not eliminated, can be progressively reduced.

Winner of the 2018 American Academy of Diplomacy Douglas Dillon Award Shortlisted for the 2018 Duff Cooper Prize in Literary Nonfiction “ [A] brilliant book...by far the best study yet ” (Paul Kennedy, The Wall Street Journal) of the gripping history behind the Marshall Plan and its long-lasting influence on our world. In the wake of World War II, with Britain ’ s empire collapsing and Stalin ’ s on the rise, US officials under new Secretary of State George C.

Marshall set out to reconstruct western Europe as a bulwark against communist authoritarianism. Their massive, costly, and ambitious undertaking would confront Europeans and Americans alike with a vision at odds with their history and self-conceptions. In the process, they would drive the creation of NATO, the European Union, and a Western identity that continue to shape world events. Benn Steil ’ s “ thoroughly researched and well-written account ” (USA TODAY) tells the story behind the birth of the Cold War, told with verve, insight, and resonance for today.

Focusing on the critical years 1947 to 1949, Benn Steil ’ s gripping narrative takes us through the seminal episodes marking the collapse of postwar US-Soviet relations—the Prague coup, the Berlin blockade, and the division of Germany. In each case, Stalin ’ s determination to crush the Marshall Plan and undermine American power in Europe is vividly portrayed. Bringing to bear fascinating new material from American, Russian, German, and other European archives, Steil ’ s account will forever change how we see the Marshall Plan. “ Trenchant and timely...an ambitious, deeply researched narrative that...provides a fresh perspective on the coming Cold War ” (The New York Times Book Review), The Marshall Plan is a polished and masterly work of historical narrative. An instant classic of Cold War literature, it “ is a gripping, complex, and critically important story that is told with clarity and precision ” (The Christian Science Monitor).

"Zounds has been described as a political band. It has been labelled as squat-rock, pop-rock, peace-punk, anarcho-punk, post-punk, psychedelic, punk-pop and a million other things. But

those are just labels, I'm not that bothered what people call it really." -Steve Lake, June 2013 This is part Steve's autobiography, part band history and part insiders story of the 1980's UK anarcho punk scene. Zounds was formed around the nucleus of Steve Lake and evolved from a number of jamming sessions with other musicians and friends in Oxford, taking in influences from the Velvet Underground to the Sex Pistols. The band began performing gigs in 1977/78, and became more politicized owing to troubles with police and unfolding events of the cold war, and became more and more involved with free festivals, alongside The Mob, with whom they developed a close association. They met up with fellow anarchists Crass when, legend has it, their van broke down on the road. They made their way to nearby Dial House, where Crass were based, who helped them with repairs. The two bands became friends, and although musically very divergent, they shared many common political views. After undergoing several line-up changes Zounds shortly afterwards released their first EP, Can't Cheat Karma, on the Crass Records label. The EP featured possibly their most well-known track "Subvert", a call to arms against the grind of daily life. The release of this EP and association with Crass led to an increase in the band's profile in the embryonic Anarcho-punk scene, touring with both Crass and the Poison Girls, as well as performing several squat gigs in West Berlin. The band released their first album The Curse of Zounds on Rough Trade Records in 1981, recording and mixing the LP within five days. The cover art, by anarchist artist Clifford Harper, featured a painting of fire fighters apparently trying to put out a blaze at the Houses of Parliament in Westminster. However, the picture continued onto the back cover, which showed that in fact they are spraying the fire with petrol, thus feeding it. In this book Steve Lake, principle writer of the band Zounds, collects all the band's lyrics and illuminates each with a relevant commentary. It contains personal reminiscences about how the band and their peers lived, it delves into the background of the lyrics and looks at the wider social context in which the band operated.

This book offers a comprehensive guide to global literary engagement with the Cold War. Eschewing the common focus on national cultures, the collection defines Cold War literature as an international current focused on the military and ideological conflicts of the age and characterised by styles and approaches that transcended national borders. Drawing on specialists from across the world, the volume analyses the period ’ s fiction, poetry, drama and autobiographical writings in three sections: dominant concerns (socialism, decolonisation, nuclearism, propaganda, censorship, espionage), common genres (postmodernism, socialism realism, dystopianism, migrant poetry, science fiction, testimonial writing) and regional cultures (Asia, Africa, Oceania, Europe and the Americas). In doing so, the volume forms a landmark contribution to Cold War literary studies which will appeal to all those working on literature of the 1945-1989 period, including specialists in comparative literature, postcolonial literature, contemporary literature and regional literature.

"Outstanding . . . The most accessible distillation of that conflict yet written." —The Boston Globe "Energetically written and lucid, it makes an ideal introduction to the subject." —The New York Times The "dean of Cold War historians" (The New York Times) now presents the definitive account of the global confrontation that dominated the last half of the twentieth century. Drawing on newly opened archives and the reminiscences of the major players, John Lewis Gaddis explains not just what happened but why—from the months in 1945 when the U.S. and the U.S.S.R. went from alliance to antagonism to the barely averted holocaust of the Cuban Missile Crisis to the maneuvers of Nixon and Mao, Reagan and Gorbachev. Brilliant, accessible, almost Shakespearean in its drama, *The Cold War* stands as a triumphant summation of the era that, more than any other, shaped our own. Gaddis is also the author of *On Grand Strategy*.

How did the Cold War shape culture and political power in decolonizing countries and give rise to authoritarian regimes in the so-called free world? *Cold War Reckonings* tells a new story about the Cold War and the global shift from colonialism to independent nation-states. Assembling a body of transpacific cultural works that speak to this historical conjuncture, Jini Kim Watson reveals autocracy to be not a deficient form of liberal democracy, but rather the result of Cold War entanglements with decolonization. Focusing on East and Southeast Asia, the book scrutinizes cultural texts ranging from dissident poetry, fiction, and writers' conference proceedings of the Cold War period, to more recent literature, graphic novels, and films that retrospectively look back to these decades with a critical eye. Paying particular attention to anti-communist repression and state infrastructures of violence, the book provides a rich account of several U.S. – allied Cold War regimes in the Asia Pacific, including the South Korean military dictatorship, Marcos' rule in the Philippines, illiberal Singapore under Lee Kuan Yew, and Suharto's Indonesia. Watson's book argues that the cultural forms and narrative techniques that emerged from the Cold War-decolonizing matrix offer new ways of comprehending these histories and connecting them to our present. The book advances our understanding of the global reverberations of the Cold War and its enduring influence on cultural and political formations in the Asia Pacific. *Cold War Reckonings* is available from the publisher on an open-access basis.

For more than a century, no US adversary or coalition of adversaries - not Nazi Germany, Imperial Japan, or the Soviet Union - has ever reached sixty percent of US GDP. China is the sole exception, and it is fast emerging into a global superpower that could rival, if not eclipse, the United States. What does China want, does it have a grand strategy to achieve it, and what should the United States do about it? In *The Long Game*, Rush Doshi draws from a rich base of Chinese primary sources, including decades worth of party documents, leaked materials, memoirs by party leaders, and a careful analysis of China's conduct to provide a history of China's grand strategy since the end of the Cold War. Taking readers behind the Party's closed doors, he uncovers Beijing's long, methodical game to displace America from its hegemonic position in both the East Asia regional and global orders through three sequential "strategies of displacement." Beginning in the 1980s, China focused for two decades on "hiding capabilities

and biding time." After the 2008 Global Financial Crisis, it became more assertive regionally, following a policy of "actively accomplishing something." Finally, in the aftermath populist elections of 2016, China shifted to an even more aggressive strategy for undermining US hegemony, adopting the phrase "great changes unseen in century." After charting how China's long game has evolved, Doshi offers a comprehensive yet asymmetric plan for an effective US response. Ironically, his proposed approach takes a page from Beijing's own strategic playbook to undermine China's ambitions and strengthen American order without competing dollar-for-dollar, ship-for-ship, or loan-for-loan.

A Kirkus Reviews Best Nonfiction Book of the Year From the National Book Award winner, a masterful history of the decade whose conflicts shattered America's postwar order and divide us still. On July 4, 1961, the rising middle-class families of a Chicago neighborhood gathered before their flag-bedecked houses, a confident vision of the American Dream. That vision was shattered over the following decade, its inequities at home and arrogance abroad challenged by powerful civil rights and antiwar movements. Assassinations, social violence, and the blowback of a "silent majority" shredded the American fabric. Covering the late 1950s through the early 1970s, *The Shattering* focuses on the period's fierce conflicts over race, sex, and war. The civil rights movement develops from the grassroots activism of Montgomery and the sit-ins, through the violence of Birmingham and the Edmund Pettus Bridge, to the frustrations of King's Chicago campaign, a rising Black nationalism, and the Nixon-era politics of busing and the Supreme Court. The Vietnam war unfolds as Cold War policy, high-stakes politics buffeted by powerful popular movements, and searing in-country experience. Americans' challenges to government regulation of sexuality yield landmark decisions on privacy rights, gay rights, contraception, and abortion. Kevin Boyle captures the inspiring and brutal events of this passionate time with a remarkable empathy that restores the humanity of those making this history. Often they are everyday people like Elizabeth Eckford, enduring a hostile crowd outside her newly integrated high school in Little Rock, or Estelle Griswold, welcoming her arrest for dispensing birth control information in a Connecticut town. Political leaders also emerge in revealing detail: we track Richard Nixon's inheritances from Eisenhower and his debt to George Wallace, who forged a message of racism mixed with blue-collar grievance that Nixon imported into Republicanism. *The Shattering* illuminates currents that still run through our politics. It is a history for our times.

The text focuses first on the impact of the Marshall plan on the organization of political and economic life in post-war Europe and how the plan was perceived in European public opinion. It then examines its role in the construction of European union and in the division of Europe. Finally, the book analyzes the debate about the economic impact of the Marshall Plan in the post-war economic "miracle" in Western Europe. The authors of these chapters are well-known historians, economists, and political scientists, whose original chapters derive from their work on post-war Europe.
