'They say that a little knowledge is a dangerous thing, but it is not one half so bad as a lot of ignorance.' Everybody knows there's no such

thing as a female wizard. So when the wizard Drum Billet accidentally passes on his staff of power to an eighth daughter of an eighth son, a girl called Eskarina (Esk, for short), the misogynistic world of wizardry wants nothing to do with her. Thankfully Granny Weatherwax, the Discworld's most famous witch, has plenty of experience ignoring the status quo. With Granny's help, Esk sneaks her way into the magical Unseen University and befriends

apprentice wizard Simon. But power is unpredictable, and these bright young students soon find themselves in a whole new dimension of trouble. Let the battle of the sexes begin . . . 'If you've never read a Discworld novel, what's the matter with you?' Guardian 'Pratchett uses his other world to hold up a distorting mirror to our own' The Times Equal Rites is the first book in the Witches series, but you can read the Discworld novels in any order.

For every

Pratchett fan, the must-have fully updated guidebook to Discworld! The Discworld, as everyone knows, is a flat world balanced on the backs of four elephants which, in turn, stand on the shell of the giant star turtle, the Great A'Tuin, as it slowly swims through space. It is also a global publishing phenomenon with sales of nearly 85 million books worldwide (and counting). With 39 books in the canon, not including the various guides, maps, diaries, and	other tie-in volumes, there's a lot of Discworld to keep track of—more than most fans can manage without magic. Turtle Recall is the ultimate authority on probably the most heavily populated—certainly the most hilarious—setting in fantasy literature and includes a guide to Discworld locales from Ankh-Morpork to Zemphis, as well as information to help you distinguish Achmed the Mad from Jack Zweiblumen and	the Agatean Empire from the Zoons. Plus much, much more. Covering everything from The Colour of Magic, the first Discworld novel, through Snuff!, Turtle Recall: The Discworld Companion . . . So Far is the most up-to-the-minute encyclopedia of Terry Pratchett's extraordinary universe available. <u>The Light Fantastic</u> Random House Twoflower was a tourist, the first ever seen on the Discworld. Tourist, Rincewind decided, meant idiot. Somewhere on the frontier between

thought and reality exists the Discworld, a parallel time and place which might sound and smell very much like our own, but which looks completely different. It plays by different rules. Certainly it refuses to succumb to the quaint notion that universes are ruled by pure logic and the harmony of numbers. But just because the Disc is different doesn't mean that some things don't stay the same. Its very existence is about to be threatened by a strange new blight: the arrival of the first tourist, upon whose survival rests the peace and prosperity of the

land. But if the person charged with maintaining that survival in the face of robbers, mercenaries and, well, Death is a spectacularly inept wizard, a little logic might turn out to be a very good idea... Rincewind the Wizzard Harper Collins
The Color of Magic is Terry Pratchett's maiden voyage through the now-legendary land of Discworld. This is where it all begins? with the tourist Twoflower and his wizard guide, Rincewind. Harper Collins

Among the many

books trying to understand the terrifying rise of ISIS, none has given voice to the women in the organization; but women were essential to the establishment of Abu Bakr al-Baghdadi ' s caliphate. Responding to promises of female empowerment and social justice, and calls to aid the plight of fellow Muslims in Syria, thousands of women emigrated from the United States and Europe, Russia and Central Asia, from across North Africa and the rest of the

Middle East to join the Islamic State. These were the educated daughters of diplomats, trainee doctors, teenagers with straight-A averages, as well as working-class drifters and desolate housewives, and they joined forces to set up makeshift clinics and schools for the Islamic homeland they ' d envisioned. Guest House for Young Widows charts the different ways women were recruited, inspired, or compelled to join the militants. Emma from Hamburg,

Sharmeena and three high school friends from London, and Nour, a religious dropout from Tunis: All found rebellion or community in political Islam and fell prey to sophisticated propaganda that promised them a cosmopolitan adventure and a chance to forge an ideal Islamic community in which they could live devoutly without fear of stigma or repression. It wasn ' t long before the militants exposed themselves as little

more than violent criminals, more obsessed with power than the tenets of Islam, and the women of ISIS were stripped of any agency, perpetually widowed and remarried, and ultimately trapped in a brutal, lawless society. The fall of the caliphate only brought new challenges to women no state wanted to reclaim. Azadeh Moaveni's exquisite sensitivity and rigorous reporting make these forgotten women indelible and illuminate the turbulent politics

that set them on their paths. The Colour of Magic Orbit On a world supported on the back of a giant turtle (sex unknown), a gleeful, explosive, wickedly eccentric expedition sets out. There's an avaricious but inept wizard, a naïve tourist whose luggage moves on hundreds of dear little legs, dragons who only exist if you believe in them, and of course THE EDGE of the planet... The Outsourcerer's Apprentice Oberon Books In a distant and second-hand set of dimensions, in an astral plane that

was never meant to fly . . . Imagine a flat world sitting on the backs of four elephants who hurtle through space balanced on a giant turtle. The Discworld is a place (and a time) strikingly parallel to our own—but also very different. But also very similar. To commemorate the twenty-fifth anniversary of the birth of the Discworld, the first two volumes of the remarkable Terry Pratchett's equally remarkable—and phenomenally successful—series were made available together, right here, in graphic novel form. These beautifully

illustrated renditions of The Colour of Magic and The Light Fantastic show and tell the bizarre misadventures of the spectacularly inept wizard Rincewind and Twoflower, Discworld's very first—and possibly, portentously its very last—tourist. Not to mention the Luggage, which has a mind of its own. And teeth. Far Far Away HarperCollins Sixth book of the original and best CITY WATCH series, now reinterpreted in BBC's The Watch 'The best Discworld book in the whole world ever. Until next

time.' SFX The Discworld is very much like our own - if our own were to consist of a flat planet balanced on the back of four elephants which stand on the back of a giant turtle, that is . . . 'Don't put your trust in revolutions. They always come round again. That's why they're called revolutions. People die, and nothing changes.' For a policeman, there can be few things worse than a serial killer loose in your city. Except, perhaps, a serial killer who targets coppers, and a city on the brink of

bloody revolution. For Commander Sam Vimes, it all feels horribly familiar. Caught on the roof of a very magical building during a storm, he's found himself back in his own rough, tough past without even the clothes he was standing up in when the lightning struck. Living in the past is hard, especially when your time travel companion is a serial killer who knows where you live. But he must survive, because he has a job to do: track down the murderer and change the

outcome of the rebellion. The problem is: if he wins, he's got no wife, no child, no future...
