An Economist Book of the Year An October 2014 Indie Next Pick An enthralling literary debut that evokes one of the most momentous events in history, the birth of printing in medieval Germany—a story of invention, intrigue and betrayal Youthful, ambitious Peter Schoeffer is on the verge of professional success as a scribe in Paris when his foster father, the wealthy merchant and bookseller Johann Fust, summons him home to corrupt, feud-plagued Mainz to meet “a most amazing man.” Johann Gutenberg, a driven and caustic inventor, has devised a revolutionary—and to some, blasphemous—method of bookmaking: a machine he calls a printing press. Fust is financing Gutenberg’s workshop, and he orders Peter to become Gutenberg’s apprentice. Resentful at having to abandon a prestigious career as a scribe, Peter begins his education in the “darkest art.” As his skill grows, so, too, does his admiration for Gutenberg and his dedication to their daring venture: printing copies of the Holy Bible. But when outside forces align against them, Peter finds himself torn between two father figures—the generous Fust and the brilliant, mercurial Gutenberg, who inspires Peter to achieve his own mastery. Caught between the genius and the merchant, the old ways and the new, Peter and the men he admires must work together to prevail against overwhelming obstacles—a battle that will change history . . . and irrevocably transform them all.

An intimate, deeply reported account of the women who made a shocking decision: to leave their comfortable lives behind and join the Islamic State. In early 2014, the Islamic State clinched its control of Raqqa in Syria. Baghdadi, the leader of ISIS, urged Muslims around the world to come join the caliphate. Having witnessed the brutal oppression of the Assad regime in Syria, and being moved to fight for justice, thousands of men and women heeded his call. At the heart of this story is a cast of unforgettable young women who responded. They include Emma, from Germany; Sharmeena, from Bethnal Green, London; and Nour, from Tunis. These were women — some still in school — from urban families, some with university degrees and bookshelves filled with novels by Jane Austen and Dan Brown; many with cosmopolitan dreams of travel and adventure. But instead of finding a land of justice and piety, they found themselves trapped within the most brutal terrorist regime of the twenty-first century, a world of chaos and upheaval and violence. What is the line between victim and collaborator? How do we judge these women who both suffered and inflicted intense pain? What role is there for Muslim women in the West? In what is bound to be a modern classic of narrative nonfiction, Moaveni takes us into the school hallways of London, kitchen tables in Germany, coffee shops in Tunis, the caliphate’s OB/GYN and its ‘Guest House for Young Widows’ — where wives of the fallen waited to be remarried — to demonstrate that the problem called terrorism is a far more complex, political, and deeply relatable one than we generally admit.

The Illusion of Knowledge: The Paradigm Shift in Aging Research that Shows the Way to Human Rejuvenation Gollancz

Not only an artistic and breathtaking view of Lancre but also an interesting and informative guide to one of the Discworld’s more, er, picturesque kingdoms. Granny Weatherwax, Nanny Ogg and Magrat Garlick live there. Lancre could hardly be somewhere ordinary, could it? Magic glues the Discworld together and a lot of it ends up in Lancre, principal Kingdom of the Ramtop Mountains. Between Uberwald and Whale Bay, the Octarine Grass Country and the Windersins Ocean lies the

most exciting and dangerous terrain in all Discworld. The Ramtops supply Discworld with most of its witches and wizards. The leaves on the trees move even when there is no breeze. Rocks go for a stroll in the evening. Even the land, at times, seems alive. The mapp may be only two-dimensional, but watch it very carefully and you might just see it jostle about a bit.

Gutenberg’s Apprentice Harper Collins

This collection includes all four Tiffany Aching novels in Terry Pratchett’s beloved and bestselling Discworld series. The Wee Free Men: Armed with only a frying pan and her common sense, young witch-to-be Tiffany Aching must defend her home against the monsters of Fairyland. Luckily she has some very unusual help: the local Nac Mac Feegle—aka the Wee Free Men—a clan of fierce, sheep-stealing, sword-wielding, six-inch-high blue men. Together they must face headless horsemen, ferocious grimhounds, terrifying dreams come true, and ultimately the sinister Queen of the Elves herself. . . . A Hat Full of Sky: Tiffany Aching is ready to begin her apprenticeship in magic. She expects spells and magic—not chores and ill-tempered nanny goats! Surely there must be more to witchcraft than this! What Tiffany doesn’t know is that an insidious, disembodied creature is pursuing her. In the end, it will take all of Tiffany’s inner strength to save herself . . . if it can be done at all. Wintersmith: When the Spirit of Winter takes a fancy to Tiffany Aching, he wants her to stay in his gleaming, frozen world. Forever. It will take the young witch’s skill and cunning, as well as help from the legendary Granny Weatherwax and the irrepressible Wee Free Men, to survive until Spring. Because if Tiffany doesn’t make it to Spring—Spring won’t come. I Shall Wear Midnight: As the witch of the Chalk, Tiffany Aching performs the distinctly unglamorous work of caring for the needy. But someone—or something—is inciting fear, generating dark thoughts and angry murmurs against witches. Tiffany must find the source of unrest and defeat the evil at its root. Aided by the tiny-but-tough Wee Free Men, Tiffany faces a dire challenge, for if she falls, the whole Chalk falls with her. . . .

Terry Pratchett’s profoundly irreverent novels are consistent number one bestsellers in England, where they have garnered him a revered position in the halls of parody next to Mark Twain, Kurt Vonnegut, Douglas Adams, and Carl Hiaasen. The Color of Magic is Terry Pratchett’s maiden voyage through the now-legendary land of Discworld. This is where it all begins—with the tourist Twoflower and his wizard guide, Rincewind.

The First Discworld Novels Random House

Twoflower was a tourist, the first ever seen on the Discworld. Tourist, Rincewind decided, meant idiot. Somewhere on the frontier between thought and reality exists the Discworld, a parallel time and place which might sound and smell very much like our own, but which looks completely different. It plays by different rules. Certainly it refuses to succumb to the quaint notion that universes are ruled by pure logic and the harmony of numbers. But just because the Disc is different doesn’t mean that some things don’t stay the same. Its very existence is about to be threatened by a strange new blight: the arrival of the first tourist, upon whose survival rests the peace and prosperity of the land. But if the person charged with maintaining that survival in the face of robbers, mercenaries and, well, Death is a spectacularly inept wizard, a little logic

might turn out to be a very good idea...

“Delightful. . . logically illogical as only Terry Pratchett can write.”—Anne McCaffrey Will the most unlikely hero in all of Discworld save the universe once again . . . or has his luck finally run out in this wildly funny installment in Sir Terry Pratchett’s internationally bestselling series, a hilarious mix of magic, mayhem, and Luggage. Once upon a time, there was an eighth son of an eighth son who was, of course, a wizard. As if that wasn’t complicated enough, said wizard then had seven sons. And then he had an eighth son—a wizard squared (that’s all the math, really)—who, of course, was a source of magic, a sourcerer. Unseen University, the most magical establishment on the Discworld, has finally got its wish: the emergence of a wizard more powerful than they’ve ever seen. But be careful what you wish for . . . As the drastic consequences of sourcery begin to unfold, it’s up to one unlikely wizard to save them. Rincewind has survived a string of misadventures, including falling off the edge of the world—which is no mean feat when it’s flying through space on the back of a turtle and held up by four elephants. Now, he must take the University’s most precious artifact, the very embodiment of magic itself, and deliver it halfway across the Disc to prevent a mathematically blessed sourcerer from leading the wizards to dominate all of Discworld. Can Rincewind and his tiny band, including the carnivorous Luggage, stave off the Apocalypse? The Discworld novels can be read in any order, but Sourcery is the 3rd installment in the Wizards series and the 5th Discworld book. Though they have allies among the monks and splinter cells inside the city, Shyla knows the Invisible Sword doesn’t have the strength to win. With the group fracturing due to the strain of losses from their latest ordeal, thinly veiled suspicions and endless disagreements, it’s up to Shyla to forge a new united order. When both the draconian Water Prince and brutal Heliacal Priestess learn of Shyla’s new powers, life becomes even more complicated as they will stop at nothing to capture Shyla and take the magic of The Eyes for themselves. Hunted at every turn and unable to hide, Shyla and the Invisible Sword must use every resource at their command - and unearth new ones - in their race to save the city from destruction. In May 2020, the publication of a scientific paper on the rejuvenation of rats shook the foundations of the community that studies the possibility of undoing aging. An average epigenetic rejuvenation of 54% of the animals was reported in the article, in addition to the reversal of dozens of biochemical markers of old rats to values typical of young rats. The main developer of the treatment that led to these results was Dr. Harold Katcher, author of *The Illusion of Knowledge*. The reception of the specialized scientific community to the experiment was shock, with the phrase "it’s too good to be true" repeated almost instinctively. Thus, Dr. Katcher decided to write this book, explaining in detail the foundations of his theory of aging and the evolutionary and biochemical bases of the mechanisms that determine

the lifespan of different species. However, in this book, Dr. Katcher has done much more than address the strictly scientific part. By also conducting an in-depth analysis of the history of scientific ideas and humanity's relationship with the idea of immortality, he shows that it is no accident that he may have made the greatest discovery in human history.

"Discworld is more complicated and satisfactory than Oz . . . has the energy of The Hitchhiker's Guide to the Galaxy and the inventiveness of Alice in Wonderland . . . brilliant." —A. S. Byatt When war, magic, politics, and one deliciously inept wizard collide, zany mayhem ensues in this delightful satire in Sir Terry Pratchett's internationally bestselling Discworld series. To the fine denizens of Discworld, the phrase "May you live in interesting times" is a curse. No one wishes to hear those words, especially not Rincewind. The distinctly unmagical sorcerer has barely survived more than a few "interesting times" and he isn't looking to experience any more. But when a request for a "Great Wizzard" arrives in Ankh-Morpork via carrier albatross from the faraway Counterweight Continent, Rincewind is named emissary. The Agatean Empire's current ruler is on the brink of downfall, and chaos is all but certain to arise in the wake. For some incomprehensible reason, someone believes Rincewind will have a mythic role in the war and the ensuing bloodletting. Cohen the Barbarian and his extremely elderly Silver Horde are already hard at work planning for the looting and pillaging. Anyone can be a hero, but there's only one Rincewind—and he believes he owes it to the world to keep that one alive for as long as possible. The Discworld novels can be read in any order but Interesting Times is the fifth installment in the Wizards collection (and the 18th Discworld book). "If you are unfamiliar with Pratchett's unique blend of philosophical badinage interspersed with slapstick, you are on the threshold of a mind-expanding opportunity." —Financial Times Chaos ensues when Discworld's deliciously hapless wizard Rincewind goes walking about in the Down Under in this wonderfully witty satire from legendary internationally bestselling author Sir Terry Pratchett. There's big trouble at the Unseen University, Ankh-Morpork's prestigious and only institute of higher learning. A professor is missing—and the one person who can find him is not only the most bumbling magician the school ever produced, he's currently stranded in Fourecks, Discworld's last (and unfinished) continent. The down-under is hot (so hot) and it's dry (so dry)—though it's rumored there was once this thing called The Wet, but no one believes that. Practically everything here that's not poisonous is venomous. Discworld's most inept wizard and his companion, Luggage, are eager to get home—but first Rincewind has to survive a pushy mystical kangaroo trickster named Scrappy and a mob of Fourecks hooligans determined to hang him. All his problems would be solved if he could just make it rain . . . for (maybe) the first time ever. And if the time-traveling professors from UU working on rescuing him can get to the right millennium . . . 'Just because you can't explain it, doesn't mean it's a miracle.' In the beginning was the Word. And the Word was: 'Hey, you!' This is the Discworld, after all, and religion is a controversial business. Everyone has their own opinion, and indeed their own gods, of every shape and size, and all elbowing for space at the top. In such a competitive environment, it's certainly not helpful to be reduced to appearing in the form of a tortoise, a manifestation far below god-like status in anyone's book. In such instances, you need an acolyte, and fast: for the Great God Om, Brutha the novice is the Chosen One – or at least the only One available. He wants peace and justice and brotherly love. He also wants the Inquisition to stop torturing him now, please... Now adapted into graphic novel form with new artwork by Ray Friesen.
