Perfect for fans of Deborah Harkness and Elizabeth Kostova, The Water Watch is a breathtakingly sexy and atmospheric new novel of ancient folklore, passionate love, and thrilling magic. After casting out a dark spirit, Callie McFay, a professor of gothic literature, has at last restored a semblance of calm to her rambling Victorian house. But in the nearby thicket of the honeysuckle forest, and in the currents of the rushing Undine stream, more trouble is stirring. . . . The enchanted town of Fairwick’s dazzling mix of mythical creatures has come under siege from the Grove: a sinister group of witches determined to banish the fey back to their ancestral land. With factions turning on one another, all are cruelly forced to take sides. Callie’s grandmother, a prominent Grove member, demands her granddaughter’s compliance, but half-witch/half-fey Callie can hardly betray her friends and colleagues at the college. To stave off disaster, Callie enlists Duncan Laird, an alluring seductive academic who cultivates her vast magical potential, but to what end? Deeply conflicted, Callie struggles to save her beloved Fairwick, dangerously pushing her extraordinary powers to the limit—risking all, even the needs of her own passionate heart. Includes a preview of Book Three of The Fairwick Trilogy: The Angel Stone Praise for The Water Witch “A lighthearted, fast moving fantasy . . . Hawai’i author Chris McKinney’s first entry in a brilliant new sci-fi noir trilogy explores the sordid past of a murdered scientist, deified in death, through the eyes of a man who once committed unspeakable crimes for her. Year 2142: Earth is forty years past a near-collision with the asteroid Sessho-seki. Akira Kimura, the scientist responsible for eliminating the threat, has reached heights of celebrity approaching deification. But now, Akira feels her safety is under threat, so after years

without contact, she reaches out to her former head of security, who has since become a police detective. When he arrives at her deep-sea home and finds Akira methodically dismembered, this detective will risk everything—his career, his family, even his own life—and delve back into his shared past with Akira to find her killer. With a rich, cinematic voice and burning cynicism, Midnight, Water City is both a thrilling neo-noir procedural and a stunning exploration of research, class, climate change, the cult of personality, and the dark sacrifices we are willing to make in the name of progress.

Widely heralded as a “ masterful ” (Washington Post) and “ essential ” (Slate) history of the modern American metropolis, Richard Rothstein ’ s The Color of Law offers “ the most forceful argument ever published on how federal, state, and local governments gave rise to and reinforced neighborhood segregation ” (William Julius Wilson). Exploding the myth of de facto segregation arising from private prejudice or the unintended consequences of economic forces, Rothstein describes how the American government systematically imposed residential segregation: with undisguised racial zoning; public housing that purposefully segregated previously mixed communities; subsidies for builders to create whites-only suburbs; tax exemptions for institutions that enforced segregation; and support for violent resistance to African Americans in white neighborhoods. A groundbreaking, “ virtually indispensable ” study that has already transformed our understanding of twentieth-century urban history (Chicago Daily Observer), The Color of Law forces us to

face the obligation to remedy our unconstitutional past.
