There's a Hair in My Dirt! Sphere
Since "The Far Side's debut in January 1980, fans have bought more than 40 million "Far Side books and more than 60 million calendars. Now, at long last, the ultimate "Far Side book has arrived as a hefty, deluxe, two-volume slipcased set. A masterpiece of comic brilliance, The Complete Far Side contains every "Far Side cartoon ever syndicated--over 4,000 if you must know--presented in (more or less) chronological order by year of publication, with more than 1,100 that have never before appeared in a book. Creator Gary Larson offers a rare glimpse into the mind of "The Far Side in quirky and thoughtful introductions to each of the 14 chapters. Complaint letters, fan letters, and queries from puzzled readers appear alongside some of the more provocative or elusive panels, and actor, author, and comedian Steve Martin offers his pithy thoughts in a foreword.

No one escapes the sharp pen of the knife-eyed maniac who somehow remains saner and wiser than the rest of us. His cartoons are regularly featured in Harper's, Utne Reader, Penthouse, and newspapers across the country. Filled with dozens of new cartoons and several longer pieces.

Illustrated.

The Curse of Madame "C" Harper Collins
The rivalry between the brilliant seventeenth-century Italian architects Gianlorenzo Bernini and Francesco Borromini is the stuff of legend. Enormously talented and ambitious artists, they met as contemporaries in the building yards of St. Peter's in Rome, became the greatest architects of their era by designing some of the most beautiful buildings in the world, and ended their lives as bitter enemies. Engrossing and impeccably researched, full of dramatic tension and breathtaking insight, *The Genius in the Design* is the remarkable tale of how two extraordinary visionaries schemed and maneuvered to get the better of each other and, in the process, created the spectacular Roman cityscape of today.

Last Chapter and Worse National Geographic Books

Kerry D. Soper reminds us of The Far Side's groundbreaking qualities and cultural significance in Gary Larson and "The Far Side." In the 1980s, Gary Larson (b. 1950) shook up a staid comics page by introducing a set of aesthetic devices, comedic tones, and philosophical frames that challenged and delighted many readers, even while upsetting and confusing others. His irreverent, single panels served as an alternative reality to the tame comedy of the family-friendly newspaper comics page, as well as the pervasive, button-down consumerism and conformity of the Reagan era. In this first full study of Larson's art, Soper follows the arc of the cartoonist's life and career, describing the aesthetic and comedic qualities of his work, probing the business side of his success, and exploring how The Far Side brand as a whole--with its iconic characters and accompanying set of comedic and philosophical frames--connected with its core readers. In effect, Larson reinvented his medium by creatively working

within, pushing against, and often breaking past institutional, aesthetic, comedic, and philosophical parameters. Due to the comic's great success, it opened the door for additional alternative voices in comics and other popular mediums. With its intentionally awkward, minimalistic lines and its morbid humor, The Far Side expanded Americans' comedic palette and inspired up-and-coming cartoonists, comedians, and filmmakers. Soper re-creates the cultural climate and media landscape in which The Far Side first appeared and thrived, then assesses how it impacted worldviews and shaped the comedic sensibilities of a generation of cartoonists, comedy writers, and everyday fans.

The Complete Calvin and Hobbes Andrews McMeel Publishing

Gary Larson writes: Our story begins with a family of worms who are having dinner one fine evening and Son Worm is unhappy. Unhappy because he's found a hair in his plate of dirt. It's the proverbial straw and it leads him

to bemoan his fate as a worm - he's sick and tired of being a worm, tired of being at the bottom of the food chain. His father, upset by his outburst, decides to tell him the tale of a fair human maiden called Harriet. Even with the wonder of satellite television, Harriet loved the Great Outdoors and took many wondrous walks along her favourite woodland trail, adventures filled with mystery and magic. Unfortunately, although Harriet was fair and kindhearted (to a very dangerous degree) she was also, well, dumb. She didn't quite understand what she was seeing, didn't realise that in Nature, what you see is not necessarily what you get ...
