This edited book brings a new analytical angle to the study of comparative regionalism by focussing on the unintended consequences of interregional relations. The book satisfies the need to go beyond the consideration of the success or failure of international policies. It sheds light on complex interactions involving multiple actors, individual and institutional, driven by various representations, interests and strategies, and which often result in unintended consequences that powerfully affect the socio-political context in which they unfold. By providing a new conceptual framework to understand how interregionalism brings about social

change, the book examines the effects on the individual and institutional actors of interregional relations, and the effects on the social structures that constitute interregionalism. It also examines interregionalism ' s transformational character for structures of regional and international governance, as well as societies. This book will be of key interest to scholars and students in the fields of comparative regionalism, interregionalism, EU studies, international and regional organisations, global governance and more broadly to international relations, international politics and (comparative) area studies.

The Consequence of Loving Me Simon and Schuster

When policymakers, communities or advocates make decisions and take actions, they do so with the purpose of achieving some desired

goal. But sometimes, unintended consequences occur. These are outcomes that are not the ones intended by the purposeful decision or action. Unintended consequences can be positive or negative, although the discussions often focus on the unexpected adverse impact that may result from well-intentioned policies or public actions. It is tempting to say that unintended consequences happen because we live in an uncertain and unpredictable world, and that there is not much we can do to prevent their occurrence or prepare for them. In fact, many unintended consequences are neither predetermined nor random. It is true that whether or not unintended consequences happen will be affected by many economic and social factors that Singapore is confronted with, but much will also depend on how we approach these factors and the potential consequences. This book, based on the proceedings at the Behavioural Sciences Institute Conference 2017, explores various issues about unintended consequences in Singapore. The book is organised into four parts. Part 1 provides an overview of issues involved in thinking about unintended consequences. Part 2 examines unintended consequences in the context of Singapore's goal to become a smart nation and compares the perspectives between public and private sector organisations on dealing with uncertainty. Part 3 analyses the relationships linking unintended consequences to healthcare outcomes and the management of race relations in Singapore. Part 4 addresses specific questions on unintended consequences in Singapore in terms

of the nation's history, immigration, education, meritocracy, civil service culture and mindsets, and relationships between people and government. This book will provide the reader new perspectives and possibilities related to achieving intended societal goals and building a strong Singapore society.

The list of things I hate is short. Not even my soon-to-be ex-husband is on that list. Nope. I save only the worst of the worst, the *crème de la crème*, the absolute I cannot even for this list . . . 1. Black coffee 2. Rude people 3. Nathaniel Bradley Which is why when my father informs me that he's making Nathaniel Bradley his new business partner, and in turn, my boss, I flip out. 1. He's an annoying know-it-all. 2. He calls me a spoiled princess every chance he gets. 3. He disapproves of everything I do. I go into this knowing I'll hate every second in his presence. Except the longer he's around, the more I find myself staring at his lips and remembering the one time they were on mine. I randomly find myself looking at his hands and wondering how they'd feel on my skin. I try to snap out of it, but I guess I'm not as smart as I thought I was. No matter how many times I remind myself of the times I've practically thrown myself at him and he's pushed me away, I keep falling little by little. I'd always heard that it was a bad idea to mix business with pleasure and if that's the case, this thing with Nathaniel has demise written all over it.
