From New York Times, USA Today, and Publishers Weekly bestselling author Joel C. Rosenberg! A game-changing peace treaty between Israel and the Saudis is nearly done. The secretary

of state is headed to the region to seal the deal. And Special Agent Marcus Ryker is leading an advance trip along the Israel-Lebanon border, ahead of the secretary's arrival. But when Ryker and his team are ambushed by Hezbollah forces, a nightmare scenario begins to unfold. The last thing the White House can afford is a new war in the Mideast that could derail the treaty and set the region ablaze. U.S. and Israeli forces are mobilizing to find the hostages and get them home, but Ryker knows the clock is ticking. When Hezbollah realizes who they've captured, no amount of ransom will save them—they'll be transferred to Beirut and then to Tehran to be executed on live television. In the fourth installment of Rosenberg's gripping new series, Marcus Ryker finds himself in the most dangerous situation he has ever faced—captured, brutalized, and dragged deep behind enemy lines. Should he wait to be rescued? Or try to escape? How? And what if his colleagues

are too wounded to run? This is the CIA's most valuable operative as you have never seen him before.

In 1947, a Bedouin shepherd literally stumbled upon a cave near the Dead Sea, a settlement now called Qumran, to the east of Jerusalem. This cave, along with the others located nearby, contained jars holding hundreds of scrolls and fragments of scrolls of texts both biblical and nonbiblical—in Hebrew, Aramaic, and Greek. The biblical scrolls would be the earliest evidence of the Hebrew Scriptures, or Old Testament, by hundreds of years; and the nonbiblical texts would shed dramatic light on one of the least-known periods of Jewish history—the Second Temple period. This find is, quite simply, the most important archaeological event in two thousand years of biblical studies. The scrolls provide information on nearly every aspect of biblical studies, including the Old Testament, text criticism, Second Temple Judaism, the New Testament, and Christian origins. It took more than fifty years for the scrolls to be completely and officially published, and there

is no comparable brief, introductory resource. Core Biblical Studies fulfill the need for brief, substantive, yet highly accessible introductions to key subjects and themes in biblical studies. In the shifting tides of biblical interpretation, these books are designed to help students locate relevant meanings in conversation with the text. As a first step toward substantive and subsequent learning, the series draws on the best scholarship in order to provide foundational concepts and contextualized information on a broad scope of issues, methods, perspectives, and trends.

The Last Jihad BRILL

Introduces a radical new perspective on the historical foundations of monotheism, based on the enigma of the Copper Scroll of the Essenes. • Confirms the link between ancient Judaism and the pharaoh Akhenaten. • Decodes

the system of measurements encrypted on the Copper Scroll that has confounded scholars for over 50 years, leading to the identification of fabulous lost treasures. • Points to a radical new understanding of the origins of monotheism. The famous Dead Sea Scrolls comprise the oldest collection of Biblical documents ever discovered. Of the Dead Sea Scrolls, none has baffled experts more than the 2,000-year-old Copper Scroll, discovered in 1952 by a team of Bedouin led by Henri de Contenson of the Ecole Biblique in East Jerusalem. Appearing to be a list of buried treasure engraved on copper pieces, the Copper Scroll is considered to be the work of a secretive Jewish sect of devout Essenes, who lived by the Dead Sea around the time of Jesus. No one has been able to explain its meaning or discover any of the 64 locations where the Biblical treasures it lists were buried. Robert Feather, combining his background as a metallurgist with his journalistic expertise, has unraveled the enigma of the Copper Scroll in a fascinating study that takes the reader on a journey from ancient Mesopotamia, through Canaan, into Egypt, and back to the shores of the Dead Sea. His exploration links the scroll to the ancient Egyptian king Akhenaten, confirming a long suspected influence of this pharaoh's religious beliefs on those of the Hebrews. The author's findings not only reveal the locations of most of the treasures listed on the Copper Scroll, but they also point to a radical new understanding of the origins of monotheism--the basis of the three great religions of Judaism, Islam, and Christianity.

The history behind the Copper Scroll and the true story of Jim Barfield's quest for its treasure. Whether the objects are of legend or history, certain ancient mysteries arrest the imaginations of every generation. These antiquities refuse to be forgotten by the human spirit—hidden sufficiently to

evade discovery, but historically prominent enough to leave a smattering of clues. Many explorers have fallen prey to fortune's siren call, spending their lifetimes searching for the artifacts that promise to alter human history. The Copper Scroll Project is a relative newcomer to the modern treasure hunt. Part of the Dead Sea Scrolls collection, the Copper Scroll is unlike any of the leather and papyrus documents, though not simply for its copper plates. The relic reads like a coded map, listing dozens of hiding spots where tithes and vessels thought to be secreted from the Jewish Temple were stored for safekeeping. More than fifty years after archaeologists found this unique artifact in a cave near Qumran, four adventurers have dared to chase after the scroll's priceless relics.
