The Country of the Blind, and Other Stories CRC Press

From the #1 New York Times bestselling author of *The Handmaid's Tale* WINNER OF THE BOOKER PRIZE In *The Blind Assassin*, Margaret Atwood weaves together strands of gothic suspense, romance, and science fiction into one utterly spellbinding narrative. The novel begins with the mysterious death—a possible suicide—of a young woman named Laura Chase in 1945. Decades later, Laura's sister Iris recounts her memories of their childhood, and of the dramatic deaths that have punctuated their wealthy, eccentric family's history. Intertwined with Iris's account are chapters from the scandalous novel that made Laura famous, in which two illicit lovers amuse each other by spinning a tale of a blind killer on a distant planet. These richly layered stories—within-stories gradually illuminate the secrets that have long haunted the Chase family, coming together in a brilliant and astonishing final twist.

How is this book unique? Font adjustments & biography included Unabridged (100% Original content) Formatted for e-reader Illustrated About The Country of the Blind by H. G. Wells "The Country of the Blind" is a story written by H. G. Wells. It is one of Wells's best known stories, and features prominently in literature dealing with blindness. "In the country of the blind, the one-eyed man is king." Or is he? In H. G. Wells' acclaimed tale, a stranded mountaineer encounters an isolated society in which his apparent advantage proves less than

valuable. Plot Summary: While attempting to summit the unconquered crest of Parascotopetl, a mountaineer named Nuñez slips and falls down the far side of the mountain. At the end of his descent, down a snow-slope in the mountain's shadow, he finds a valley, cut off from the rest of the world on all sides by steep precipices. Unbeknownst to Nuñez, he has discovered the fabled "Country of the Blind". The valley had been a haven for settlers fleeing the tyranny of Spanish rulers, until an earthquake reshaped the surrounding mountains, cutting the valley off forever from future explorers. The isolated community prospered over the years, despite a disease that struck them early on, rendering all newborns blind. As the blindness slowly spreads over many generations, the people's remaining senses sharpened, and by the time the last sighted villager had died, the community had fully adapted to life without sight.

In the nineteenth century, a small group of American idealists managed to actually build Charles Babbage's Analytical Engine and use it to develop Cliology, mathematical models that could chart the likely course of the future. Soon they were working to alter history's course as they thought best. By our own time, the Society has become the secret master of the world. But no secret can be kept forever, at least not without drastic measures. When her plans for some historic real estate lead developer and ex-reporter Sarah Beaumont to stumble across the Society's existence, it's just the first step into a baffling and deadly maze of conspiracies. No classic work lends itself better to Steampunk illustrations than *The Time Machine*, *The War of the Worlds*, and "The Country of the Blind," written by H.G. Wells, who many consider to be the father of Steampunk itself. Wells's tales of time travel and scientific romance is the perfect collection to the Steampunk series. Fans old and new will be delighted by Basic and Sumberac's four-color illustrations spiked with Steampunk machinery, gadgets, and fashion. *The Collector's Book of Science Fiction* by H.G. Wells e-artnow Herbert George Wells was perhaps best known as the author of such classic

works of science fiction as *The Time Machine* and *War of the Worlds*. But it was in his short stories, written when he was a young man embarking on a literary career, that he first explored the enormous potential of the scientific discoveries of the day. He described his stories as "a miscellany of inventions," yet his enthusiasm for science was tempered by an awareness of its horrifying destructive powers and the threat it could pose to the human race. A consummate storyteller, he made fantastic creatures and machines entirely believable; and, by placing ordinary men and women in extraordinary situations, he explored, with humor, what it means to be alive in a century of rapid scientific progress.

The Country of the Blind Pantheon

From Homer to Helen Keller, from *Dune* to *Stevie Wonder*, from the invention of braille to the science of echolocation, M. Leona Godin explores the fascinating history of blindness, interweaving it with her own story of gradually losing her sight. "[A] thought-provoking mixture of criticism, memoir, and advocacy." —*The New Yorker* *There Plant Eyes* probes the ways in which blindness has shaped our ocularcentric culture, challenging deeply ingrained ideas

about what it means to be "blind." For millennia, blindness has been used to signify such things as thoughtlessness ("blind faith"), irrationality ("blind rage"), and unconsciousness ("blind evolution"). But at the same time, blind people have been othered as the recipients of special powers as compensation for lost sight (from the poetic gifts of John Milton to the heightened senses of the comic book hero Daredevil). Godin—who began losing her vision at age ten—illuminates the often-surprising history of both the condition of blindness and the myths and ideas that have grown up around it over the course of generations. She combines an analysis of blindness in art and culture (from *King Lear* to *Star Wars*) with a study of the science of blindness and key developments in accessibility (the white cane, embossed printing, digital technology) to paint a vivid personal and cultural history. A genre-defying work, *There Plant Eyes* reveals just how essential blindness and vision are to humanity's understanding of itself and the world.

Men Like Gods Anchor

Is it better to reign in hell than to serve in Heaven? Wells at his thoughtful best, "The Country of the Blind" (1904) is one of his best-known and most-anthologized short stories. The fable tells the story of a stranded mountaineer's fateful discovery of a mythical village where everyone is blind only to realise that he can teach and rule them. But much to his dismay the villagers do not show any understanding of this fifth sense that is entirely unknown to them. This story poses many questions: Is there really any such thing as a handicap? How much are we willing to sacrifice for love? In the country of the blind, the one-eyed man is king. Or is he? H. G. Wells was an English writer, remembered mostly for his science fiction works. Often described as a futurist, H. G. Wells's influence cannot be neglected for his works foresaw many technological innovations such as space travel, the atomic bomb, and the Internet. Four times Nobel Prize in Literature nominee, Wells explored a wide array of themes in his works, occupying one of the central seats in the canon of British literature. Some of his best works include the time-travel novel "The Time Machine", the sci-fi adventure novel "The Island of Dr. Moreau", the mankind-versus-alien novel "The War of the Worlds" and more than seventy short stories.

The enterprise of Messrs. T. Nelson & Sons and the friendly accommodation of Messrs. Macmillan render possible this collection in one

cover of all the short stories by me that I care for any one to read again. Except for the two series of linked incidents that make up the bulk of the book called *Tales of Space and Time*, no short story of mine of the slightest merit is excluded from this volume. Many of very questionable merit find a place; it is an inclusive and not an exclusive gathering. And the task of selection and revision brings home to me with something of the effect of discovery that I was once an industrious writer of short stories, and that I am no longer anything of the kind. I have not written one now for quite a long time, and in the past five or six years I have made scarcely one a year. The bulk of the fifty or sixty tales from which this present three-and-thirty have been chosen dates from the last century. This edition is more definitive than I supposed when first I arranged for it. In the presence of so conclusive an ebb and cessation an almost obituary manner seems justifiable. I find it a little difficult to disentangle the causes that have restricted the flow of these inventions. It has happened, I remark, to others as well as to myself, and in spite of the kindest encouragement to continue from editors and readers. There was a time when life bubbled with short stories; they were always coming to the surface of my mind, and it is no deliberate change of will that has thus restricted my production. It is rather, I think, a diversion of attention to more sustained and more exacting forms. It was my friend Mr. C.L. Hind who set that spring going. He urged me to write short stories for the *Pall Mall Budget*, and persuaded me by his simple and buoyant conviction that I could do what he desired. There existed at the time only the little sketch, "The Jilting of Jane," included in this volume—at least, that is the only tolerable fragment of fiction I find surviving from my pre-Lewis-Hind period. But I set myself, so encouraged, to the experiment of inventing moving and interesting things that could be given vividly in the little space of eight or ten such pages as this, and for a time I found it a very entertaining pursuit indeed. Mr. Hind's indicating finger had shown me an amusing possibility of the mind. I found that, taking almost anything as a starting-point and letting my thoughts play about it, there would presently come out of the darkness, in a manner quite inexplicable, some absurd or vivid little incident more or less relevant to that initial nucleus. Little men in canoes upon sunlit oceans would come floating out of nothingness, incubating the eggs of prehistoric monsters unawares; violent conflicts would break out amidst the flower-beds of suburban gardens; I would discover I was peering into remote and mysterious worlds ruled by an order logical indeed but other than our common sanity....
