What We Believe Creed

If God has spoken, then the highest human aspiration must be to hear what the Creator has said. God has indeed spoken, through the Ten Commandments, and Al Mohler explores this revelation of God and the implications for His people. The promise is to hear, to obey, and to live. These "Ten Words" tell us who God is and what His people should look like. Mohler is a respected voice on the state of our culture (and the church) today. The Ten Commandments speak to current issues today such as the exclusivity of the Christian God,

the essence of worship, capital punishment, just war, business ethics and the postmodern definition of truth.

Throughout the history of the Church, Christians have expressed their faith in word and song. Among the ways they confessed what they believed was through creeds. The term "creed," which comes from the Latin credo ("I believe"), has played a central role in the identity of the Church and expressing her core beliefs. Some of the more famous creeds are the Apostles' Creed and Nicene Creed. While these creeds developed in the first few centuries of the Church, the earliest creeds are embedded

within the New Testament text itself. The singing of hymns, which are closely associated with creeds, has also been part of the Church's ancient heritage. These credal hymns were adopted from the synagogues and have continued to be an integral expression of worship today. The New Testament contains many of the hymns that the early Christians sang. Since these hymns are confessional in nature, we can state that hymns were creed-like, confessing in song what the earliest Christians believed. This book examines the ancient creeds and hymns found in the New Testament, shedding light on what the earliest Christians held to be central, definitional, and

foundational to their faith.

The Apostles' Creed Modern Christians have often hesitated to embrace the ancient creeds because of our “nothing but the Bible” tradition. In *What Christians Ought to Believe* Michael Bird opens our eyes to the possibilities of the Apostle’s Creed as a way to explore and understand the basic teachings of the Christian faith. Bringing together theological commentary, tips for application, and memorable illustrations, *What Christians Ought to Believe*

summarizes the basic tenets of the Christian faith using the Apostle’s Creed as its entryway. After first emphasizing the importance of creeds for the formation of the Christian faith, each chapter, following the Creed’s outline, introduces the Father, the Son, and the Spirit and the Church. An appendix includes the Apostles’ Creed in the original Latin and Greek. *What Christians Ought to Believe* is ideally suited for both the classroom and the church setting to teach beginning students and

laypersons the basics of what Christians ought to affirm if they are to be called Christians.

Creed Thomas Nelson The Apostles' Creed is the oldest, most beautiful succinct summary of Christian beliefs. Though often recited in unison during worship services, the creed begins with the phrase "I believe," making it a deeply personal profession of faith. But when was the last time you examined it closely? In *Affirming the Apostles' Creed*, an excerpt from *Growing in Christ*, noted Bible scholar and author J.

I. Packer explains the meaning and implications of each phrase of this great creed. Each concise chapter serves as an invitation to dive further into the creed- and as a result, into the essentials of the Christian faith-by concluding with discussion questions and Bible passages for further study.

Long before the

followers of Jesus declared him to be the Son of God, Jesus taught his followers that they too were the children of God. This ancient creed, now all but forgotten, is recorded still within the folds of a letter of Paul the Apostle. Paul did not create this creed, nor did he fully embrace it, but he quoted it and thus preserved it for a time when it might become important once again. This ancient creed said nothing about God or Christ or salvation. Its claims were about the whole human race: there is no race, there is no class, there is no gender. This is the story of that first, forgotten creed, and the world of its begetting, a world in which foreigners were feared, slaves were human chattel, and men questioned whether women were really human after all. Into this world the followers of Jesus proclaimed: "You are all children of God. There is no Jew or Greek, no slave or free, no male and female, for you are all one." Where did

this remarkable statement of human solidarity come from, and what, finally, happened to it? How did Christianity become a Gentile religion that despised Jews, condoned slavery as the will of God, and championed patriarchy? Christian theologians would one day argue about the nature of Christ, the being

of God, and the mechanics of salvation. But before this, in the days when Jesus was still fresh in the memory of those who knew him, the argument was a different one: how can human beings overcome the ways by which we divide ourselves one from another? Is solidarity possible beyond race, class, and gender?

I believe. These two words are among the most explosive words any human can utter. The Apostles' Creed has

shaped and guided Christian faith for almost two thousand years. Shared by Protestant, Roman Catholic, and Eastern Orthodox traditions, it is perhaps the most compelling statement of Christian doctrine the world has ever known. But do we know what it really means—and how it applies to us today? In The

Apostles' Creed, renowned theologian and pastor R. Albert Mohler Jr. works line-by-line and phrase-by-phrase through each section of the Creed, revealing the rich truths it contains, including: the profound mystery of the Trinity the miracle of the Incarnation the world-shaking truth of the resurrection

the hope of Christ's return the theological heritage contained in this ancient statement The Apostles' Creed is an often-overlooked treasure that contains the power to shape us for vibrant and steadfast living today, equipping believers to live faithfully in a post-Christian culture.

Christian answer to

Joseph Ratzinger, now

is a reflection of
the profound,
personal insights of

Benedict XVI, but also of the great foundations of Christianity: faith, hope, and charity. Ratzinger writes eloquently and persuasively about the importance for followers of Christ to understand well what they believe so one can live as a serious Christian in today's secular world. He talks in depth about the true meaning of faith, hope, and love—the

love of God and the love of neighbor. He also discusses the crucial importance of a lived faith, for the believer himself as well as being a witness for our age, and striving to bring faith in line with the present age that has veered off into rampant secularism and materialism. "In our generation the Christian Faith finds itself in a much deeper crisis than at any other time in the

past. In this situation it is no solution to shut our eyes in fear in the face of pressing problems, or to simply pass over them. If faith is to survive this age, then it must be lived, and above all, lived in this age. And this is possible only if a manifestation of faith is shown to have value for our present day, by growing to knowledge

and fulfillment."

—Pope Benedict XVI
