From the bestselling author of *Generation X* and *Microserfs*, comes the absurd and tender story of a hard-living movie producer and a former child beauty pageant contender who only find each other by losing themselves. Waking up in an L.A. hospital, John Johnson is amazed that it was the flu and not an overdose of five different drugs mixed with cognac that nearly killed him. As a producer of high-adrenaline action flicks, he's led a decadent and dangerous life, purchasing his way through every conceivable variant of sex. But each variation seems to take him one notch away from a capacity for love, and while movie-making was once a way for him to create worlds of sensation, it now bores him. After his near-death experience, John decides to walk away from his life. Susan Colgate is an unbankable former tv star and child beauty pageant contender. Forced to marry a heavy metal singer in need of a Green Card after her parents squander her sitcom earnings, she becomes the alpha road rat. But when the band's popularity dwindles, the marriage dissolves. Flying back to Los Angeles in Economy, Susan's plane crashes and only she survives. As she walks away from the disaster virtually unscathed, Susan, too, decides to disappear. John and Susan are two souls searching for love across the bizarre, celebrity-obsessed landscape of LA, and are driven, almost fatefully, toward each other. Hilarious, fast-paced and ultimately heart-wrenching, *Miss Wyoming* is about people who, after throwing off their self-made identities, begin the fearful search for a love that exposes all vulnerabilities.

The Lambs of London HarperCollins UK

In a thoughtful, well-informed study exploring fiction from throughout Stephen King's immense oeuvre, Heidi Strengell shows how this popular writer enriches his unique brand of horror by building on the traditions of his literary heritage. Tapping into the wellsprings of the gothic to reveal contemporary phobias, King invokes the abnormal and repressed sexuality of the vampire, the hubris of Frankenstein, the split identity of the werewolf, the domestic melodrama of the ghost tale. Drawing on myths and fairy tales, he creates characters who, like the heroic Roland the Gunslinger and the villainous Randall Flagg, may either reinforce or subvert the reader's childlike faith in society. And in the manner of the naturalist tradition, he reinforces a tension between the free will of the individual and the daunting hand of fate. Ultimately, Strengell shows how King shatters our illusions of safety and control: "King places his decent and basically good characters at the mercy of indifferent forces, survival depending on their moral strength and the responsibility they may take for their fellow men."
