Bold Endeavors is a compelling narrative of ten large and transformative events in American history. It is an absorbing journey through the past as we read about determined national leaders -- Jefferson, Lincoln, Teddy Roosevelt, FDR, and Eisenhower -- who found the will, steadiness, and political acumen to make decisions that were often unpopular but that proved to be visionary -- decisions that are the building blocks of America's destiny.

Rohatyn begins with the diplomatic intrigues of the Louisiana Purchase, which doubled the size of the country; moves to the controversial construction of the Erie Canal, which opened a water route to the West; then continues to Lincoln's resolute support for the transcontinental railroad, Land Grant colleges, and the Homestead Act; documents the strategy -- and ruthless determination -- that built the Panama Canal; details the visionary and pragmatic politics that allowed FDR to bring electricity to rural America and use the Reconstruction Finance Act to help pull the country from the grip of the Depression; captures the foresight of national purpose which led to the G.I. Bill, which propelled

the nation forward; and describes the creation of the interstate highway system that modernized America. Bold Endeavors is an urgent call for present-day action in this time of grave national crisis. "The nation is falling apart -- literally," Rohatyn warns. "America's roads and bridges, schools and hospitals, airports and roadways, ports and dams, water lines and air control systems -- the country's entire infrastructure is rapidly and dangerously deteriorating." To reverse this catastrophic degeneration and create tens of thousands of new jobs, Rohatyn offers a carefully reasoned and practical solution. Bold and imaginative political leadership must use the power and the resources of the federal government to finance the

rebuilding of the nation's infrastructure. Rohatyn's page-turning case studies are precedents for purposeful, resourceful, and tenacious leadership that is necessary to accomplish both the rebuilding of America and the country's emergence from its present financial crisis. These bold endeavors from the nation's past are instructive, a guide and an inspiration for Americans today. If the nation is to be rebuilt and its infrastructure renewed, if the country is to emerge from the present economic crisis and reclaim its position of unqualified strength and leadership in world affairs, then it must be guided by the vision, determination, and investments that originally helped create a secure and prosperous America.

he's going to take on a spirit that's too strong for him.

When Castor accepts a seemingly simple ghost-hunting case at a museum in the shadowy heart of London, what should have been a perfectly straightforward exorcism is rapidly turning into the *Who Can Kill Castor First Show*, with demons and ghosts all keen to claim the big prize. Explore the fine cider movement and the people and producers behind it. "Felix is one of those heroes of local produce and producers, in his case of what I call true ciders. These ciders (and perrys) bear no relation in terms of provenance, endeavour, cost, landscape or heritage to the commercial

ciders that compete for the mass market. The world is logistics and marketing, well for those big companies maybe, for Felix it's enthusiasm, effort and the lovely work of the local, "I can see the orchard from here", producers. So here's a book that opens the door to the past and, most importantly, the future." – Trevor Gulliver, Co-founder of St John, London
Think you know about cider? Well think again. It's not about the swill you guzzled as a student, or the so-called "flavoured ciders" that don't actually contain any apples. The contemporary cider scene is an exciting place to spend some time, as passionate makers celebrate tradition and terroir while also embracing seasonality, innovation, and experimentation to produce characterful drinks that are quite remarkable. *Fine Cider* looks at this modern cider movement, charting its beginnings and introducing some of the key players in fine-

cider making, as well as guiding you through the characteristics of different apple varieties, the cider-producing regions around the world, the processes and techniques of cider production, how cider is an exceptional partner with food and, of course, recommending ciders you need to try.

From the internationally bestselling author who Stephen King calls "an absolute master," a "gripping and eerie" (Karin Slaughter) thriller about a dangerous young woman with the ability to know when someone is lying—and the criminal psychologist who must outwit her to survive. A girl is discovered hiding in a secret room in the aftermath of a terrible crime. Half-starved and filthy, she won't tell anyone her name, or her age, or where she came from. Maybe she is twelve, maybe fifteen. She doesn't appear in any missing persons file, and her DNA can't be matched to an identity. Six years later, still unidentified, she is living in a secure children's home with a new name, Evie Cormac. When she initiates a court case demanding the right to be released as an adult, forensic psychologist Cyrus Haven must determine if Evie is ready to go free. But she is unlike anyone he's ever met—fascinating and dangerous in equal measure. Meanwhile, Cyrus is called in to investigate the shocking murder of a high school figure-

skating champion, Jodie Sheehan, who died on a lonely footpath close to her home. Pretty and popular, Jodie is portrayed by everyone as the ultimate girl-next-door, but as Cyrus peels back the layers, a secret life emerges—one that Evie Cormac, the girl with no past, knows something about. A man haunted by his own tragic history, Cyrus is caught between the two cases—one girl who needs saving and another who needs justice. What price will he pay for the truth? Emotionally explosive and swiftly paced, this is an “impeccable thriller with a plot that encompasses murder, incest, drugs, abuse, torture, sex—you name it, this book has it” (New York Journal of Books).

The Big Bad Woof Open Road Media

A compelling narrative on what went wrong with our financial system—and who's to blame. From an award-winning journalist who has been covering the industry for more than a decade, *The Devil's Derivatives* charts the untold story of modern financial innovation—how investment banks invented new financial products, how investors across the world were wooed into buying them, how regulators were seduced by the political rewards of easy credit, and how speculators made a killing from the near-meltdown of the financial system. Author Nicholas

Dunbar demystifies the revolution that briefly gave finance the same intellectual respectability as theoretical physics. He explains how bankers worldwide created a secret trillion-dollar machine that delivered cheap mortgages to the masses and riches beyond dreams to the financial innovators. Fundamental to this saga is how “the people who hated to lose” were persuaded to accept risk by “the people who loved to win.” Why did people come to trust and respect arcane financial tools? Who were the bankers competing to assemble the basic components into increasingly intricate machines? How did this process achieve its own unstoppable momentum—ending in collapse, bailouts, and a public outcry against the giants of finance?

Provocative and intriguing, *The Devil's Derivatives* sheds much-needed light on the forces that fueled the most brutal economic downturn since the Great Depression.
