"A confident One Thousand and One Nights for our present . . .

Furious pop entertainment—full of sex, passion, violence, and magic." —Slant magazine This is the story of the legendary City of Women, told through the tales of those who founded it, championed it, and made it flourish. When the city of Bessa undergoes a violent coup, its lazy, laissez-faire ruler, Bokhari Al-Bokhari, is replaced by the

religious zealot Hakkim Mehdad. With little use for the pleasures of the flesh, Hakkim sends his predecessor's 365 concubines to a neighboring sultan as a gift. But when the new sultan discovers the concubines are harboring Al-Bokhari's youngest son—a child who might grow up to challenge his rule—he repents of his mercy and sends his soldiers to slaughter the seraglio down to the last woman and child. What he doesn't count on is a concubine trained in the art of murder—or the courage and fortitude of the women who will rise up with her to forge their own city out of the unforgiving desert. It's an undertaking beset with challenges: hunger and thirst, Hakkim's relentless hate, and the struggle to make a place for themselves in a world determined to underestimate and undermine them. Through a mosaic of voices and tales, we learn of the women's miraculous rise, their time of prosperity—and how they carried with them the seed of their own destruction. "A thrilling tale." —Publishers Weekly "A masterful, engaging and utterly fascinating story by three wonderful writers." —SFRevu.com "The Steel Seraglio brings its alternate world of struggle, politics and magic very much to life." —Locus

*Thicker Than Water* The Devil You Know

Author of *The Girl With All the Gifts* Mike Carey presents the second book in his hip supernatural thriller series featuring freelance exorcist Felix Castor. Felix Castor has reluctantly returned to exorcism after a successful case convinces him that he really can do some good with his abilities---"good," of course, being a relative term when dealing with the undead. His friend Rafi is still possessed, the succubus Ajulutsikael (Juliet to her friends) still technically has a contract on him, and he's still dirt poor. Doing some consulting for the local cops helps pay the bills, but Castor needs a big private job to really fill the hole in his bank account. That's what he needs. What he gets is a seemingly insignificant "missing ghost" case that inexorably drags him and his loved ones into the middle of a horrific plot to raise one of hell's fiercest demons. When satanists, stolen spirits, sacrifice farms, and haunted churches all appear on the same police report, the name Felix Castor can't be too far behind...

See, Castor's stepped over the line this time, and he knows he'll have to pay. The only question is: how much? Not the best of times, then, for an unwelcome confrontation with his holier-than-

thou brother, Matthew. And just when he thinks things can't possibly get any worse, along comes Father Gwilliam and the Anathema. Oh joy.... The Felix Castor Novels

*Bold Endeavors* is a compelling narrative of ten large and transformative events in American history. It is an absorbing journey through the past as we read about determined national leaders -- Jefferson, Lincoln, Teddy Roosevelt, FDR, and Eisenhower -- who found the will, steadiness, and political acumen to make decisions that were often unpopular but that proved to be visionary -- decisions that are the building blocks of America's destiny. Rohatyn begins with the diplomatic intrigues of the Louisiana Purchase, which doubled the size of the country; moves to the controversial construction of the Erie Canal, which opened a water route to the West; then continues to Lincoln's resolute support for the transcontinental railroad, Land Grant colleges, and the Homestead Act; documents the strategy -- and ruthless determination -- that built the Panama Canal; details the visionary and pragmatic politics that allowed FDR to bring electricity to rural America and use the Reconstruction Finance Act to help pull the country from the grip of the Depression; captures the foresight of national purpose which led to the G.I. Bill, which propelled the nation forward; and describes the creation of the interstate highway system that modernized America. *Bold Endeavors* is an urgent call for present-day action in this time of grave national crisis. "The nation is falling apart -- literally," Rohatyn warns. "America's roads and bridges, schools and hospitals, airports and roadways, ports and dams, water lines and air control systems -- the country's entire infrastructure is rapidly and dangerously deteriorating." To reverse this catastrophic degeneration and create tens of thousands of new jobs, Rohatyn offers a carefully reasoned and practical solution. Bold and imaginative political leadership must use the power and the resources of the federal government to finance the rebuilding of the nation's infrastructure. Rohatyn's page-turning case studies are precedents for purposeful, resourceful, and tenacious leadership that is necessary to accomplish both the rebuilding of America and the country's emergence from its present financial crisis. These bold endeavors from the nation's past are instructive, a guide and an inspiration for Americans today. If the nation is to be rebuilt and its infrastructure renewed, if the country is to emerge from the present economic crisis and reclaim its position of unqualified strength and leadership in world affairs, then it must be guided by the vision, determination, and investments that originally helped create a secure and prosperous America.

The riveting inside story of HBO, the start-up company that reinvented television—by two veteran media reporters HBO changed how stories could be told on TV. *The Sopranos*, *Sex and the City*, *The Wire*, *Game of Thrones*. The network's meteoric rise heralded the second golden age of television with serialized shows that examined and reflected American anxieties, fears, and secret passions through complicated characters who were flawed and often unlikable. HBO's own behind-the-scenes story is as complex, compelling, and innovative as the dramas the network created, driven by unorthodox executives who pushed the boundaries of what viewers understood as television at the turn of the century. Originally conceived by a small upstart group of entrepreneurs to bring Hollywood movies into living rooms across America, the scrappy network grew into one of the most influential and respected players in Hollywood. It's Not TV is the deeply reported, definitive story of one of America's most daring and popular cultural institutions, laying bare HBO's growth, dominance, and vulnerability within the capricious media landscape over the past fifty years. Through the visionary executives, showrunners, and producers who shaped HBO, seasoned journalists Gillette and Koblin bring to life a dynamic cast of characters who drove the company's creative innovation in astonishing ways—outmaneuvering copycat competitors, taming Hollywood studios, transforming 1980s comedians and athletes like Chris Rock and Mike Tyson into superstars, and in the late 1990s and 2000s elevating the commercial-free, serialized drama to a revered art form. But in the midst of all its success, HBO was also defined by misbehaving executives, internal power struggles, and a few crucial miscalculations. As data-driven models like Netflix have taken over streaming, HBO's artful, instinctual, and humanistic approach to storytelling is in jeopardy. Taking readers into the boardrooms and behind the camera, *It's Not TV* tells the surprising, fascinating story of HBO's ascent, its groundbreaking influence on American business, technology, and popular culture, and its increasingly precarious position in the very market it created.
