The Skeleton Road Minotaur Books A killer is on the loose, blurring the line between fact and fiction. His prey - the writers of crime novels who have

turned psychological profilers into the heroes of the nineties. But this killer is like no other. His bloodlust shatters all the conventional wisdom surrounding the motives and mechanics of how serial killers operate. And for one woman, the desperate hunt to uncover his identity becomes a matter of life and death. Professor Fiona Cameron is an academic psychologist who uses computer technology to help police forces track serial offenders. She used to help the Met, but vowed

never to work for them again when they went against her advice and subsequently botched an investigation. Still smarting from the experience, she's working a case in Toledo when her lover, thriller writer Kit Martin, tells her a fellow crime novelist has been murdered. It's not her case, but Fiona can't help taking an interest. When the killer strikes again Fiona finds herself caught in a race against time - not only to save a life but also to find redemption, both personal and professional. Rich in atmosphere, Val McDermid's *Killing the Shadows* uses the

backdrops of city and country to create an air of threatening menace, culminating in a tense confrontation between hunter and hunted, a confrontation that can have only one outcome. *The Mermaids Singing* HarperCollins UK This "cunningly plotted" (New York Times) thriller is coming to Britbox this October! The group was due back days ago, yet there's been no sign of them, and there's mounting evidence of something odd about their disappearing act. The trackless forests of northern Ontario

Unmarked graves are found on the grounds of an old orphanage in this “riveting” British crime thriller by an Edgar Award finalist (Publishers Weekly, starred review). With profiler Tony Hill behind bars and Carol Jordan no longer with the police, he’s finding unexpected outlets for his talents in jail and she’s joined forces with a group of lawyers and forensics experts looking into suspected miscarriages of justice. But they’re doing it without each other; being in the same room at visiting hour is too painful to contemplate. Meanwhile, construction is suddenly halted on the redevelopment of an orphanage after dozens of skeletons are found buried at the site. Forensic examination reveals they date from between twenty and forty years ago, when the nuns were running their repressive regime. But then a different set of skeletons is discovered in a far corner—young men from as recent as ten years ago. When newly promoted DI Paula McIntyre discovers that one of the male skeletons is that of a killer who is supposedly alive and behind bars—and the subject of one of Carol’s miscarriage investigations—it brings Tony and Carol irresistibly into each other’s orbit once again in

this masterfully plotted novel by “ the queen of psychological thrillers ” (Irish Independent). How the Dead Speak Canongate Books

Confined to a hospital bed after an attack by a mental patient, psychologist and profiler Dr. Tony Hill struggles to make sense of the fragmentary information that reaches him in the aftermath of two staggering crimes. A star soccer player has been poisoned and, shortly afterward, the local stadium is rocked by a bomb blast, leaving dozens dead and more injured.

Meanwhile, his customary ally, Detective Chief Inspector Carol Jordan, is being pushed out of the investigation by government intelligence sources. Is it homegrown terrorism or could money—or something else—be involved? Bringing together two of crime fiction ’ s richest characters, *Beneath the Bleeding* is a terrifying and absorbing addition to a bestselling series. Val McDermid ’ s Tony Hill and Carol Jordan books—the basis for the acclaimed television show *Wire in the Blood*—have made

her a favorite of readers in Canada and around the world, and confirm her status as a master of psychological suspense.
