Written by Edward O. Wilson, Professor at Harvard University, inventor of sociobiology and twice winner of the Pulitzer Prize, this book looks at the

extraordinary diversity of life on our planet, exploring the reasons for biological diversity, the nature and processes of evolutionary adaption and speciation and threat of human-induced extinction.

### **The Diversity of Life | The Folio Society**

In this book a master scientist tells the story of how life on earth evolved. Edward O. Wilson eloquently describes how the species of the world became diverse and why that diversity is threatened today as never before. A great spasm of extinction -- the disappearance of whole species -- is occurring now, caused this time entirely by humans.
