At age 60, Susan Hartzler has learned to accept, even love, the single life, provided she has good friends and a dog or two by her side. Always attracted to the quintessential bad boy with his good looks and charming ways, she was sure she could change "the one" into a devoted partner and loving father, but her compulsive giving and fixing behaviors went hand in hand with her disappointing and disastrous romantic relationships. On a purposeful trip to the pound, she hoped to find a dog to care for, one that would sniff out the bad guys, give her a sense of purpose, and help her find meaning in her crazy world. Thoughtful and funny, this memoir follows Susan's life through the many ups and downs on her way to finding unconditional love. Her journey is a personal one, full of the hard decisions it took to learn to put herself first and stop entering and staying in unhealthy relationships. By saving a dog, she rescues herself, learning to love herself as much as her dog loves her.

NEW YORK TIMES BESTSELLER The complete, uncensored history of the award-winning The Daily Show with Jon Stewart, as told by its correspondents, writers, and host. For almost seventeen years, The Daily Show with Jon Stewart brilliantly redefined the borders between television comedy, political satire, and opinionated news coverage. It launched the careers of some of today's most significant comedians, highlighted the hypocrisies of the powerful, and garnered 23 Emmys. Now the show's behind-the-scenes gags, controversies, and camaraderie will be chronicled by the players themselves, from legendary host Jon Stewart to the star cast members and writers—including Samantha Bee, Stephen Colbert, John Oliver, and Steve Carell - plus some of The Daily Show's most prominent guests and adversaries: John and Cindy McCain, Glenn Beck, Tucker Carlson, and many more. This oral history takes the reader behind the curtain for all the show's highlights, from its origins as Comedy Central's underdog late-night program to Trevor Noah's succession, rising from a scrappy jester in the 24-hour political news cycle to become part of the beating heart of politics—a trusted source for not only comedy but also commentary, with a reputation for calling bullshit and an ability to effect real change in the world. Through years of incisive election coverage, passionate debates with President Obama and Hillary Clinton, feuds with Bill O'Reilly and Fox, and provocative takes on Wall Street and racism, The Daily Show has been a cultural touchstone. Now, for the first time, the

people behind the show's seminal moments come together to share their memories of the last-minute rewrites, improvisations, pranks, romances, blow-ups, and moments of Zen both on and off the set of one of America's most groundbreaking shows.

By his sixth birthday, he had located burglars, missing children, drug dealers, rapists, and murderers—including Utah's most wanted criminal. Known to friends as JJ, to law enforcement as Michael Serio's partner, and to captured criminals as "that damned dog," Jessie Jr., an exceptionally talented bloodhound, bayed like a sea lion that had swallowed a fog horn. Before JJ, few police departments in the West used bloodhounds, and none in Utah. But just when JJ was finally convincing naysayers, he and Officer Serio ran into something worse than resistance: the despair of failure amid high hope. JJ had been tracking Brian David Mitchell, the man who abducted Elizabeth Smart, when he was pulled off the track. Elizabeth later told investigators that on the day she was kidnapped she heard a dog baying in the woods behind her. When the author adopted Marty—a beagle rescued from a research laboratory—she found herself rehabilitating a terrified dog with a traumatic past. She soon discovered the well-kept secret of painful and often fatal testing on dogs. This book details what the author has learned about the past and present of laboratory testing on dogs, life after laboratories and the hope for a future without animal testing. Interviews with rescue organizers and adoptive families reveal the struggles of removing dogs from laboratories and acclimating them to daily life. Scientists discuss the ethics of dog research and advocate for new biomedical technologies. Fundamental change is brewing, with the public, scientists and governments urging the use of new technologies that can replace testing on animals and yield better results. Educated New World Library

NEW YORK TIMES BESTSELLER • From one of the world's most influential spiritual thinkers, a long-awaited book exploring what it means that Jesus was called "Christ," and how this forgotten truth can restore hope and meaning to our lives. "Anyone who strives to put their faith into action will find encouragement and inspiration in the pages of this book."—Melinda Gates In his decades as a globally recognized teacher, Richard Rohr has helped millions realize what is at stake in matters of faith and spirituality. Yet Rohr has never written on the most perennially talked about topic in Christianity: Jesus. Most know who Jesus was, but who was Christ? Is the word simply Jesus's last name? Too often, Rohr writes, our understandings have been limited by culture, religious debate, and the human tendency to put ourselves at the center. Drawing on scripture, history, and spiritual practice, Rohr articulates a transformative view of Jesus Christ as a portrait of God's constant, unfolding work in the world. "God loves things by becoming them," he writes, and Jesus's life was meant to declare that humanity has never been separate from God—except by its own negative choice. When we recover this fundamental truth, faith becomes less about proving Jesus was God, and more about learning to recognize the Creator's presence all around us, and in everyone we meet. Thought-provoking, practical, and full of deep hope and vision, *The Universal Christ* is a landmark book from one of our most beloved spiritual writers, and an invitation to contemplate how God liberates and loves all that is.

The Divinity of Dogs Aeterna Press

In the bestselling tradition of *Inside of a Dog* and *Marley & Me*, a smart, illuminating, and entertaining read on why the dog-human relationship is unique--and possibly even "spiritual." Dr. Andrew Root's search for the canine soul began the day his eight-year-old son led the family in a moving Christian ritual at the burial service for Kirby, their beloved black lab. In the coming weeks, Root found himself wondering: What was this thing we'd experienced with this animal? Why did the loss hurt so poignantly? Why did his son's act seem so right in its sacramental feel? In *The Grace of Dogs*, Root draws on biology, history, theology, cognitive ethology (the study of animal minds), and paleontology to trace how in our mutual evolution, humans and dogs have so often helped each other to become more fully ourselves. Root explores questions like: Do dogs have souls? Is it accurate to say that dogs "love" us? What do psychology and physiology say about why we react to dogs in the way that we do? *The Grace of Dogs* paints a vivid picture of how, beyond sentimentality, the dog-human connection can legitimately be described as "spiritual"--as existing not for the sake of gain, but for the unselfish desire to be with and for the other, and to remind us that we are persons worthy of love and able to share love. In this book for any parent whose kids have asked if they'll see Fido in Heaven, or who has looked their beloved dog in the face and wondered what's going on in there, Dr. Root delivers an illuminating and heartfelt read that will change how we understand man's best friend.
