Ben is a musical prodigy from the Upper East Side, a rising star at a top conservatory. When Dom ' s class is taken to hear a concert at Carnegie Hall, she spots Ben in the front row, playing violin like his life depends on it — and she is transfixed. Posing as an NYU student, Dom sneaks back to New York City to track him down. Soon, the two are desperately in love, each seeing something in the other to complete them. But Ben ' s genius, which Dominique so admires, conceals his struggle with mental illness — and the challenges of her own life may make it impossible for her to save him from himself.

A centuries-old rebirth curse, an otherworldly Celtic prince, and an inescapable prophecy. Thirty-year-old magic Bearer Julia Harrison had never given the notion of past lives or grand destinies any real credence or thought. She has knowledge of magic, and the power she shares with the women of her bloodline. She ' s aware of the difference between Druids and Sorcerers, Wielders and Bearers, and so on, but regardless of all of that... her everyday life has always felt quite normal—distinctly unmagical—and never more so than as of late. With the recent death of her beloved grandmother, Julia finds herself severed from the only sense of place she ' d ever known. Grandma Gertie had all but raised her and was easily the strongest connection she ' d had to her own magic, and that of the natural world. Without it, she feels lost. Disconnected. Unable to rely on (or even effectively access) her own limited magics in her current emotional state, Julia ' s primary focus turns to placing one foot in front of the other as she resumes a linguistics degree that has taken far longer to earn than it should have. But when a visiting professor arrives on her Vancouver campus—one who brings with him an odd sense of familiarity that ' s almost as compelling as his raw Celtic masculinity, Julia knows that her life ' s journey is about to change, heading off on an entirely new path. What she could have never predicted, or even dreamed of, was that somehow, they had walked that path together countless times before... each time towards their own inescapable deaths at the hands of Marcus Cassius Longinus, the indomitable “ Child of Rome. ”

In The America of My Dreams, an ordinary citizen shares a collection of personal opinions about

the political demise of the United States and offers practical ways people can bring about meaningful change at all levels in our government. Dom Sgambellone is not a professional politician, but a man who, for the last four decades, has witnessed the steady downfall of what once was a great country where employment was plentiful, integrity was a virtue, and everyone put their country first. Today, he claims, we live in a different America where special interest groups have been chipping away and corrupting our system, buying politicians with cash and lavish perks. While creating an awareness of America's current problems, Sgambellone provides a compendium of ideas and suggestions on how we can reclaim our country, such as: - Creating a new political party - Transforming the Presidential primary system - Improving the court system and the election of judges - Regulating certain industries to prevent another economic collapse

The America of My Dreams provides insight and real ideas for change that will encourage all citizens to become involved and force the kind of transformation that will improve the lives of all Americans.

As a director, writer, and producer, Christopher Nolan has substantially impacted contemporary cinema through avant garde films, such as Following and Memento, and his contribution to wider pop culture with his Dark Knight trilogy. His latest film, Interstellar, delivered the same visual qualities and complex, thought-provoking plotlines his audience anticipates. The Philosophy of Christopher Nolan collects sixteen essays, written by professional philosophers and film theorists, discussing themes such as self-identity and self-destruction, moral choice and moral doubt, the nature of truth and its value, whether we can trust our perceptions of what's "real," the political psychology of heroes and villains, and what it means to be a "viewer" of Nolan's films. Whether his protagonists are squashing themselves like a bug, struggling to create an identity and moral purpose for themselves, suffering from their own duplicitous plots, donning a mask that both strikes fear and reveals their true nature, or having to weigh the lives of those they love against the greater good, there are no simple solutions to the questions Nolan's films provoke; exploring these questions yields its own reward.
