PRIMA has emerged as a major platform for academic and research exchange on agent technologies. The PRIMA workshop series was initiated as a workshop of the Pacific Rim International Conference in Artificial Intelligence (PRICAI) to provide a forum that would bring together research in the areas of agent technology and multi-agent systems, both in the Pacific Rim region and beyond. The inaugural workshop in the series was held in Singapore in 1998, with subsequent meetings in

Kyoto (1999), Melbourne (2000), Taipei (2001), Tokyo (2002), Seoul (2003), Auckland (2004), Kuala Lumpur (2005) and Guilin (2006). At the 10th PRIMA in Bangkok in November 2007, the Steering Committee agreed that the series had grown in size and achieved a level of maturity to become a conference series of its own. It was therefore agreed that from Bangkok in 2007 PRIMA would stand for the Pacific Rim International Conference on Multi-Agent Systems. PRIMA 2007 received 102 valid submissions. Each submission was peer-reviewed by at least three referees selected from the Program Committee. As a result of the selection process, 22 submissions were accepted as full research papers, yielding an acceptance rate of 22.

22%. In addition the program included 11 application papers and 16 short papers. A special session on Agent-Oriented Software Engineering (AOSE) was organized by Graham Low from the University of New South Wales (Australia) and Ghassan Beydoun from the University of Wollongong (Australia), where papers were invited from the AOSE community, but put through the same rigorous reviewing process. A particularly robust approach to Rome's antique past was taken in the Middle Ages, spanning from the Late Antiquity in the fourth century, until roughly the thirteenth century AD. The Spolia Churches of Rome looks at how the church-builders treated the architecture of ancient Rome like a quarry full of prefabricated material

and examines the cultural, economic and political structure of the church and how this influenced the building's design. It is this trend of putting old buildings to new uses which presents an array of different forms of architecture and design within modern day Rome. This book is both an introduction to the spolia churches of medieval Rome, and a guide to eleven selected churches.

Beyond the Doors Revell "The best book yet about The Doors." --Booklist Now available as an ebook for the first time...the inside story of the Doors, by cofounder and keyboard player Ray Manzarek. Includes 16 pages of photos. "A refreshingly candid read...a Doors bio worth opening."

--Entertainment Weekly No other band has ever sounded quite like the Doors, and no other frontman has ever transfixed an audience quite the way Jim Morrison did. Ray Manzarek, the band's co-founder and keyboard player, was there from the very start--and until the sad dissolution--of the Doors. In this heartfelt and colorfully detailed memoir, complete with 16 pages of photographs, he brings us an insider's view of the brief, brilliant history...from the beginning to the end. "An engaging read."

A new epic fantasy series begins. Song of Dragons tells a story of blood, steel, and dragonfire. **BOOK ONE: BLOOD OF REQUIEM**

Long ago stood the kingdom of Requiem, a land of men who could grow wings and scales, breathe fire, and take flight as dragons. Requiem ruled the sky. But Dies Irae, a tyrant leading an army of griffins, hunted Requiem's people, burned their forests, and shattered their temples. Requiem fell. This ancient land now lies in ruin, its halls crumbled, its cries silenced, its skeletons littering the burned earth. In the wilderness, a scattering of survivors lives in hiding. The griffins still hunt them, and every day promises death. Will Requiem's last children perish in exile... or once more become dragons and fly to war?

The California youth corrections system is undergoing the most sweeping transformation in its 154-year history. The extraordinary nature of this change is revealed by the striking decline in the state's youth incarceration rate. In 1996, with 10,000 youth confined in

11 state-run correctional facilities, California boasted the nation's third highest youth incarceration rate. Now, with only 800 youth remaining in a system comprised of just three institutions, California has one of the nation's lowest youth incarceration rate. How did such unprecedented changes occur and what were the crucial conditions that produced them? Daniel E. Macallair answers these questions through an examination of the California youth corrections system's origins and evolution, and the patterns and practices that ultimately led to its demise. Beginning in the 19th century, California followed national juvenile justice trends by consigning abused, neglected, and delinquent youth to congregate care institutions known as reform schools. These institutions were characterized by their emphasis on regimentation, rigid structure, and harsh discipline. Behind the walls of these institutions, children and youth, who ranged in age from eight to 21, were subjected to unspeakable cruelties. Despite frequent public outcry, life in California reform schools changed little from the opening of the San Francisco Industrial School in 1859 to the dissolution of the California Youth Authority (CYA) in 2005. By embracing popular national trends at various times, California encapsulates much of the

history of youth corrections in the United States. The California story is exceptional since the state often assumed a leadership role in adopting innovative policies intended to improve institutional treatment. The California juvenile justice system stands at the threshold of a new era as it transitions from a 19th century state-centered institutional model to a decentralized structure built around localized services delivered at the county level. *After the Doors Were Locked* is the first to chronicle the unique history of youth corrections and institutional care in California and analyze the origins of today's reform efforts. This book offers valuable information and guidance to current and future generations of policy makers, administrators, judges, advocates, students and scholars.

The Doors of Perception and Heaven and Hell Watkins Media Limited
Journey with a Boomer couple accepting the mission of caring for one parent with dementia, only to end up with two parents with dementia, mixed with a healthy blend of OCD, paranoia, and Parkinson's. The intense darkness of such a dynamic at times also makes for a releasing humor. Poignant stories tell the tales, while the focus remains on how, when the Teacher designs the syllabus, the classroom

experience will reach the heart. Over 30 humbling lessons (most in hindsight) about mission, mercy, faith, fatigue, keys and cars, time, toothpaste, amazement, awe, earthsuits, and more are set into an eternal perspective. What was the most humbling lesson of all? Come along with Rick and Martha and discover the most important one for yourself. Aging certainly has its problems. We lose lots of things like teeth, sight, hearing, knees, hips, and sleep to name a few. However, the costliest loss of all is our memory. Caregivers and family members must take the time to read 'When Camels Slide Down Doors...' It will come to be your manual, your friend, your source of inspiration and encouragement. Your relationship with God and each family member will be enriched. DR. HANS E. JOSEPHSEN, DMin, ThD, PhD. Christian Counselor The Traders' seven-year journey through the many stages of caring for their elderly parents and their passage through dementia is a lesson in life, love, and faith. The narrative of Ann and Winston's story rivals the tellings of Philip Roth. When you infuse such a heartfelt tale with scriptural passages and the calling to ministry that Rick and Martha embody, you are presented with a rare and unique book that will change the way you view the challenges life presents. I heartily endorse 'When Camels Slide Down Doors...' MICHAEL J READINGER, President & CEO, The Council for Health & Human Service Ministries, United Church of Christ True to life, 'When Camels Slide Down Doors...' recounts the creative ways the authors overcame barriers without losing heart, their senses of humor, and most of all their faith in God. This excellent story will prepare readers for the progression through the disease process, as well as the spiritual growth that it fosters in those who care for these loved ones. DR. NINA BEAMAN, EdD, MSN, RN, Dean of Nursing, Author As a professional who trains chaplains, therapists, and caregivers, I enjoyed reading 'Camels...' It is a delightful, at times emotional, personal read which will leave you laughing, sometimes on the edge of tears, and always ready to turn the page. DR. DOUG DICKENS, Professor of Pastoral Care and Counseling, Gardner-Webb University/School of Divinity The Spolia Churches of Rome Aarhus Universitetsforlag From the Arthur C. Clarke Award-winning Adrian Tchaikovsky, The Doors of Eden is an extraordinary feat of the imagination and a page-turning adventure about parallel universes and the monsters that they hide. They thought we were safe. They were wrong. Four years ago, two girls went looking for monsters on Bodmin Moor. Only one came back. Lee thought she'd lost Mal, but now she's miraculously returned. But what happened that day on the moors? And where has she been all this time? Mal's reappearance hasn't gone unnoticed by MI5 officers either, and Lee isn't the only one with questions. Julian Sabreur is investigating an attack on top physicist Kay Amal Khan. This leads Julian to clash with agents of an unknown power - and they may or may not be human. His only clue is grainy footage, showing a woman who supposedly died on Bodmin Moor. Dr Khan's research was theoretical; then she found cracks between our world and parallel Earths. Now these cracks are widening, revealing extraordinary creatures. And as the doors crash open, anything could come through. "Tchaikovsky weaves a masterful tale... a suspenseful joyride through the multiverse." (Booklist) Riders on the Storm AuthorHouse Fans of A Series of Unfortunate Events and Coraline will devour this dark and creepy, humor-laced tale about four siblings who discover a mysterious world where secrets hide around every corner. When a family disaster forces the four Rothbaum children to live with their aunt Gladys, they immediately know there is something strange about their new home. The crazy, circular house looks like it stepped out of a scary movie.

The front entrance is a four-story-tall drawbridge. And the only food in Aunt Gladys' s kitchen is an endless supply of Honey Nut Oat Blast Ring-a-Dings cereal. Strangest of all are the doors—there are none. Every doorway is a wide-open passageway—even the bathroom! Who lives in a house with no doors? Their unease only grows when Aunt Gladys disappears for long stretches of time, leaving them alone to explore the strange house. When they discover just what Aunt Gladys has been doing with all her doors, the shocked siblings embark on an adventure that changes everything they believe about their family and the world. The colors reflect and contrast with those of the high desert blue sky, the subdued blues of the distant mountains, the reds of the ferrous soils, and the greens of the juniper trees. They contrast with the various adobes (five official colors in Santa Fe) in ways that make them stand out from their surroundings. This book is about more than doors. It's about entering a unique lifestyle, a way of looking at the world, and of reflecting the world in which one lives. Doors are the first thing one sees when coming to one's home, or the home of a friend. Doors represent.

What would you do if you woke up and found yourself in a parallel universe under an alien sky? This is the question Zax Delatree must answer every time he closes his eyes. Every time Zax Delatree falls asleep, he travels to a new reality. He has no control over

his destination and never knows what he will see when he opens his eyes. Sometimes he wakes up in technological utopias, and other times in the bombed-out ruins of collapsed civilizations. All he has to live by are his wits and the small aides he has picked up along the way - technological advantages from techno-utopias, sedatives to escape dangerous worlds, and stimulants to extend his stay in pleasant ones. Thankfully, Zax isn't always alone. He can take people with him, if they're unconscious in his arms when he falls asleep. But someone unwelcome is on his tail, and they are after something that Zax cannot spare - the blood running through his veins, the power to travel through worlds...
