"Mother Ocean Daughter Sea Strength Unchanging Strengthen Me" The Shari'a are an ancient race. They are un-warlike and they are ruled by their shamanic witches. The Allemanii are more recently arrived in their locale and are both awed and made fearful by the magical powers of the witches. After generations of peaceful coexistence, a cataclysm occurred out of nowhere and the Allemanii turned on their neighbors and hosts, slaughtered most of them and scattered the survivors. Suddenly, to be a Shari'a is proscribed and to be caught practicing their magic is to be hunted to the death. In MOTHER OCEAN, DAUGHTER SEA, Brierly, thinking herself to be the last of her long-lost kind, practices the forbidden ancient healing art at constant risk of her life. Execution is the penalty if she is caught but her need to help those who are themselves in need is stronger than any fear for her own safety. "If I am the last, I will be a flame to the end." But her attempt to save the wife of a nobleman sworn to wipe out her kind plunges her into a conspiracy of deceit and a hidden power struggle more deadly than anything she has ever known. Her fight for survival may lead her to a love for the ages and, perhaps, to discover the surviving remnants of her people—if she lives.

A startlingly prescient treatise on the cybernetic automation of society and a burlesque satire of its middle-class celebrants. An uproarious portrait of the evils of the market and a technical manual for its innermost ideological workings, this is the story of how the perverted legacy of liberalism sought to knead Marx's "free peasant" into a statistical "average man"—pliant raw material for the sausage-machine of postmodernity. Combining the incandescent wrath of the betrayed comrade with the acute discrimination of the mathematician-physicist, Châtelet scrutinizes the pseudoscientific alibis employed to naturalize "market democracy" and the "triple alliance" between politics, economics, and cybernetics. A bestseller in France on its publication in 1998, this book remains crucial reading for any future politics that wants to replace individualism with individuation and libertarianism with liberation, this new translation constitutes a major contribution to contemporary debate on neoliberalism, economics, and capitalist subjectivation.

Since she left the wolves who raised her to cross over the Iron Mountains, Firekeeper's pack has expanded to include a diverse assortment of creatures – human and not. When the wolf-woman receives a desperate call for help from the jaguar, Truth, Firekeeper – Blind Seer, as ever, at her side – races to Truth's aid. Over a year prior, Truth sacrificed her sanity in a valiant effort to keep Firekeeper alive. Now there may be a way for Truth to reunite her fragmented mind with her failing body – but the jaguar needs Firekeeper to open a door, that is not quite a door, if that is to happen. How to release Truth may be only the beginning of Firekeeper and Blind Seer's problems, for there are hints that an ancient power may be released along with the jaguar – a power that uses living creatures as playing pieces, and who has more than a little interest in Firekeeper herself.

A tale of humane wolves, beastly men, and a brilliant heroine who must find her way in a dangerous world Raised by intelligent, language-using wolves, brought back to the human society at the court of Hawk Haven, young Firekeeper had to learn to cope with human society and its complexities . . . and discovered that, for someone raised in a wolf pack, the politics of a royal court were neither complex nor wholly unfamiliar. But the happy ending of Through Wolf's Eyes has proved to have consequences. Hawk Haven and Bright Bay are unifying, but the power balance of the neighboring lands is threatened by this prospect. New intrigues abound. The rulers of Bright Bay, it transpires, have been hoarding a collection of forbidden magical artifacts . . . which Queen Gustin took with her when she abdicated, intending to use them to restore her power. Melina Shield is still scheming to obtain them, and she's older, smarter, and more devious than the Queen. And the even-more-devious civil service of neighboring New Kelvin would like to get their hands on that magic as well . . . Which will make life very hard for Firekeeper. Because the powers of the world have decided who'll be required to obtain those much-contended-for magical articles. It'll be her. The classic work on the music of Afrofuturism, from jazz to jungle More Brilliant than the Sun: Adventures in Sonic Fiction is one of the most extraordinary books on music ever written. Part manifesto for a militant posthumanism, part journey through the unacknowledged traditions of diasporic science fiction, this book finds the future shock in Afrofuturist sounds from jazz, dub and techno to funk, hip hop and jungle. By exploring the music of such musical luminaries as Sun Ra, Alice Coltrane, Lee Perry, Dr Octagon, Parliament and Underground Resistance, theorist and artist Kodwo Eshun mobilises their concepts in order to open the possibilities of sonic fiction: the hitherto unexplored intersections between science fiction and organised sound. Situated between electronic music history, media theory, science fiction and Afrodiasporic studies, More Brilliant than the Sun is one of the key works to stake a claim for the generative possibilities of Afrofuturism. Much referenced since its original publication in 1998, but long unavailable, this new edition includes an introduction by Kodwo Eshun as well as texts by filmmaker John Akomfrah and producer Steve Goodman aka kode9.

The young shari'a witch Brierley once thought that she was the last of her kind, powerful witches who lived in peace and harmony, using their powers for good. Only the women of her people had the gift and they ruled wisely and well. Her people had flourished for millennia, guided by the elemental beings who embodied the very forces of nature and who could tame

the world. But then the fierce Allemani people came from beyond the sea. Newly settled in the land, they at first dwelt in peace with the shari'a. But trust turned to hate and the fear that the Allemani had for the witches soon boiled over into genocide. The Allemani decimated the shari'a out of fear of their differences. And so Briarly hid in the shadows, keeping her healing powers a secret-but she was compelled to use them when necessary, and these actions caused her to be discovered. When she was forced to flee the only home she had ever known, she did not go alone, for she had captured the heart Duke Melfallan, and though he is Allemani, he vows to attempt to change the Law condemning any shari'a to death because he has come to know that the shari'a are not monsters...and they can bring a great joy to the world. As she makes her way out into the world to hide while Melfallan fights to save her, Brierley discovers that she is not the last of her kind. That there are many, like her, who managed to stay in the shadows, generations of shari'a who have kept quiet, hid their powers and have waited. And that not all of whom share Brierley's good heart. The time of reckoning is at hand, the forces that the shari'a once controlled are being summoned once more, and Brierley finds that the hatred that fueled the Allemani ages past is still very much alive. Will Brierley have to sacrifice her life (and that of her unborn child) to save an entire world and make things right for her people?
