Every day, children are diagnosed with attention deficit disorder (ADD) or attention deficit hyperactivity disorder (ADHD). They are given powerful drugs like Ritalin in order to cope with their ADD, but many parents don't realize the dangerous side effects associated with these drugs, particularly the possibility of dependency. Addressing the

causes of ADD and ADHD should be the first step in any treatment, but unfortunately, conventional drug therapies treat only the symptoms, not the causes. In their new book, *The A.D.D. & A.D.H.D. Diet!*, authors Rachel Bell and Dr. Howard Peiper take a uniquely nutritional approach to treating ADD and ADHD. The authors first address the root causes of the disorders, from poor nutrition and food allergies to environmental contaminants. They discuss which foods your child can eat and which foods he should avoid. To make changing your child's diet easier, the authors also offer you their very own healthy and delicious recipes. Final chapters examine the importance of detoxifying the body, supplementing diet with vitamins and nutrients, and exercising regularly in order to achieve good health. Managing your child's ADD doesn't have to be a chore. With *The A.D.D. & A.D.H.D. Diet!*, you can learn how a simple change in diet may be the most effective treatment for your child.

The High Fat Diet Grand Central Publishing

Anyone who has tried to slim down is used to adding (calories, points, fat grams, net carbs) and subtracting (pounds, inches, dress sizes). But all that diet math rarely results in long-lasting weight loss. To be successful on *The One One One Diet*, readers only need to count to one: one protein, one carb, and one fat at every meal. For over 12 years, nutritionist Rania Batayneh has used this plan with more than 800 clients, and they've collectively dropped thousands of pounds permanently. *The One One One Diet* isn't another get-slim-quick fad, but rather gives readers the tools to eat healthfully for life. As long as readers stick to the ratio, nothing is off limits. Craving pizza? The crust (carb), sausage (protein), cheese (fat), and free veggies combine for a balanced, satisfying meal. Holiday family meals? Roast beef (protein), mashed potatoes (carb), gravy (fat), and green beans (free veggies) are on the table. The plan is perfectly adaptable to every lifestyle, food preference, cuisine, and personality. To illustrate how flexible and delicious this plan can be, Rania shares 75 recipes that she developed for her healthy meal catering service. Dishes such as Sumac-Infused Chicken Wraps, Butternut Squash Chickpea Curry, and Zucchini Chip Muffins are fast and easy to make and definitely don't taste like diet food. With *The One One One Diet*, readers will enhance overall wellness, lower cholesterol and blood pressure, increase energy and alertness, and reach their goal weight for good.
