The appearance of Margaret Atwood's first major collection of poetry marked the beginning of a truly outstanding career in Canadian and international letters. The voice in these poems is as witty, vulnerable, direct, and incisive as we've come to know in later works, such as Power Politics, Bodily Harm, and Alias Grace. Atwood writes compassionately about the risks of love in a technological age, and the quest for identity in a universe that cannot quite be trusted. Containing many of Atwood's best and most famous poems, The Circle Game won the 1966 Governor General's Award for Poetry and rapidly attained an international reputation as a classic of modern poetry.

The Edible Woman (MAXNotes Literature Guides) Simon and Schuster

In her skillful debut novel, Kij Johnson took the classic Japanese myth of the fox who dared to become a woman to win true love and created The Fox Woman, a luminous, lyrical tale of love, desire, joy, and the nature of the soul. Set in the same universe as The Fox Woman, this time Kij Johnson takes on another animal totem and enters the world of the creature who comes to be known as Kagaya-hime, a sometime woman warrior, occasional philosopher, and reluctant confidante to noblemen. And who may or may not be the figment of the imagination of an aging empress who is embarking on the last journey of her life, setting aside the trappings of court life and reminiscing as she follows the paths that are leading her to the nunnery and death. Fudoki is the tale of a being who starts her journey on the kami, or spirit road, as a humble-if ever a being such as a Cat can be humble-small tortoiseshell feline. She has seen her family destroyed by a fire that decimated most of the Imperial city. This loss renders her taleless, the only one left alive to pass on such stories as The Cat Born the Year the Star Fell, the Cat with a Litter of Ten, the Fire-Tailed Cat. Without her fudoki-self and soul and home and shrine-she cannot keep the power of her clan together. And she cannot join another fudoki because, although she might be able to win a place within another clan, to do so would mean that she would cease to be herself. So a small cat begins an extraordinary journey. Along the way she will attract the attention of old and ancient powers, including gods who are curious about this creature newly come to Japan's shores, and who choose to give the tortoiseshell a human shape. And who set her on a new kami road, where Kagaya-hime will have to choose a way to find what happiness she can. Weaving a haunting story of one being's transformation and journey of discovery with the telling of another's long life set against the backdrop of the courtly rituals of Imperial power, Kij Johnson has written a powerful novel about the nature of freedom and the redemptive power of transformation--if only one is brave enough to risk it all. Novelist, poet, cultural critic, Margaret Atwood is one of the most fascinating, versatile, and productive authors of our time, a superb writer in any genre she chooses to tackle. This book was prepared on the occasion of Atwood's sixtieth birthday in November 1999. Its first aim is therefore to take stock of Atwood's multifarious works and international impact at the height of her creative powers. Secondly, the book serves as a wide-ranging introduction to the writer and her works. Fifteen informative articles written specifically for this volume by Atwood specialists from Canada, the USA, the UK, Germany,

and France treat her life and status, her works (up-to-date survey articles on Atwood's novels, short fiction, poetry, and literary and cultural criticism), and important approaches to her works (from the standpoints of gender politics, mythology, ecology, popular culture, constructivism, and Canadian nationalism). A final section on creativity, transmission, and reception includes an interview with Atwood on creativity, statements by some of Atwood's important transmitters, including publishers, editors, literary agents, and translators, and some 15 statements by Atwood's fellow writers, in which they explore her importance for them. A number of photographs of Atwood, several cartoons drawn by her, an up-to-date bibliography of works by and about Atwood, and an index round out the volume. Reingard M. Nischik is Professor of American literature at the University of Konstanz, Germany.

From the bestselling author of The Handmaid's Tale and The Testaments—one of Margaret Atwood’s most unforgettable characters lurks at the center of this intricate novel like a spider in a web. The glamorous, irresistible, unscrupulous Zenia is nothing less than a fairy-tale villain in the memories of her former friends. Roz, Charis, and Tony—university classmates decades ago—were reunited at Zenia’s funeral and have met monthly for lunch ever since, obsessively retracing the destructive swath she once cut through their lives. A brilliantly inventive fabulist, Zenia had a talent for exploiting her friends’ weaknesses, wielding intimacy as a weapon and cheating them of money, time, sympathy, and men. But one day, five years after her funeral, they are shocked to catch sight of Zenia: even her death appears to have been yet another fiction. As the three women plot to confront their larger-than-life nemesis, Atwood proves herself a gleefully acute observer of the treacherous shoals of friendship, trust, desire, and power.

Suggesting that politics and power are at the center of Margaret Atwood's fiction, Theodore F. Sheckels examines Atwood's novels from The Edible Woman to The Year of the Flood. Whether her treatment is explicit as in Bodily Harm and The Handmaid's Tale or by means of an exploration of interiority as in Cat's Eye and The Robber Bride, Atwood's persistent concern is with how the empowered act towards those who are constrained within the political, economic and social institutions that facilitate power dynamics. Sheckels identifies an increasing sophistication in Atwood's exposition of power over time that is revealed in the later novels' engagement with social class, postcolonialism, and a globalism that merges science and commerce as issues relevant to politics and power. Acknowledging that Atwood is not a political theorist but a novelist, Sheckels does not suggest that her work should be viewed as political commentary but rather as a creative treatment of the laudable but ultimately only partially successful ways in which women and other groups resist the constraints placed on them by institutionalized oppression.

She has grown used to the cries of penguins before dawn, to meager supplies and housing, to spending most of her days in one of the most remote regions on earth. What she isn't used to is strange men washing ashore, which happens one day on her watch. The man won't tell her his name or where he came from, but Angela, who has a soft spot for strays, tends to him, if for no other reason than to protect her birds and her work. When she later learns why he goes by an alias, why he is a refugee from the law, and why he is a man without a port, she begins to fall in love—and embarks on a journey that takes her deep into Antarctic waters, and even deeper into the emotional territory she thought she'd left behind. Against the backdrop of the Southern Ocean, The Tourist Trail weaves together the stories of Angela as well as FBI agent Robert Porter, dispatched on a mission that unearths a past he would rather keep buried; and Ethan Downes, a computer tech whose love for a passionate animal rights activist draws him into a dangerous mission.

“Ten days after the war ended, my sister Laura drove a car off a bridge.” These words are spoken by Iris Chase Griffen, married at eighteen to a wealthy industrialist but now poor and eighty-two. Iris recalls her far from exemplary life, and the events leading up to her sister’s death, gradually revealing the carefully guarded Chase family secrets. Among these is “The Blind Assassin,” a novel that earned the dead Laura Chase not only notoriety but also a devoted cult following. Sexually explicit for its time, it was a pulp fantasy improvised by two unnamed lovers who meet secretly in rented rooms and seedy cafés. As this novel-within-a-novel twists and turns through love and jealousy, self-sacrifice and betrayal, so does the real narrative, as both move closer to war and catastrophe. Margaret Atwood’s Booker Prize-winning sensation combines elements of gothic drama, romantic suspense, and science fiction fantasy in a spellbinding tale.

Marian has a problem. A willing member of the consumer society in which she lives, she suddenly finds herself identifying with the things being consumed. She can even cope with Duncan, a graduate student who seems to prefer laundromats to women. But not being able to eat is a different matter. Steak was the first to go. Then lamb, pork, and the rest. Next came her incapacity to face an egg. Vegetables were the final straw. But Marian has her reasons, and what happens next provides an unusual solution.
