Its more or less what you need currently. This The Elements Of Moral Philosophy 6th Edition, as one of the most involved sellers here will entirely be in the midst of the best options to review.

**The Elements of Moral Philosophy** W.W.  
Norton & Company

"This [text] is an introduction to some of the main problems of philosophy—the existence of God, the nature of the mind, human freedom, the limits of knowledge, and the truth about ethics. The chapters may be read independently of one another, but when read in order, they tell a more or less continuous story. We begin with some reflections on the life of Socrates and then go on to the

existence of God, which is the most basic philosophical question, because our answer to it affects everything else. This leads naturally to a discussion of death and the soul, and then to more modern ideas about the nature of persons. The later chapters are about whether we can have objective knowledge in either science or ethics." -from the Preface Problems from Philosophy represents the final work of author and philosopher James Rachels. In it, he brings the same liveliness and clarity to the introduction of philosophy that he brings to his best-selling ethics text, *The Elements of Moral Philosophy*. This second edition has been revised by Rachels' son Stuart, who carefully has carefully refined his father's work to further strengthen its clarity and accessibility.

*The Right Thing to Do* Temple  
University Press

"Moral philosophy is the

study of how one should live. This anthology is an introduction to the that great subject. The readings cover the main moral theories and present a wealth of ideas about various practical matters."--

On the Demands of Moral Thought McGraw-Hill  
Companies

Highly controversial when it was first published in 1981, Alasdair MacIntyre's *After Virtue* has since established itself as a landmark work in contemporary moral philosophy. In this book, MacIntyre sought to address a crisis in moral language that he traced back to a European Enlightenment that had made the formulation of moral principles increasingly difficult. In the search for a way out of this impasse, MacIntyre returns to an

---

earlier strand of ethical thinking, that of Aristotle, who emphasised the importance of 'virtue' to the ethical life. More than thirty years after its original publication, *After Virtue* remains a work that is impossible to ignore for anyone interested in our understanding of ethics and morality today.

*Morality and Moral Controversies*  
Cambridge University Press

This volume contains a series of ten unpublished lectures that were presented by Moore, one of the most prominent 20th century philosophers.

*The Legacy of Socrates* Rowman & Littlefield Publishers

Renowned scholars explore and discuss Nietzsche's desire to challenge the very conception of philosophy, and his methods of doing so.

*An Enquiry Concerning the Principles of Morals*  
Cambridge University Press

A thorough study of why Kant developed the concept of autonomy, one of his central legacies for contemporary moral thought.

*Basic Readings in Moral Philosophy* W W Norton & Company Incorporated

This Element defends a reading of Kant's formulas of the moral law in *Groundwork of the Metaphysics of Morals*. It disputes a long tradition concerning what the first formula (Universal Law/Law of Nature) attempts to do. The Element also expounds the Formulas of

Humanity, Autonomy and the Realm of Ends, arguing that it is only the Formula of Humanity from which Kant derives general duties, and that it is only the third formula

(Autonomy/Realm of Ends) that represents a complete and definitive statement of the moral principle as Kant derives it in the *Groundwork*.

The Element also disputes the claim that the various formulas are 'equivalent', arguing that this claim is either false or else nonsensical because it is grounded on a false premise about what Kant thinks a moral principle is for.

Second Edition Oxford University Press on Demand

Socrates said that moral philosophy deals with 'no small matter, but how we ought to live'. Beginning with a minimum conception of what morality is, the author offers discussions of the most important ethical theories. He includes treatments of such topics as cultural relativism, ethical subjectivism, psychological egoism, and ethical egoism.

*Ethical Theory: The question of objectivity*  
Cambridge University Press

John Mikhail explores whether moral psychology is usefully modelled on aspects of Universal Grammar.

Springer

Peopled by larger-than-life heroes and villains, charged with towering questions of good and evil, *Atlas Shrugged* is Ayn

Rand's magnum opus: a philosophical revolution told in the form of an action thriller—nominated as one of America's best-loved novels by PBS's *The Great American Read*. Who is John Galt? When he says that he will stop the motor of the world, is he a destroyer or a liberator? Why does he have to fight his battles not against his enemies but against those who need him most? Why does he fight his hardest battle against the woman he loves? You will know the answer to these questions when you discover the reason behind the baffling events that play havoc with the lives of the amazing men and women in this book. You will discover why a productive genius becomes a worthless playboy...why a great steel industrialist is working for his own destruction...why a composer gives up his career on the night of his triumph...why a beautiful woman who runs a transcontinental railroad falls in love with the man she has sworn to kill. *Atlas Shrugged*, a modern classic and Rand's most extensive statement of Objectivism—her groundbreaking philosophy—offers the reader the spectacle of human greatness, depicted with all the

---

poetry and power of one of the twentieth century ' s leading artists.

A Navigating Overview Penguin

Moral Theory: An Introduction explores some of the most historically important and currently debated moral theories about the nature of the right and good. Providing an introduction to moral theory that explains and critically examines the theories of such classical moral philosophers as Aristotle, Aquinas, Kant, Bentham, Mill, and Ross, this book acquaints students with the work of contemporary moral philosophers. All of the book's chapters have been revised in light of recent work in moral theory. The second edition includes a new chapter on ethical egoism, an extensively revised chapter on moral particularism, and expanded coverage of divine command theory, moral relativism, and consequentialism. Additionally, this edition discusses recent work by moral psychologists that is making an impact on moral theory.

Problems from Philosophy McGraw-Hill

Humanities/Social Sciences/Languages  
Esteemed moral philosopher James Rachels here collects fifteen essays, some classic and others extensively revised, on the nature and limits of moral reasoning. Rachels argues that, rather than simply expressing societal conventions, moral philosophy can subvert received opinion and replace it with something better. Combining a concern for ethical theory with a discussion of practical moral issues such as euthanasia, the rights

of animals, privacy, and affirmative action. Can Ethics Provide Answers is an excellent collection for students, scholars, and anyone concerned with the degree to which our principles can guide our policies.

Roboethics Courier Corporation

This shrinkwrapped package consists of The Elements of Moral Philosophy, 4th edition (0071198768) and The Right Thing to Do, 2nd edition (0072476915).

An Introduction McGraw-Hill

Humanities/Social Sciences/Languages  
Firmly established as the standard text for undergraduate courses in ethics, this concise, lively book takes the reader on an in-depth tour of the major moral theories, always illustrating abstract ideas with concrete examples. Separate, self-contained chapters examine such theories as Egoism, Kantianism, Utilitarianism, Virtue Ethics, and the Social Contract Theory. Through this conceptual framework, the text addresses timely and provocative issues, including abortion, racism, euthanasia, poverty, marijuana, homosexuality, the death penalty, and vegetarianism. The text's versatility makes it an ideal choice for use not only in ethical theory courses, but also in applied ethics courses of all kinds.

The Elements of Moral Philosophy  
Routledge

This Element provides an account of Thomas Aquinas's moral philosophy that emphasizes the intrinsic connection between happiness and the human good, human virtue, and the precepts of practical reason. Human beings by nature have an end to which they are directed and concerning which they do not deliberate, namely happiness. Humans achieve this end by performing good human acts, which are produced by the intellect and the will, and perfected by the relevant virtues. These virtuous acts require that the agent grasps the relevant moral principles and uses them in particular cases.

Can Ethics Provide Answers? Harvard University Press

What does pleasure have to do with morality? What role, if any, should intuition have in the formation of moral theory? If something is ' simulated ' , can it be immoral? This accessible and wide-ranging textbook explores these questions and many more. Key ideas in the fields of normative ethics, metaethics and applied ethics are explained rigorously and systematically, with a vivid writing style that enlivens the topics with energy and wit.

---

Individual theories are discussed in detail in the first part of the book, before these positions are applied to a wide range of contemporary situations including business ethics, sexual ethics, and the acceptability of eating animals. A wealth of real-life examples, set out with depth and care, illuminate the complexities of different ethical approaches while conveying their modern-day relevance. This concise and highly engaging resource is tailored to the Ethics components of AQA Philosophy and OCR Religious Studies, with a clear and practical layout that includes end-of-chapter summaries, key terms, and common mistakes to avoid. It should also be of practical use for those teaching Philosophy as part of the International Baccalaureate. Ethics for A-Level is of particular value to students and teachers, but Fisher and Dimmock's precise and scholarly approach will appeal to anyone seeking a rigorous and lively introduction to the challenging subject of ethics. Tailored to the Ethics components of AQA Philosophy and OCR Religious Studies.

### Moral Theory Cram101

Enduringly profound treatise, whose lasting effect on Western philosophy continues to resonate. Aristotle identifies the goal of life as happiness and discusses its attainment through the contemplation of philosophic

truth.

After Virtue The Elements of Moral Philosophy Socrates said that moral philosophy deals with 'no small matter, but how we ought to live'. Beginning with a minimum conception of what morality is, the author offers discussions of the most important ethical theories. He includes treatments of such topics as cultural relativism, ethical subjectivism, psychological egoism, and ethical egoism. The Elements of Moral Philosophy Collection of original essays by leading researchers on current approaches to moral philosophy.

The Elements of Moral Science Columbia University Press

This collection of readings in moral theory and moral issues from major Western philosophers is the ideal companion reader for James Rachels' text "The Elements of Moral Philosophy," The anthology explores further the theories and issues introduced in that volume, in their original and classic formulations. The collection can stand on its own as the text for a course in moral philosophy, or it can be used to supplement any introductory text.

The elements of moral science Rowman & Littlefield

Rachels's two-volume Ethical Theory provides a comprehensive overview of contemporary moral philosophy, reprinting classic and contemporary articles, including many that are not otherwise readily available. Each volume contains a clearly written, substantial introduction that guides the beginner through the intricacies of the subject. Ethical Theory 1 deals with the question of objectivity in ethics and the viability of moral realism, focusing on what moral judgments mean, whether morality can be objective, and whether there are any such things as moral facts. It includes a clearly written, substantial, and critical introduction guiding the beginner through the intricacies of the subject.
