The Elements of Moral Science Cambridge University Press

James Rachels's philosophical writings address key questions of contemporary life and the classic dilemmas of moral philosophy. A leading figure in the development of applied ethics, James Rachels became an influential and sometimes controversial thinker on issues concerning animal rights, euthanasia, bioethics, and moral objectivity. This final collection of James Rachels's work brings together fourteen essays that best summarize Rachels's philosophical positions. The essays also shed new light on the depth and breadth of Rachels's work and its importance for contemporary philosophy. Written in Rachels's characteristically lucid, literary prose, these essays address the relationship between morality and reason, the duty to relieve both human and animal suffering, the independence of morality from religion, the rejection of relativism and egoism, and the role of ethics in a democratic society. Rachels offers an argument for vegetarianism, examines a controversial case involving a surrogate mother, and speculates on the ethics of political killing. Other essays range from Rachels's interpretation of Nietzsche's philosophy to his appreciation of movies. Rachels was a strong believer in the ability of moral philosophy to improve our lives. This collection, which brings these important works together for the first time, is a testament to both the value of moral philosophy in understanding our world and the richness of Rachels's contributions to this understanding.

Morality and Moral Controversies Cambridge University Press

Socrates said that moral philosophy deals with 'no small matter, but how we ought to live'. Beginning with a minimum conception of what morality is, the author offers discussions of the most important ethical theories. He includes treatments of such topics as cultural relativism, ethical subjectivism, psychological egoism, and ethical egoism.

Atlas Shrugged McGraw-Hill Europe

Rachels's two-volume Ethical Theory provides a comprehensive overview of contemporary moral

philosophy, reprinting classic and contemporary articles, including many that are not otherwise readily available. Each volume contains a clearly written, substantial introduction that guides the beginner through the intricacies of the subject. Ethical Theory 1 deals with the question of objectivity in ethics and the viability of moral realism, focusing on what moral judgments mean, whether morality can be objective, and whether there are any such things as moral facts. It includes a clearly written, substantial, and critical introduction guiding the beginner through the intricacies of the subject.

Elements of Moral Cognition Cambridge University Press

The most accessible, practical, and affordable introduction to ethical theory and moral reasoning.

An Introduction Open Book Publishers

Peopled by larger-than-life heroes and villains, charged with towering questions of good and evil, *Atlas Shrugged* is Ayn Rand's magnum opus: a philosophical revolution told in the form of an action thriller—nominated as one of America's best-loved novels by PBS's *The Great American Read*. Who is John Galt? When he says that he will stop the motor of the world, is he a destroyer or a liberator? Why does he have to fight his battles not against his enemies but against those who need him most? Why does he fight his hardest battle against the woman he loves? You will know the answer to these questions when you discover the reason behind the baffling events that play havoc with the lives of the amazing men and women in this book. You will discover why a productive genius becomes a worthless playboy...why a great steel industrialist is working for his own destruction...why a composer gives up his career on the night of his triumph...why a beautiful woman who runs a transcontinental railroad falls in love with the man she has sworn to kill. *Atlas Shrugged*, a modern classic and Rand's most extensive statement of Objectivism—her groundbreaking philosophy—offers the reader the spectacle of human greatness, depicted with all the poetry and power of one of the twentieth century's leading artists.

A Navigating Overview Academic Internet Pub Incorporated

Renowned scholars explore and discuss Nietzsche's desire to challenge the very conception of philosophy, and his methods of doing so.

The Elements of Moral Philosophy Oxford University Press on Demand

"Moral philosophy is the study of what morality is and what it requires of us. As Socrates said, it's about "how we ought to live"-and why. It would be helpful if we could begin with a simple, uncontroversial definition of what morality is. Unfortunately, we cannot. There are many rival theories, each expounding a different conception of what it means to live morally, and any definition that goes beyond Socrates's simple formula-tion is bound to offend at least one of them. This should make us cautious, but it need not paralyze us. In this chapter, I will describe the "minimum conception" of morality"--

9780073386713 0073386715 Rowman & Littlefield Publishers

Esteemed moral philosopher James Rachels here collects fifteen essays, some classic and others extensively revised, on the nature and limits of moral reasoning. Rachels argues that, rather than simply expressing societal conventions, moral philosophy can subvert received opinion and replace it with something better. Combining a concern for ethical theory with a discussion of practical moral issues such as euthanasia, the rights of animals, privacy, and affirmative action. Can Ethics Provide Answers is an excellent collection for students, scholars, and anyone concerned with the degree to which our principles can guide our policies.

The Emergence of Autonomy in Kant's Moral Philosophy McGraw-Hill Humanities/Social Sciences/Languages

Morality and Moral Controversies provides students with the tools to understand the philosophical ideas that are shaping our world today. This comprehensive anthology includes classic and contemporary readings in moral theory and the most current applied ethics debates emphasizing international concerns. Through analyzing these readings such as Supreme Court decisions, students will grasp the scope of various philosophical discussions Supreme Court justices must have. Morality and Moral Controversies challenges readers to critically assess leading controversies in moral, social, and political philosophy. Upon completing this book, readers will be able to: Understand philosophical ideas that are shaping our world today. Confront conflicts faced when given the choice of morality. Apply various philosophical ideas to politics, religion, economics, relationships, and medicine. Discuss basic philosophical arguments.

The Right Thing To Do: Basic Readings in Moral Philosophy Harvard University Press

A thorough study of why Kant developed the concept of autonomy, one of his central legacies for contemporary moral thought.

Second Edition The Elements of Moral Philosophy Socrates said that moral philosophy deals with 'no small matter, but how we ought to live'. Beginning with a minimum conception of what morality is, the author offers discussions of the most important ethical theories. He includes treatments of such topics as cultural relativism, ethical subjectivism, psychological egoism, and ethical egoism. The Elements of Moral Philosophy

From respected philosopher and writer Jonathan Wolff, this brief introduction to ethics stimulates independent thought, emphasizes real-world examples, and provides clear and engaging introductions to key moral theories and the thinkers behind them. The new Second Edition offers expanded coverage of moral reasoning, as well as two thoughtful and contemporary new chapters on applying moral philosophy and the ethics of race. A companion primary source collection, Readings in Moral Philosophy, amplifies issues discussed in the text, connecting them to problems in applied ethics.

Problems from Philosophy Penguin

Moral Theory: An Introduction explores some of the most historically important and currently debated moral theories about the nature of the right and good. Providing an introduction to moral theory that explains and critically examines the theories of such classical moral philosophers as Aristotle, Aquinas, Kant, Bentham, Mill, and Ross, this book acquaints students with the work of contemporary moral philosophers. All of the book's chapters have been revised in light of recent work in moral theory. The second edition includes a new chapter on ethical egoism, an extensively revised chapter on moral particularism, and expanded coverage of divine command theory, moral relativism, and consequentialism. Additionally, this edition discusses recent work by moral psychologists that is making an impact on moral theory.

Beginning Ethics Cambridge University Press

This volume contains a series of ten unpublished lectures that were presented by Moore, one of the most prominent 20th century philosophers.
