At the age of twenty-six, Maarten Troost—who had been pushing the snooze button on the alarm clock of life by racking up useless graduate degrees and muddling through a series of temp jobs—decided to pack up his flip-flops and move to Tarawa, a remote South Pacific island in the Republic of Kiribati. He was restless and lacked direction, and the idea of dropping everything and moving to the ends of the earth was irresistibly romantic. He should have known better. *The Sex Lives of Cannibals* tells the hilarious story of what happens when Troost discovers that Tarawa is not the island paradise he dreamed of. Falling into one amusing misadventure after another, Troost struggles through relentless, stifling heat, a variety of deadly bacteria, polluted seas, toxic fish—all in a country where the only music to be heard for miles around is “La Macarena.” He and his stalwart girlfriend Sylvia spend the next two years battling incompetent government officials, alarmingly large critters, erratic electricity, and a paucity of food options (including the Great Beer Crisis); and contending with a bizarre cast of local

characters, including “Half-Dead Fred” and the self-proclaimed Poet Laureate of Tarawa (a British drunkard who’s never written a poem in his life). With *The Sex Lives of Cannibals*, Maarten Troost has delivered one of the most original, rip-roaringly funny travelogues in years—one that will leave you thankful for staples of American civilization such as coffee, regular showers, and tabloid news, and that will provide the ultimate vicarious adventure.

*The Confessions of a Collector* Dark Horse Comics

The New York Times bestseller and basis for the Tony-winning hit musical, soon to be a major motion picture starring Cynthia Erivo and Ariana Grande. With millions of copies in print around the world, Gregory Maguire’s *Wicked* is

established not only as a commentary on our time but as a novel to revisit for years to come. *Wicked* relishes the inspired inventions of L. Frank Baum’s 1900 novel, *The Wonderful Wizard of Oz*, while playing sleight of hand with our collective memories of the 1939 MGM film starring Margaret Hamilton (and Judy Garland). In this fast-paced, fantastically real, and supremely entertaining novel, Maguire has populated the largely unknown world of Oz with the power of his own imagination. Years before Dorothy and her dog crash-land, another little girl makes her presence known in Oz. This girl, Elphaba, is born with emerald-green skin—no easy burden in a land as mean and poor as Oz, where superstition and magic are not strong enough to explain or overcome the natural disasters of flood and famine. Still, Elphaba is smart, and by the time she enters Shiz University, she becomes a member of a charmed circle of Oz’s most promising young citizens. But Elphaba’s Oz is no utopia. The Wizard’s secret police are everywhere.

Animals—those creatures with voices, souls, and minds—are threatened with exile. Young Elphaba, green and wild and misunderstood, is determined to protect the Animals—even if it means combating the mysterious Wizard, even if it means risking her single chance at romance.

Ever wiser in guilt and sorrow, she can find herself grateful when the world declares her a witch. And she can even make herself glad for that young girl from Kansas. Recognized as an iconoclastic tour de force on its initial publication, the novel has inspired the blockbuster musical of the same name—one of the longest-running plays in Broadway history. Popular, indeed. But while the novel’s distant cousins hail from the traditions of magical realism, mythopoeic fantasy, and sprawling nineteenth-century sagas of moral urgency, Maguire’s *Wicked* is as unique as its green-skinned witch.

Discover the first book in the Keeper’s Chronicles, where a young woman becomes master of the possibilities of time and space, maintaining the balance between worlds to protect Earth. Austin was a black and white, far-from-young cat. Not just any cat, mind you, he was the Keeper’s cat, a very outspoken feline with extremely strong opinions he was always willing to voice. After all, who

knew better than Austin what was best for the well-being of Claire—and for the not-quite-as-important rest of the universe? Claire Hansen was a Keeper, a member of that select group that kept the universe in one piece. And now she'd been Summoned to the Elysian Fields Guesthouse, a rundown bed-and-breakfast that seemed to attract the most unusual clientele. And Claire was not happy about this latest assignment, not happy at all. Not when she'd been tricked into taking over here by a horrible little gnome of a man who'd abandoned his post before she'd even figured out who he really was. Not when room six held a resident who'd been sleeping there for so many years that she really needed a good dusting—except that it was far too dangerous for anyone to get that close to her. Not when the basement housed too much temptation for anyone's mental health. Not when she found herself surrounded by "helpers" as distracting as Dean, the hunky-yet-innocent handyman, and Jacques, a ghost with a real lust for life. And especially not when it looked like this might be the not only her most challenging mission, but one she'd be stuck handling for life....

have to invent a solution as unpredictable as they are...  
The Book of Ser Marco Polo, the Venetian, Concerning the Kingdoms and Marvels of the East Penguin  
First published in 1989 and taking place in downtown Toronto, one of the earliest of the modern urban fantasies, Gate of Darkness, Circle of Light is the story of a fight against encroaching darkness by a developmentally handicapped young woman, a street musician with no idea of his potential, a bag-lady who's tired of picking up the pieces, and an adept of the light. Mixing actual Toronto ghost-stories with traditional Faire, a police procedural, and a cat, Gate of Darkness, Circle of Light opened a gate at street level to the urban fantasy that followed. REVIEWS "A mentally disadvantaged young woman who sees what other people don't, a street musician, a social worker, and a bag-lady join forces with an 'Adept of the Light' to fight the encroaching darkness that stalks the streets of modern Toronto. In a departure from the 'strict' fantasy of Child of the Grove (LJ 5/15/88) and The Last Wizard, Huff's real-world fantasy presents an enlightened, compassionate view of the forgotten heroes of urban society. Highly recommended." --Library Journal  
The Wild Ways Harper Collins  
"The Mummy!" is a novel written by Jane C. Loudon which was published anonymously in 1827. It concerns the Egyptian mummy of Cheops, who is brought back to life in the year 2126. The novel describes a future filled with advanced technology, and was the first English-language story to feature a reanimated mummy. Unlike many early science fiction works, Loudon did not portray the future as her own day with only political changes. She filled her world with foreseeable changes in technology, society, and even fashion. Her social attitudes have resulted in the book being ranked among proto-feminist novels.
