A Warning from the Publisher: Many readers have questions about Lemony Snicket, author of the distressing serial concerning the trials of the charming but unlucky Baudelaire orphans, published under the collective title A Series of Unfortunate Events. Before purchasing, borrowing, or stealing this book, you should be aware that it contains the answers to some of those questions, such as the following: 1. Who is Lemony? 2. Is there a secret organization I should know about? 3. Why does Lemony Snicket spend his time researching and writing distressing books concerning the Baudelaire orphans? 4. Why do all of Lemony Snicket's books contain a sad dedication to a woman named Beatrice? 5. If there's nothing out there, what was that

A man fights to protect his family in this postapocalyptic survival novel—the first in the New World series. Young Gordon Van Zandt valued duty and loyalty to country above all, so after 9/11, he dropped out of college and joined the Marine

Corps. This idealism vanished one fateful day in a war-torn city in Iraq. Ten years later, he is still struggling with the ghosts of his past when a new reality is thrust upon him and his family: North America, Europe and the Far East have all suffered a devastating Super-EMP attack, which causes catastrophic damage to the nation's power grid and essential infrastructures. Everything from cell phones to cars to computers cease to function, putting society at a standstill. With civilization in chaos, Gordon must fight for the limited and fast dwindling resources. He knows survival requires action and cooperation with his neighbors, but as the days wear on, so does all sense of civility within his community—and so he must make some of the most difficult decisions of his life in order to ensure his family's safety.

The Beginning After The End Egmont
Books (UK)

Longlisted for the Man Booker Prize David Nicholls brings the wit and intelligence that graced his enormously popular New York Times bestseller, *One Day*, to a compellingly human, deftly funny new novel about what holds marriages and families together—and what happens, and what we learn about ourselves, when everything threatens to fall apart. Douglas Petersen may be mild-mannered, but behind his reserve lies a sense of humor that, against all odds, seduces beautiful Connie into a second date . . . and eventually into marriage. Now, almost three decades after their relationship first

blossomed in London, they live more or less happily in the suburbs with their moody seventeen year-old son, Albie. Then Connie tells him she thinks she wants a divorce. The timing couldn't be worse. Hoping to encourage her son's artistic interests, Connie has planned a month-long tour of European capitals, a chance to experience the world's greatest works of art as a family, and she can't bring herself to cancel. And maybe going ahead with the original plan is for the best anyway? Douglas is privately convinced that this landmark trip will rekindle the romance in the marriage, and might even help him to bond with Albie. Narrated from Douglas's endearingly honest, slyly witty, and at times aching optimistic point of view, *Us* is the story of a man trying to rescue his

relationship with the woman he loves, and learning how to get closer to a son who's always felt like a stranger. *Us* is a moving meditation on the demands of marriage and parenthood, the regrets of abandoning youth for middle age, and the intricate relationship between the heart and the head. And in David Nicholls's gifted hands, Douglas's odyssey brings Europe—from the streets of Amsterdam to the famed museums of Paris, from the cafés of Venice to the beaches of Barcelona—to vivid life just as he experiences a powerful awakening of his own. Will this summer be his last as a husband, or the moment when he turns his marriage, and maybe even his whole life, around?

In the third book of The End series, Joshua Jordan remains in Israel during his self-imposed "exile" out of the reach of U.S. authorities who have trumped-up false criminal treason charges against him. His wife, Abigail, continues to lead the Roundtable to prove the innocence of her husband. Following the nuclear attack by Russia, Israel is cleaning up the bodies of dead enemy soldiers for 7 months and setting out on its 7 year plan—both per the prophecies in Ezekiel. As corruption in high government offices threaten to block the election of a worthy presidential candidate by all means necessary—including the unthinkable—Israel's leadership is tempted to

sign a “peace” proposal initiated by the UN under the authority of Coliquin. After he discusses this plan with Pastor Peter Campbell, Joshua is convinced Coliquin may well be the prophesied Anti-Christ and that his peace plan is a trap to destroy Israel. Are the recurring dreams Joshua has had about the coming rapture from God. And is the end sooner than anyone expects?

From the author of The Guest Room, a powerful story about the ways an entire life can change in one night: A flight attendant wakes up in the wrong hotel, in the wrong bed, with a dead man - and no idea what happened. Cassandra Bowden is no stranger to hungover mornings. She's a binge drinker, her job with the airline

making it easy to find adventure, and the occasional blackouts seem to be inevitable. She lives with them, and the accompanying self-loathing. When she awakes in a Dubai hotel room, she tries to piece the previous night back together, counting the minutes until she has to catch her crew shuttle to the airport. She quietly slides out of bed, careful not to aggravate her already pounding head, and looks at the man she spent the night with. She sees his dark hair. His utter stillness. And blood, a slick, still wet pool on the crisp white sheets. Afraid to call the police - she's a single woman alone in a hotel room far from home - Cassie begins to lie. She lies as she joins the other flight attendants and pilots in the van. She lies on the way to Paris as she works the first class cabin. She lies to the FBI agents

in New York who meet her at the gate. Soon it's too late to come clean-or face the truth about what really happened back in Dubai. Could she have killed him? If not, who did? Set amid the captivating world of those whose lives unfold at forty thousand feet, The Flight Attendant unveils a spellbinding story of memory, of the giddy pleasures of alcohol and the devastating consequences of addiction, and of murder far from home.

[The Glass Sentence](#) HarperCollins
The New York Times bestselling, groundbreaking investigation of how the global elite's efforts to "change the world" preserve the status quo and obscure their role in causing the problems they later seek to solve. An essential read for understanding some of the egregious abuses of power that dominate today's news. Former New York Times

columnist Anand Giridharadas takes us into the inner sanctums of a new gilded age, where the rich and powerful fight for equality and justice any way they can--except ways that threaten the social order and their position atop it. We see how they rebrand themselves as saviors of the poor; how they lavishly reward "thought leaders" who redefine "change" in winner-friendly ways; and how they constantly seek to do more good, but never less harm. We hear the limousine confessions of a celebrated foundation boss; witness an American president hem and haw about his plutocratic benefactors; and attend a cruise-ship conference where entrepreneurs celebrate their own self-interested magnanimity. Giridharadas asks hard questions: Why, for example, should our gravest problems be solved by the unelected upper crust instead of the public institutions it erodes by lobbying and dodging taxes? He also points toward an answer: Rather than rely on scraps from the winners, we must take on the grueling democratic work of building more robust, egalitarian institutions and truly changing the world. A call to action for elites and everyday citizens alike.

A well-timed leak has revealed that the US government might have engaged in first contact. Cora Sabino is doing everything she can to avoid the whole mess, since the force driving the controversy is her whistleblower father.

Even though Cora hasn't spoken to him in years, his celebrity has caught the attention of the press, the Internet, the paparazzi, and the government—and with him in hiding, that attention is on her. She neither knows nor cares whether her father's leaks are a hoax, and wants nothing to do with him—until she learns just how deeply entrenched her family is in the cover-up, and that an extraterrestrial presence has been on Earth for decades. Realizing the extent to which both she and the public have been lied to, she sets out to gather as much information as she can, and finds that the best way for her to uncover the truth is not as a whistleblower, but as an intermediary. The alien presence has
