The Great Reset: The end of Capitalism as we know it ...

The Abundance Capitalism Opportunity. In order to find our path out of the issues we've created, we must be able to discern one type of Capitalism from another. For us to make those distinctions, we need adequate words we can use that will allow us to begin to articulate and reason about the problem. And so enters Abundance Capitalism.

To those dubbing Biden / Obama / Starmer "The Left". You ...

The great merit of The End of Capitalism is to show that there are and can be different conceptions of capitalism—not only of the big Capitalism that we on the Left have long carried

around but also of smaller capitalism, different capitalism, alongside which many forms of noncapitalism can be envisioned, created, and strengthened. —

Without fossil fuels, capitalism in its current form could not exist, which is why with Peak Energy looming, capitalism faces a very uncertain future. The only question, in my mind, is whether the capitalist economy will collapse fast enough or soon enough to avoid the most cataclysmic effects of global warming, which according to some scientists, could mean the end of the Earth as a livable planet.
