This beautifully illustrated volume features work by leading writers and experts on carnival from around the world, and includes two stunning photo essays

---

by acclaimed photographers Pablo Delano and Jeffrey Chock. Editor Milla Cozart Riggio presents a body of work that takes the reader on a fascinating journey exploring the various aspects of carnival - its traditions, its history, its music, its politics - and prefaces each section with an illuminating essay. Traditional carnival theory, based mainly on the work of Mikhail Bakhtin and Victor Turner, has long defined carnival as inversive or subversive. The essays in this groundbreaking anthology collectively reverse that trend, offering a re-definition of 'carnival' that focuses not on the hierarchy it temporarily displaces or negates, but a one that is rooted in the actual festival event. Carnival details its new theory in terms of a carnival that is at once representative and distinctive: The Carnival of Trinidad - the most copied yet least studied major carnival in the world.

POST is a look at how post-hardcore/emo music developed since its unintentional inception in the mid-1980s. With each chapter broken up by

influential band or label, it focuses on a broad style of independent music that developed because of the Do-It-Yourself (DIY) ethic. Focusing on bands like Fugazi, Jawbox, Jawbreaker, Sunny Day Real Estate, Braid, the Promise Ring, Hot Water Music, the Get Up Kids, At the Drive-In, and Jimmy Eat World, as well as labels like Dischord, Jade Tree, and Vagrant, these bands and labels came from the ideas of DIY and sustained them. In turn, they inspired plenty that came after them. Looking at the surroundings and circumstances from where they came, this a look at the bonds that formed and the music that came out. ". . . a gripping, Our Band Could Be Your Life-style narrative," - Aaron Burgess, writer for Alternative Press and Revolver.

From the bestselling author of *The Passenger* and the Pulitzer Prize – winning novel *The Road* comes a "profoundly disturbing and gorgeously rendered" novel (The Washington Post) that returns to the Texas-Mexico border, setting of the famed *Border Trilogy*. The time is our own, when rustlers have given way to drug-runners and small towns have become free-fire zones. One day, a good old boy named Llewellyn Moss finds a pickup truck surrounded by a bodyguard of dead men. A load of heroin and two million dollars in cash are still in the back. When Moss takes the money, he sets off a chain reaction of

catastrophic violence that not even the law—in the person of aging, disillusioned Sheriff Bell—can contain. As Moss tries to evade his pursuers—in particular a mysterious mastermind who flips coins for human lives—McCarthy simultaneously strips down the American crime novel and broadens its concerns to encompass themes as ancient as the Bible and as bloodily contemporary as this morning's headlines. *No Country for Old Men* is a triumph. Look for Cormac McCarthy's latest bestselling novels, *The Passenger* and *Stella Maris*.

*Austral Jazz: The Localization of a Global Music Form in Sydney* proposes a new theoretical framework for understanding local jazz communities as they develop outside the United States, demonstrating such processes in action by applying the framework to a significant period of the history of jazz in Sydney, Australia after 1973. This volume introduces the notion of 'Austral Jazz,' coined in order to reset the focus on supranational conceptions of jazz expressions in the southwestern Pacific. It makes the case for *Austral Jazz* chronologically across six chapters that discuss, interpret and critique

major events and seminal recordings, tracing the development of the Austral shift from a pre-Austral period prior to 1973. Austral Jazz presents a fresh approach to understanding the development of jazz communities, and while its focus is on the Sydney scene after 1973, the 'Austral' theory can be applied to creative communities globally. A creative shift took place in Sydney in the early 1970s, which led to the flourishing of a new kind of jazz-based expression, one that reflected Australia's increasingly globalized and multicultural outlook. This study is timely, and it builds on the work of local jazz researchers.

Historiographical understandings of global developments in jazz can be understood within a framework of four overarching narratives: The 'birth and belonging' narrative; the 'spread and adaptation' narrative; the 'pluralization by localization' narrative; and the 'self-fashioning of the already local' narrative.
