China and the United States are heading toward a war neither wants. The reason is Thucydides' s Trap, a deadly pattern of structural stress that results when a rising power challenges a ruling one. This phenomenon is as old as history itself. About the Peloponnesian War that devastated ancient Greece, the historian Thucydides explained: ' It was the rise of Athens and the fear that this instilled in Sparta that made war inevitable. ' Over the past 500 years, these conditions have occurred sixteen times. War broke out in twelve of them.

Today, as an unstoppable China approaches an immovable America, and both Xi Jinping and Donald Trump promise to make their countries ' great again ' , the seventeenth case looks grim. Unless China is willing to scale back its ambitions or Washington can accept becoming number two in the Pacific, a trade conflict, cyberattack, or accident at sea could soon escalate into all-out war. In *Destined for War*, the eminent Harvard scholar Graham Allison explains why Thucydides' s Trap is the best lens for understanding U.S.-China relations in the twenty-first century. Through uncanny historical parallels and war scenarios, he shows how close we are to the unthinkable. Yet, stressing that war is not inevitable, Allison also reveals how clashing powers have kept the peace in the past — and what painful steps the United States and China must take to avoid disaster today.

An Essay on Entitlement and Deprivation Scribe Publications

A guide for parents whose adult children have cut off contact that reveals the hidden logic of estrangement, explores its cultural causes, and offers practical advice for parents trying to reestablish contact with their adult children. "Finally, here's a hopeful, comprehensive, and compassionate guide to navigating one of the most painful experiences for parents and their adult children alike."—Lori Gottlieb, psychotherapist and New York Times bestselling author of *Maybe You Should Talk to Someone* Labeled a silent epidemic by a growing number of therapists and researchers, estrangement is one of the most disorienting and painful experiences of a parent's life. Popular opinion typically tells a one-sided story of parents who got what they deserved or overly entitled adult children who wrongly blame their parents. However, the reasons for estrangement are far more complex and varied. As a result of rising rates of individualism, an increasing cultural emphasis on happiness, growing economic insecurity, and a historically recent perception that parents are obstacles to personal growth, many parents find themselves forever shut out of the lives of their adult children and grandchildren. As a trusted psychologist whose own daughter cut off contact for several years and eventually reconciled, Dr. Joshua Coleman is uniquely qualified to guide parents in navigating these fraught interactions. He helps to alleviate the ongoing feelings of shame, hurt, guilt, and sorrow that commonly attend these dynamics. By placing estrangement into a cultural context, Dr. Coleman helps parents better understand the mindset of their adult children and teaches them how to implement the strategies for reconciliation and healing that he has seen work in his forty years of practice. *Rules of Estrangement* gives parents the language and the emotional tools to engage in meaningful conversation with their child, the framework to cultivate a healthy relationship moving forward, and the ability to move on if reconciliation is no longer possible. While estrangement is a complex and tender topic, Dr. Coleman's insightful approach is based on empathy and understanding for both the parent and the adult child.

ONE OF THE BEST BOOKS OF THE YEAR: THE NEW YORK TIMES • NPR • THE GUARDIAN From pole to pole and across decades of lived experience, National Book Award-winning author Barry Lopez delivers his most far-ranging, yet personal, work to date. Horizon moves indelibly, immersively, through the author's travels to six regions of the world: from Western Oregon to the High Arctic; from the Galápagos to the Kenyan desert; from Botany Bay in Australia to finally, unforgettably, the ice shelves of Antarctica. Along the way, Lopez probes the long history of humanity's thirst for exploration, including the prehistoric peoples who trekked across Skraeling Island in northern Canada, the colonialists who plundered Central Africa, an enlightenment-era Englishman who sailed the Pacific, a Native American emissary who found his way into isolationist Japan, and today's ecotourists in the tropics. And always, throughout his journeys to some of the hottest, coldest, and most desolate places on the globe, Lopez searches for meaning and purpose in a broken world.

How Leaders Can Cut the Cost of Workplace Drama, End Entitlement, and Drive Big Results Penguin
Danger in the Comfort Zone examines the phenomenon of the "entitlement" mentality in the American workforce -- people's preoccupation with their rewards rather than their responsibilities. Bardwick describes three basic mindsets and shows the effect of each on individuals and their organizations: * Entitlement -- people feel entitled to rewards and lethargic about having to earn them; motivation and job satisfaction are low * Fear -- people are paralyzed; the threat of layoffs makes them focus on protecting their jobs rather than doing them well * Earning -- people are energized by challenge; they know their accomplishments will be noticed -- and rewarded In this paperback edition, Bardwick points out that although the "fear" element has undoubtedly grown in the last few years, the entitlement attitude is still firmly entrenched at all levels. She offers additional chapters with new, specific techniques for pulling people out of the quagmire of fear and complacency, and igniting them with the energy of true earning.

An urgent exploration of men's entitlement and how it serves to police and punish women, from the acclaimed author of *Down Girl* "Kate Manne is a thrilling and provocative feminist thinker. Her work is indispensable."--Rebecca Traister NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE ATLANTIC In this bold and stylish critique, Cornell philosopher Kate Manne offers a radical new framework for understanding misogyny. Ranging widely across the culture, from Harvey Weinstein and the Brett Kavanaugh hearings to "Cat Person" and the political misfortunes of Elizabeth Warren, Manne's book shows how privileged men's sense of entitlement--to sex, yes, but more insidiously to admiration, care, bodily autonomy, knowledge, and power--is a pervasive social problem with often devastating consequences. In clear, lucid prose, Manne argues that male entitlement can explain a wide array of phenomena, from mansplaining and the undertreatment of women's pain to mass shootings by incels and the seemingly intractable notion that women are "unelectable." Moreover, Manne implicates each of us in toxic masculinity: It's not just a product of a few bad actors; it's something we all perpetuate, conditioned as we are by the social and cultural mores of our time. The only way to combat it, she says, is to expose the flaws in our default modes of thought while enabling women to take up

space, say their piece, and muster resistance to the entitled attitudes of the men around them. With wit and intellectual fierceness, Manne sheds new light on gender and power and offers a vision of a world in which women are just as entitled as men to our collective care and concern.

The values you teach your children are their best protection from the influences of peer pressure and the temptations of consumer culture. With their own values clearly defined, your children can make their own decisions -- rather than imitate their friends or the latest fashions.
