"Danan is becoming a go-to author."—New York Times Book Review Naomi and Ethan will test the boundaries of love in this provocative romance from the author of the ground-breaking debut, *The Roommate*. Naomi Grant has built her life around going against the grain. After the sex-positive start-up she cofounded becomes an international sensation, she wants to extend her educational platform to live lecturing. Unfortunately, despite her long list of qualifications, higher ed won't hire her. Ethan Cohen has recently received two honors: LA Mag nominated him as one of the city's hottest bachelors and he became rabbi of his own synagogue. Low on both funds and congregants, the executive board of Ethan's new shul hired him with the hopes that his nontraditional background will attract more millennials to the faith. They've given him three months to turn things around or else they'll close the doors of his synagogue for

good. Naomi and Ethan join forces to host a buzzy seminar series on *Modern Intimacy*, the perfect solution to their problems--until they discover a new one--their growing attraction to each other. They've built the syllabus for love's latest experiment, but neither of them expected they'd be the ones putting it to the test.

NATIONAL BESTSELLER • PULITZER PRIZE FINALIST • A bewitching story collection from the author of *White Cat*, *Black Dog* and *The Book of Love*, hailed as "the most darkly playful voice in American fiction" (Michael Chabon) and "our greatest living fabulist" (Carmen Maria Machado) "Ridiculously brilliant . . . These stories make you laugh while staring into the void."—The Boston Globe A BEST BOOK OF THE YEAR: BuzzFeed, Time, The Washington Post, NPR, Chicago Tribune, San Francisco Chronicle,

Slate, Toronto Star, Kirkus Reviews, BookPage Kelly Link has won an ardent following for her ability, with each new short story, to take readers deeply into an unforgettable, brilliantly constructed fictional universe. The nine exquisite examples in this collection show her in full command of her formidable powers. In "The Summer People," a young girl in rural North Carolina serves as uneasy caretaker to the mysterious, never-quite-glimpsed visitors who inhabit the cottage behind her house. In "I Can See Right Through You," a middle-aged movie star makes a disturbing trip to the Florida swamp where his former on- and off-screen love interest is shooting a ghost-hunting reality show. In "The New Boyfriend," a suburban slumber party takes an unusual turn, and a teenage friendship is tested, when the spoiled birthday girl opens her big present: a life-size animated doll. Hurricanes, astronauts, evil twins, bootleggers, Ouija boards, iguanas, The Wizard of Oz, superheroes, the Pyramids . . . These are just some of the talismans of an imagination as capacious and as full of wonder as that of any writer today. But as fantastical as these stories can be, they are always grounded by sly humor and an innate generosity of feeling for the frailty—and the hidden strengths—of human beings. In *Get in Trouble*, this one-of-a-kind talent expands the boundaries of what short fiction can do.

### Men Loving Themselves Random House

For those who eagerly awaited its periodic appearance, it was more than a publication: it was a way of life. The Whole Earth Catalog billed itself as "Access to Tools," and it grew from a Bay Area blip to a national phenomenon catering to hippies, do-it-yourselfers, and anyone interested in self-sufficiency independent of mainstream America. In recovering the history of the Catalog's unique brand of environmentalism, Andrew Kirk recounts how San Francisco's Stewart Brand and his counterculture cohorts in the Point Foundation promoted a philosophy of pragmatic environmentalism that celebrated technological achievement, human ingenuity, and sustainable living. By piecing together the social, cultural, material, environmental, and technological history of that philosophy's incarnation in the Catalog, Kirk reveals the driving forces behind it, tells the story of the appropriate technology movement it espoused, and assesses its fate. This book takes a fresh look at the many individuals and organizations who worked in the 1950s, 1960s, and 1970s to construct this philosophy of pragmatic environmentalism. At a time when many of these ideas were seen as heretical to a predominantly wilderness-based movement, Whole Earth became a critical forum for environmental alternatives and a model for how complicated ecological ideas could be presented in a hopeful and even humorous way. It also enabled later environmental advocates like Al Gore to explain our current "inconvenient truth," and the actions of Brand's Point Foundation demonstrated that the epistemology of Whole Earth could be put into action in meaningful ways that might foster an environmental optimism distinctly different from the jeremiads that became the stock in trade of American environmentalism. Kirk shows us that Whole Earth was more than a mere counterculture fad. In an era of political protest, it suggested that staying home and modifying your toilet or installing a solar collector could make a more significant contribution than taking to the streets to shout down establishment misdeeds. Given its visible legacy in the current views of Al Gore and others, the subtle environmental heresies of Whole Earth continue

to resonate today, which makes Kirk's lucid and lively tale an extremely timely one as well.

NATIONAL BESTSELLER • A "wonderful memoir" (Los Angeles Times) about a brilliantly unconventional physician and writer, a man who has illuminated the many ways that the brain makes us human. • "Intimate.... Brim[s] with life and affection." —The New York Times When Oliver Sacks was twelve years old, a perceptive schoolmaster wrote: "Sacks will go far, if he does not go too far." It is now abundantly clear that Sacks has never stopped going. With unbridled honesty and humor, Sacks writes about the passions that have driven his life—from motorcycles and weight lifting to neurology and poetry. He writes about his love affairs, both romantic and intellectual; his guilt over leaving his family to come to America; his bond with his schizophrenic brother; and the writers and

scientists—W. H. Auden, Gerald M. Edelman, Francis Crick—who have influenced his work.

### Anal Pleasure and Health Il Saggiatore

The first book to use the unexpected discoveries of neuroscience to help us make the best decisions Since Plato, philosophers have described the decision-making process as either rational or emotional: we carefully deliberate, or we "blink" and go with our gut. But as scientists break open the mind's black box with the latest tools of neuroscience, they're discovering that this is not how the mind works. Our best decisions are a finely tuned blend of both feeling and reason—and the precise mix depends on the situation. When buying a house, for example, it's best to let our unconscious mull over the many variables. But when we're picking a stock, intuition often leads us astray. The trick is to determine when to use the different parts of the brain, and to do this, we need to think harder (and smarter) about how we think. Jonah Lehrer arms us with the tools we need, drawing on cutting-edge research as well as the real-world experiences of a wide range of "deciders"—from airplane pilots and hedge fund investors to serial killers and poker players. Lehrer shows how people are taking advantage of the new science to make better television shows, win more football games, and improve military intelligence. His goal is to answer two questions that are of interest to just about anyone, from CEOs to firefighters: How does the human mind make decisions? And how can we make those decisions better?

**The New Male Sexuality** W. W. Norton & Company

Challenging accepted theories about what makes for terrific sex, *The Erotic Mind* is a breakthrough exploration of the least understood dimensions of human sexuality—the psychology of desire, arousal, and fulfillment. Nationally known sex therapist Dr. Jack Morin offers a bold new perspective that celebrates the joys of Eros without denying its risks. Based on an in-depth analysis of over 1,000 provocative stories of peak sexual experiences, *The Erotic Mind* offers clear, accessible guidance on how anyone can utilize his or her own peak encounters and fantasies as powerful tools of self-discovery. *The Erotic Mind* explains the many paradoxes of erotic life, such as: why we're most excited when we must overcome obstacles; how anxiety, guilt, and anger—generally thought to have a negative impact on sexual arousal—often turn out to be aphrodisiacs; how we use unresolved issues from our early lives to intensify passion; and why the best sex is dynamic and unpredictable, rather than static and safe. These and other insights, combined with concrete suggestions for increasing our enjoyment, overcoming our problems, and revitalizing our relationships, will change forever the way we think about our eroticism.
