Arthurian legend meets Star
Wars in the second volume of

the Space Lore trilogy. Six years ago, two fleets met in a battle that changed the course of the galaxy. In the time since, the CasterLan Kingdom and the Vonnegan Empire have been rebuilding their forces. The clock is ticking down to another inevitable confrontation. In the face of insurmountable odds, Vere CasterLan's only hope lies in freeing a legendary weapon from the stone that encases it. It has been said that whoever can free the Excalibur will possess unimaginable power. The only problem, as certain death approaches, is that for thousands of years no one has

been able to figure out how to release the Excalibur from the asteroid surrounding it. In this second volume of the Space Lore trilogy, lives will be lost, kingdoms will be redrawn, and the galaxy will never be the same.

The Excalibur Ballantine Books

In *The Winter King* and *Enemy of God* Bernard Cornwell demonstrated his astonishing ability to make the oft-told legend of King Arthur fresh and new for our time. Now, in this riveting final volume of *The Warlord Chronicles*, Cornwell tells

the unforgettable tale of Arthur's final struggles against the Saxons and his last attempts to triumph over a ruined marriage and ravaged dreams. This is the tale not only of a broken love remade, but also of forces both earthly and unearthly that threaten everything Arthur stands for. Peopled by princesses and bards, by warriors and magicians, *Excalibur* is the story of love, war, loyalty, and betrayal-the work of a magnificent storyteller at the height of his powers.

Bradley's masterpiece, we see the tumult and adventures of Camelot's court through the eyes of the women who bolstered the king's rise and schemed for his fall. From their childhoods through the ultimate fulfillment of their destinies, we follow these women and the diverse cast of characters that surrounds them as the great Arthurian epic unfolds stunningly before us. As Morgaine and Gwenhwyfar struggle for control over the fate of Arthur's kingdom, as the Knights of the Round Table take on their infamous quest, as Merlin and Viviane wield their magics for the future of Old Britain, the Isle of Avalon slips further into the impenetrable mists of memory, until the fissure between old and new worlds' and old and new religions' claims its most famous victim.

lies between two alien races that are either openly aggressive or covertly hostile. 7th Fleet discovers that one of those races is moving to attack. In a moment of panic, the commanding admiral orders the fleet to attempt a risky jump through hyperspace. They miss hitting their target star 's gravity well and end up deep in unexplored space with a shockingly long trip home and not nearly enough food to last that long. With war now raging in

their home systems, the officers of 7th Fleet must find a way to put aside their egos, ambitions and fears in order to make it back, and they know that not all of them will. Scimitar 's Glory is the first book in a new, fast-paced, action-packed military SF series: Swordships Odyssey. The second book, Excalibur's Quest, is also now available. Excerpt: With a long, risky jump like this, Dejanus would have expected Corregidor 's astrogational AI to take at

least ten minutes to aim the ship as precisely as possible to the distant star 's center. She was therefore surprised and somewhat alarmed when the flagship signaled to the rest of the fleet that they could start to match her trajectory after only half that time. "Goddammit, what 's the rush?" she said to Koenig who was the only other human on the Bridge. "There 's no possible way the Jab fleet can catch us before we jump, even if we take another hour to

do it. Why not take a few extra minutes to get the most accurate trajectory possible?" When it became clear that Koenig had nothing to say, she continued. "Astro, I want you to check the flagship 's alignment with Alpha9 while we match vectors. Let me know if you think the flagship 's vector could be better." That extra task delayed Excalibur 's alignment, and therefore she became the last ship in the fleet to signal her readiness for the jump. "Fleet

For centuries mankind has been exploring the nature of reality. The materialistic scientific worldview would have us believe that physically measurable phenomena are all that exist. Yet the answers to the key of reality go far beyond this mindset. This book explores the clues we have about the nature of reality, especially those aspects that cannot yet be proven. If we can understand the most baffling aspects of reality, then we will move closer toward understanding its ultimate cause and nature.

Roll Call: The Crew of the U.S.S. Excalibur: Captain Mackenzie Calhoun: An unorthodox, decisive young captain who loves his crew and his ship, and loves testing their limits even more. Commander Shelby: A woman of strong opinions and strong values, Shelby

never hesitated to tell her captains when she thought they were wrong, and Mackenzie Calhoun won't be any exception. Burgoyne 172: The chief engineer of the Excalibur, with the decisiveness of Calhoun, the strength of Shelby, and the gender of both. Burgoyne is a Hermat, and when s/he sets his/her sights on you, s/he isn't an easy...person...to refuse. As the Thallonian Empire succumbs to violence and insurrection, the U.S.S. Excalibur prepares to

launch on her humanitarian mission of mercy. But her departure is destined to be a memorable one, as Calhoun contends with an unexpected stowaway, a stormy relationship with his crew, and -- light-years away -- frightened refugees aboard a dying ship.

of Worlds Volume II displays a varied array of thought-provoking delights: tales of humour and sorrow, darkness and light, and hope and despair that are full of adventure, full of life, and sometimes full of regret. There are stories set in alternate histories, in possible futures, near and far, and in the here-and-now, taking place on Earth, on distant planets, or in fantastic realms. All arise from the innate need of human beings to create, to imagine . . . to shape worlds. Praise for Shapers of Worlds Volume I: “ One of the most wide-ranging volumes I ’ ve encountered in terms of sub-genre. It ’ s rather like a speculative fiction buffet, offering steampunk, fantasy, military fiction, magic, space opera, post-apocalyptic, hard science fiction, and others . . .
