Rookie cop Laura Mori catches her first investigation when the fiery crash of a sports car lights up the night sky. The fire burns the body beyond recognition, but the police are able to identify

the car as that of Kent Jameson, celebrity author and benefactor of Sunrise Lake. And Jameson fears that the unidentified body is his seventeen-year-old daughter Lucy, who stormed out of the house that night after an argument. When lab reports reveal that the body was not Lucy, but a teen runaway named Kyra whose disappearance has been linked with other missing persons—more than half a dozen “lost girls” who disappeared while living on

the streets of Portland—the investigation takes a drastic turn. How did Kyra come to land at the Jameson estate in rural Oregon, and what was she doing driving their car? And who cut the brake lines on the vehicle? Just when Laura is making progress in the case, she comes across a suspicious lane in the forest that uncovers new evidence that will once again alter the course of the investigation and rock Sunrise Lake to its core. R. J. Noonan's electrifying

mystery will resonate with fans of Lisa Gardner and Lisa Jackson.

What does talk of meaning mean? All thinking consists in natural happenings in the brain. Talk of meaning though, has resisted interpretation in terms of anything that is clearly natural, such as linguistic dispositions. This, Kripke's Wittgenstein suggests, is because the concept of meaning is normative, on the 'ought' side of Hume's divide between is and ought. Allan Gibbard's previous books *Wise Choices*, *Apt Feelings* and *Thinking How to Live* treated normative discourse as a natural phenomenon, but not as describing the world naturalistically. His theory is a form of expressivism for normative concepts, holding, roughly, that normative statements express states of planning. This new book integrates his expressivism for normative language with a theory of how the meaning of meaning could be normative. The result applies to itself: metaethics expands to address key topics in the philosophy of language, topics which in turn include core parts of metaethics. An upshot is to lessen the contrast between expressivism and

nonnaturalism: in their strongest forms, the two converge in all their theses. Still, they differ in the explanations they give. Nonnaturalists' explanations mystify, whereas expressivists render normative thinking intelligible as something to expect from beings like us, complexly social products of natural selection who talk with each other.

Playing the Matrix is a master class for creating the life you want to live. Tried and true, delivered and perfected over a decade while being shared live with tens of thousands of students in 132 cities, in 34 countries, upon 6 continents. This is Mike Dooley's advanced course on living deliberately and creating consciously. The concepts he shares were born of material he's delivered to live audiences the world over, culminating in his most impactful, most transformational program ever. Now, for the first time in 17 years of touring, these ideas are to be shared in book form. At the heart of the Matrix lies a simple yet highly unexpected concept for creating major life change that's unlike anything shared by other teachers, past and present. It clearly reveals why "manifesting" sometimes works with

incredible ease, why it sometimes doesn't work at all, and why, on occasion, it works, and yet in hindsight we wish it hadn't. Readers will not only learn about the "Bermuda Triangle of Manifesting" that too often leads to heartbreak and loss, they'll learn how to navigate around it, under full sail, with their own new "a-ha" moments that will teach them: • How to achieve clarity in purpose and desire and thereby avoid contradictions and self-sabotage • How to fuel their dreams with passion while not attaching to unimportant details and outcomes • How to plan and take action on their dreams without "messing with the cursed how's"! And so much more...

The French Defence is a classical

opening that has featured in the repertoire of many elite grandmasters. Black generally concedes a slight spatial disadvantage early but in return gains a sound structure and middlegame opportunities to undermine the white centre. A close study of the French Defence can be very rewarding for all players as the structures and themes that arise are found in numerous other openings. In this book grandmaster Damian Lemos guides the reader through the complexities of this dynamic opening and explores all the important variations. This series provides an ideal platform to study chess openings. By continually challenging the reader to answer probing questions throughout the book, the Move by Move format greatly encourages the learning and practising of vital skills just as much as the traditional assimilation of opening knowledge. Carefully selected questions and answers are designed to keep you actively involved and allow you to monitor your progress as you learn. This is an excellent way to study any chess opening and at the same time

improve your general chess skills and knowledge. * Essential guidance and training in the French Defence * Analyses all key variations * Utilizes an ideal Q+A approach to chess study

Sweet Release: A Novel William L Tarvin
This book represents a new direction in the study of religion and marriage by using a postmodern theoretical framework focusing on gendered discourse and culture, to examine the meaning of sacred marriage within social contexts. Drawing upon data from in-depth interviews of couples in long-term, sacred marriages living in the American Midwest, together with an analysis of Christian marriage advice manuals, Sacred Marriages explores how couples use religious and nonreligious discourses and cultures to give their marriages meaning, and how those sacred meanings are used in their daily lives and the spaces that they embody. The study shows how religious and secular beliefs are combined to formulate cultural strategies for approaching the sacralization of marriage, and how religious and nonreligious discourses and cultures are ordered, depending on circumstances and social contexts. This often results in other relationships being subordinated in favour of the sacred bond

believed to exist between husband and wife. The book argues that sacred marriage is a malleable concept, as people bend religious culture to form new and altered sacred marriages during emotional extremes. A thoughtful examination of long-term Christian marriages, this volume will appeal to scholars of religion and sociology with interests in marriage and the family.

“...both a love story and a story of personal growth.” —Jill M. Smith, Romantic Times, 4/2, Top Pick
Cleo Alyssum's plan is simple: stay sober, stay out of trouble, and bite her tongue until Social Services sees she's pretty close to perfect and returns her little boy. But when an accident on her isolated property forces her to rent a cottage to celebrated cartoonist Jared McCloud, her carefully constructed comfort zone develops cracks. Jared has a deadline to meet or he'll forfeit still another lucrative career and be branded for life by his family as the loser in the family. Only, he wasn't meant to be a hermit, and his cartoon characters aren't nearly as fascinating as his quirky, enigmatic landlady. When Jared discovers his island hideaway contains a drug-dealing neighbor's two neglected, abused teens,

he shoves Cleo into the real world that she fears in his effort to save the children. Risking everything, the pair join forces to find a home for the kids and have their mother's dangerous boyfriend locked up. In the process, they face a new realization that there's more to life and love than either of them ever planned or dreamed. Intelligence experts and thriller authors concur: RED DECEPTION is " A page-

turner by authors who might as well sit on the National Security Council. " When terrorists bomb bridges across the country and threaten the Hoover Dam, the vulnerability of America's infrastructure becomes a matter of national security. But Dan Reilly, a former Army intelligence officer, predicted the attacks in a secret State Department report written years earlier—a virtual blueprint for disaster, somehow leaked and now in the hands of foreign operatives. With Washington distracted by domestic crises, Russian President Nicolai Gorshkov sends troops to the borders of Ukraine and Latvia, ready to reclaim what he feels is Russia's rightful territory. Tensions in Europe threaten to boil over as a besieged American president balances multiple crises that threaten to upend the geopolitical order. This is the chaos into which Reilly leaps headfirst. Reilly's position as Global Head of Security for the Kensington Royal Hotel Corporation means he must keep his customers and staff safe as the crisis envelopes countries across three continents. His past as a State Department analyst means he recognizes the connections behind the seemingly disparate terror attacks, assassination plots, and authoritarian power plays that dominate the headlines. But it's the very knowledge that makes

him good at his job that also makes him a target—to the press, to the government, and to the forces gathering for another assault on America. Follow Reilly as he travels the world to safeguard both his company's assets and his country's secrets. With the US at the mercy of an egomaniacal leader, and reporters and covert agents on his tail, he may be the one man who can connect the dots before an even bigger catastrophe unfolds. RED DECEPTION is the second book in the RED Hotel series.

In 2155, 20 years after a lost war, humanity is imprisoned on Earth under an impenetrable slave shield. The only humans outside are a group of nearly 2000 men and women, assigned to serve their masters on a starbase in Earth's orbit. The starbase was supposed to be resupplied every five years, but already eight have passed without a word. Energy cores are exhausted and life support is failing. But then, just when all hope seems lost, they get visitors who might have the power to change everything. This book is the first part of the

novelization of Star Control 2, a computer game released in 1992, which many still consider one of the best games of all time.

The perspectives of children, teachers and professional writers are often absent in the pedagogy of writing. Highly Commended for the UKLA Academic Book Award 2013, *Writing Voices: Creating Communities of Writers* responds to such silent voices and offers a text which not only stretches across primary and secondary practice, but also gives expression to these voices, making a new and significant contribution to understanding what it means to be a writer. Drawing upon recent research projects undertaken by the authors and others in the international research community, this fascinating text considers the nature of composing and the experience of being a writer. In the process it: explores the role of talk, creativity, autonomy, metacognition, writing as design and the shaping influence of literature and other texts; examines young people 's composing processes and attitudes to writing; considers teachers ' identities as writers and what can be learnt when teachers engage reflectively in writing; shares a range of professional writers ' practices, processes and perspectives; gives

prominence to examples of writing from children, teachers, student teachers and professional writers alongside their reflective commentaries. This thought-provoking text offers theoretical insights and practical directions for developing the teaching and learning of writing. It is an invaluable read for all teachers and trainees, as well as teacher educators, researchers and anyone with an interest in the pedagogy of writing.
