Financial crisis - Wikipedia

The financial crisis of 2007–08, also known as the global financial crisis and the 2008 financial crisis, was a severe worldwide economic crisis considered by many economists to have been the most serious financial crisis since the Great Depression of the 1930s, to which it is often compared.

Warren Buffett Explains the 2008 Financial Crisis

The 2008 financial crisis is the worst economic disaster since the Great Depression of 1929. It occurred despite Federal Reserve and Treasury Department efforts to prevent it. It led to the Great Recession. That's when housing prices fell 31.8 percent, more than the price plunge during the Depression.

Who to blame for the Great Recession? So many big names ...

The financial crisis was primarily caused by deregulation in the

financial industry. That permitted banks to engage in hedge fund trading with derivatives. Banks then demanded more mortgages to support the profitable sale of these derivatives. They created interest-only loans that became affordable to subprime borrowers.
