My father talked about Atlantic City the way some women talk about their ex-boyfriends. No good. Avoid at all costs. Soul-sucking even without the demons. Never mind that we lived across the country where, by day we worked as mountain guides, and at night he trained me to use my magic-not that I was allowed to showcase it. That was a hard no. So I hid my powers the way he hid his bourbon-until his murder. With nothing to lose, I hightail it to-you guessed it-Atlantic City, where I make a deal with a group of monster hunters, including Saxon, a hot hybrid that ignites a helluva lot more than celestial fire. If I survive the takedown of an all-powerful demon, they'll help me investigate my father's murder. The look on her face spoke volumes. "Would I mind what? Carrying the severed head of a dead demon out of a cave?" There was a brief pause. "Yes, Harvey. Of course I would mind." With that she was gone. This was not the day Harvey had expected. It started pretty well: pleasant company; an easy climb to the top of the butte; some down time practicing his magic. He even ran into some old friends. Then came the damsels in distress. And the killing. And the demons. The hunter was dead now, and Harvey was left with questions... and an evil orb. He would find his answers at the top of the mountain. Tomorrow would be another day - another day of monsters and demons.

Many men dream of running away to a tropical island and living surrounded by beauty and exotic exuberance. Walter Spies did more than dream. He actually did it. In the 1920s and 30s, Walter Spies — ethnographer, choreographer, film maker, natural historian and painter — transformed the perception of Bali from that of a remote island to become the site for Western fantasies about Paradise and it underwent an influx of foreign visitors. The rich and famous flocked to Spies' house in Ubud and his life and work forged a link between serious academics and the visionaries from the Golden Age of Hollywood. Charlie Chaplin, Noel Coward, Miguel Covarrubias, Vicki Baum, Barbara Hutton and many others sought to experience the vision Spies offered while Margaret Mead and Gregory Bateson, the

foremost anthropologists of their day, attempted to capture the secret of this tantalizing and enigmatic culture. *Island of Demons* is a fascinating historical novel, mixing anthropology, the history of ideas and humour. It offers a unique insight into that complex and multi-hued world that was so soon to be swept away, exploring both its ideas and the larger than life characters that inhabited it.
