The Five Love Languages of Teenagers Routledge
In The 5 Love Languages, you will discover the secret that has transformed millions of relationships worldwide. Whether your relationship is flourishing or failing, Dr.

Gary Chapman's proven approach to showing and receiving love will help you experience deeper and richer levels of intimacy with your partner starting today. The Five Love Languages Moody Publishers
Every couple has disagreements. All too often, though, when we engage in arguments, our goal is not to resolve the conflict at hand, but rather, to win the fight. Unfortunately, when you win an argument, your spouse is the loser, and nobody wants to be or live with a loser.

When you resolve a conflict, your spouse becomes your friend. Good marriages are based on friendship, not on winning arguments. Now, Gary Chapman provides couples with a simple blueprint for achieving win-win solutions to everyday conflicts and disagreements. By learning how to listen empathetically, respecting each other's ideas and feelings, and understanding why particular issues are so important to their spouse, couples can find solutions that result not only in resolving the

conflict at hand, but also leave both partners feeling loved, listened to, and appreciated.

This book provides a comprehensive survey of the successes and failures of education and training in the Khrushchev and Breshnev years. The author gives an objective assessment of the accessibility of the main types of institution, of the contents of courses and of Soviet attempts to marry the functioning of their education system to their perceived economic and social

needs. In addition the book has many useful and original features: For ease of analysis it summarises in diagram form complex statistics which are not usually brought together for so long a time period. It provides a systematic account of educational legislation; Matthews' comparison of series of official decrees will allow subtle shifts in government policy to be accurately charted. Particular attention is also paid to a number of issues that are often neglected: the employment problems of school and college graduates; the role and

professional status of teachers; political control and militarisation in schools; the close detail of higher education curricula; and the rate of student failure. Of special value is the chapter on those educational institutions which are often omitted from Western studies and which are hardly recognised as such in most official Soviet sources.

Loving Your Spouse When You Feel Like Walking Away Moody Publishers Presents a controversial history of violence which

argues that today's world is the most peaceful time in human existence, drawing on psychological insights into intrinsic values that are causing people to condemn violence as an acceptable measure.
