The Flamingo's Smile: Reflections in Natural History, published in 1985, is the fourth volume of collected essays from evolutionary biologist and well-known science writer Stephen Jay Gould; the essays were culled from his monthly column The View of Life in Natural History magazine, to which Gould contributed for more than two decades. The book deals, in typically discursive fashion, with themes familiar to Gould's writing: evolution and its teaching, science biography, probabilities and ...

The Flamingos Smile (Reflections in Natural History) is written by Stephen Jay Gould. The theory of evolution is a kind of scientific thinking, which has not only overthrown some expectations and assumptions in the past, but also inspired us to think. Thinking about the origin has brought us with endless happiness.
