Zorian Kazinski has all the time in the world to get stronger, and he plans on taking full advantage of it. A teenage mage of humble birth and slightly above-average skill, Zorian is attending his third year of education at Cyoria's magical academy. A driven and quiet young man, he is consumed by a desire to

ensure his own future and free himself of the influence of his family, resenting the Kazinskis for favoring his brothers over him. Consequently, Zorian has no time for pointless distractions, much less other people's problems. As it happens, though, time is something he is about to get plenty of. On the eve of Cyoria's annual summer festival, Zorian is murdered, then abruptly brought back to the beginning of the month, just before he was about to take the train to school. Finding himself trapped in a time loop with no clear end or exit, he will have to look both within and without to unravel the mystery set before him. He does have to unravel it, too, because the loop clearly wasn't made for his sake, and in a world of magic even a time traveler isn't safe from those who wish him ill. Fortunately for Zorian, repetition is the mother of learning...

Neale Donald Walsch has changed the way millions of Americans think about God. His Conversations with God series, book 1, book 2, and book 3, have all been New York Times bestsellers--book 1 for over two years. The essence of Neale Donald Walsch's message lies at the heart of faith--the sacred place in every person, where he stands alone with his God. Walsch urges each of us to forge our own unique relationship with God, a God who is everywhere and speaks to us in all we do. It is

up to us to stop and listen. It is up to us to respond . . . to begin the conversation. And a conversation is the first step, just as in any relationship, in establishing trust, in building friendship, in creating communion. In Friendship with God, Neale Donald Walsch shares the next part of his journey, and leads us to deepen and strengthen our own bonds with God. He honors our heart's desire: a closer connection, richer and fuller. A friendship with God.

The Forge InterVarsity Press This doomsday masterpiece from the author of Eon and Hull Zero Three was a finalist for the Hugo and Nebula awards. On July 26, Arthur Gordon learns that Europa, the sixth moon of Jupiter, has disappeared. Not hiding, not turned black, but gone. On September 28th, Edward Shaw finds an error in the geological records of Death Valley. A cinder cone was left off the map. Could it be new? Or, stranger yet, could it be artificial? The answer may be lying beside it—a dying Guest who brings devastating news for Edward and for Planet Earth. As more unexplained phenomena spring up around the globe—a granite mountain appearing in Australia, sounds emanating from the earth's core, flashes of light among the

asteroids—it becomes clear to some that the end is approaching, and there is nothing we can do. In *The Forge of God*, award-winning author Greg Bear describes the final days of the world on both a massive, scientific scale and in the everyday, emotional context of individual human lives. The "reigning master of hard-edge science fiction takes a chilling look at the plausible near-future" in this cyberpunk sequel to *Queen of Angels* (Seattle Post-Intelligencer). In the second half of the twenty-first century, nanotechnology has transformed every aspect of society. Humans can now change their abilities, their appearance, their very bodies on microscopic level. Advanced psychotherapy seems to have wiped away violence and illness. The world is sane and in balance. However, that balance teeters with the grisly murder of two prostitutes and a series of suicides. Soon, public defender Mary Cho's investigation finds a dark danger lurking in the recesses of the "dataflow." Entertainment, virtual pornography, neo-Luddite separatists, an unknown artificial intelligence—everything seems to

be intertwined in a vast conspiracy. As technology fails so too does the society perched high atop it. Perfection is a high pedestal from which to fall.

Bart D. Ehrman, the New York Times bestselling author of *Jesus, Interrupted* and *God's Problem* reveals which books in the Bible's New Testament were not passed down by Jesus's disciples, but were instead forged by other hands—and why this centuries-hidden scandal is far more significant than many scholars are willing to admit. A controversial work of historical reporting in the tradition of Elaine Pagels, Marcus Borg, and John Dominic Crossan, Ehrman's *Forged* delivers a stunning explication of one of the most substantial—yet least discussed—problems confronting the world of biblical scholarship. *The Accidental Time Machine*
Harper Collins

The “provocative and entertaining follow-up” to *The Forge of God*: Exiled from their planet, humans unite with one alien race in the fight against another (Publishers

Weekly). The Ship of the Law travels the infinite enormity of space, carrying eighty-two young people: fighters, strategists, scientists—and children. After one alien culture destroyed their home, another offered the opportunity for revenge in the form of a starship built from fragments of the Earth's corpse, a ship they now use to scour the universe in search of their enemy. Working with sophisticated nonhuman technologies that need new thinking to comprehend them, they're cut off forever from the people they left behind. Denied information, they live within a complex system that is both obedient and beyond their control. They're frightened. And they're waging war against entities whose technologies are unimaginably advanced and vast, and whose psychology is ultimately, unknowably alien. In *Anvil of Stars*, the multimillion-selling, Nebula Award – winning author of *Eon* and other science fiction masterpieces “fashions an action-packed and often thrilling plot; by using each of the well-depicted alien races to mirror human behavior, he defines what it means to be *Homo sapiens*. . . . A gripping story” (Publishers Weekly). *Forged by Fire*

The homicidal attack is only the first in a series of events that sends the biochemist on the run, pursued by faceless enemies who want his studies terminated and Cousins dead. Cousins must face the realization that his research has

brought him into contact with a vast conspiracy. Across the country, scientists are being murdered to cover up the fact that someone has discovered how to control minds through bacterial manipulation—and that the trigger bacteria now infects much of the world's population. Discredited and not knowing whom to trust, Cousins must gamble everything with Earth's very survival at stake. Award-winning author Greg Bear creates a tense, stunningly plausible thriller all too firmly rooted in scientific fact.
